Residential Solar Energy Program Interconnection Application

B

Form B - To be completed by the Roseville Electric Customer-Generator

SECTION ONE – General Information

IMPORTANT NOTE: Applicant must complete this form and meet all energy efficiency requirements per California State law Senate Bill (SB)1. By installing cost effective energy efficiency measures before installing a solar electric system, the owner can lower the overall size and cost of the system and reduce monthly energy bills.

Complete all sections and sign this form. Submit the Form B and a copy of the energy audit along with this Residential Roseville Electric Solar Energy Application.

Customer-Generator Information		
Name (as appears on electric bill)	Roseville Electric Account #	
Installation Address (street and Zip)	Telephone	E-Mail
CIRCLE CONTRACT TYPE		
Owned	Leased	PPA
Solar Lending Company or PPA Provider Information		
Name of Company	Telephone	Fax
Mailing Address (street, city and zip)	City of Roseville Business License #	
Contact Name	Contact Phone	Contact E-Mail
Solar System Installer		
Name of Company	Telephone	Fax
Mailing Address (street, city and zip)	City of Roseville Business License #	Contractor's License #
Contact Name	Contact Phone	Contact E-Mail
Solar System Information		
Number of panels	CSI Rating	Estimated Installation Date
Energy Use Information		
I have reviewed my available 12 months of energy usage from Roseville Electric online audit at www.roseville.ca.us/EnergyAudit (You must enter your Roseville Electric Utility account number to obtain the report)	My annual kWh use from this report is:	

March 2014

Initial here _____	I had an energy efficiency audit completed on the home or I have completed a self-guided energy assessment of my home that identified cost effective energy efficiency improvements. To access the online audit, go to: www.roseville.ca.us/EnergyAudit (*Online Home Energy Assessment)*
	Prior to investing in a solar energy system I installed the following energy saving measures in my home: (STATEMENT REQUIRED)
	I intend to install the following energy efficiency measures on my home: (STATEMENT REQUIRED) by: _____ (date)

SECTION THREE - General Requirements for Interconnection & Access to Net Metering Tariffs

The Customer-Generator must initial each of the items below

Initial here _____	I have read and understand the terms set forth in the Roseville Electric Residential Solar Energy Program Applictions (Forms A and B) for system interconnection with Roseville Electric.
Initial here _____	The Contractor listed in the Roseville Electric Residential Solar Energy Program Installation Application (Form A) is authorized by the Customer-Generator to receive confidential Customer-Generator account billing and electric usage information pertaining to this installation.

By initialing the boxes above and signing this agreement, Customer-Generator authorizes Roseville Electric to release information to the contractor named in Form A regarding Customer-Generator usage and billing information, solar energy system location, size and operational characteristics as requested in the course of this interconnection process. Roseville Electric is granted permission to share information with authorized recipients for a period of three years from the date this agreement is received by Roseville Electric. In addition, Customer-Generator authorizes Roseville Electric to release to the California Energy Commission information regarding Customer-Generator facility size and operational characteristics (excluding Customer-Generator name, contact information, other personal information and solar energy system location) as requested from time to time pursuant to the California Energy Commission's rules and regulations.

Residential Solar Energy Program Interconnection Application

B

RULE 21

It is recommended that all applicants and their contractors obtain copy of Roseville Electric's Rule 21 from Roseville Electric's web site (www.roseville.ca.us/Rule21), read and understand all interconnection requirements. Failure to abide by these requirements could result in a delay in interconnection and payment of any rebate. All systems installed in parallel to Roseville Electric's distribution grid must meet these requirements.

1. **Access to Roseville Municipal Code Customer-Generator solar electric generation rates.**
   - Per Roseville Municipal Code, access to the rate is conditioned upon the Customer-Generator meeting all Rule 21 equipment and operational standards.
   - Failure to meeting and/or maintaining Rule 21 equipment and operational standards may result in the loss of access to solar net metering.
2. **Permission to Interconnect**
   - **Customer-Generators must not operate their solar energy system in parallel with Roseville Electric's Distribution System until they receive the signed Interconnection Approval, Form D, from Roseville Electric; and the net meter has been installed.** Unauthorized Parallel Operation could result in injury to persons and/or damage to equipment and/or property for which the Customer-Generator may be liable. Roseville Electric shall have the right to disconnect the solar energy system from Roseville Electric's system. Customer-Generators solar energy system shall remain disconnected until the building inspector has approved the solar system installation.
   - **Safe Operation of your solar energy system:** Notwithstanding any other provision of this Application, if at any time Roseville Electric determines that either (a) the Customer-Generators facility, or its operation, may endanger Roseville Electric personnel, or (b) the continued operation of the Customer-Generators facility may endanger the safe and reliable operation of Roseville Electric's electrical system, Roseville Electric shall have the right to disconnect the solar energy system from Roseville Electric's system. Customer-Generators solar energy system shall remain disconnected until such time as Roseville Electric is satisfied that the unsafe condition(s) have been corrected.
3. **Meter Access**
   - Your meter must remain unobstructed by locked gates or pets. Additionally, meter access must be maintained at all times for meter reading and system maintenance. Any animals owned by the Customer-Generator, including pet dogs, should not have access to these areas to avoid hindering Roseville Electric service personnel, preventing them from completing their work.
4. **Document and Cost Requirements**
   - Other Documents and/or Costs *may* be required and there may be requirements for interconnection in addition to the above list**,** depending on the specifics of the planned Generating Facility. Other approvals and/or other agreements may be needed for special Roseville Electric programs or regulatory agency requirements.

B

SECTION FOUR - Interconnection Terms & Conditions

Terms and Conditions

The undersigned declares under penalty of perjury that:

- The site installation is located within the service territory of Roseville Electric.
- The above described generating system is intended primarily to offset part or all of the Applicant's electrical needs at the site of installation.
- The Applicant has read and understood the program requirements set forth in the Application (Forms A & B) and has agreed to abide by those requirements.
- If a rebate is paid, the Applicant understands that the specified system must be mounted permanently and remain in operation in Roseville for no fewer than 10 years.
- The Applicant understands that program funds are limited, reservations are required and that rebates are available on a first-come-first-served basis.
- The Applicant understands that program funds are not reserved until Roseville Electric confirms the reservation; a letter will be e-mailed to the Customer-Generator and contractor with the reservation approval.
- The applicant understands that Roseville Electric Residential rates and rate structure may change over time and that the current applicable rates will apply.
- The Applicant agrees that the selection, purchase, and ownership of the equipment are his or her sole responsibility. Roseville Electric makes no representation as to the safety, reliability, and/or efficiency of the equipment selected or components thereof.
- The Applicant acknowledges that Roseville Electric is not responsible for any taxes that may be imposed as a result of any financial rebates from Roseville Electric.
- Roseville Electric makes no warranty, whether expressed or implied, including warranty of merchantability of fitness for any particular purpose, use, or application of the equipment.
- The information provided in this form is true and correct to the best of his or her knowledge.

IMPORTANT: This application MUST be fully completed, signed and returned to Roseville Electric before the system will be considered for interconnection and potential rebates.
