Non-Residential Development Impact Fee Deferral Application

Impact Fee Deferral Program

The Impact Fee Deferral Program allows applicants to defer the payment of City controlled impact fees for new non-residential development and building expansions.

Please contact the Building Division at 916-774-5332 prior to submitting this deferral application to obtain a fee estimate and verify the program requirements related to your project. Where deferred fees are estimated to be \$99,999 or less, the Development Services Department may approve the deferral administratively. Where deferred fees are estimated to be \$100,000 or more, please contact the Economic Development Department at 916-774-5362 as City Council approval will be required. At time of submittal, please provide a copy of your fee estimate and, if applicable, a copy of the Resolution approved by Council with this completed application.

Payment of all deferred fees will be required prior to final inspection or issuance of a Certificate of Occupancy. To utilize the program, a processing charge of \$625 will be collected at the time of permit issuance. In addition, a supplemental fee totaling the City's pooled interest rate ten year average will be collected prior to final inspection to cover the financing costs of monies deferred.

By completing and signing this form you hereby agree to the program requirements, processing charge and supplemental fee, as outlined above and in Roseville Municipal Code Section 4.04.
