Solid or Liquid?

Subject: Science, Problem Solving

Water can occur in three states: solid, liquid or gas. Can you think of what those different types of water might be? Try this activity to identify examples of solid and liquid water.

Materials List

1. This worksheet
2. Pen or pencil

See other side for worksheet

Grade: 2nd

Time: 5 minutes

Vocabulary: glacier, ice caps, arctic, Antarctic, river, pond, lake, hail, snow

NGSS: 42-ESS2-3: Obtain information to identify where water is found on Earth and that it can be solid or liquid.

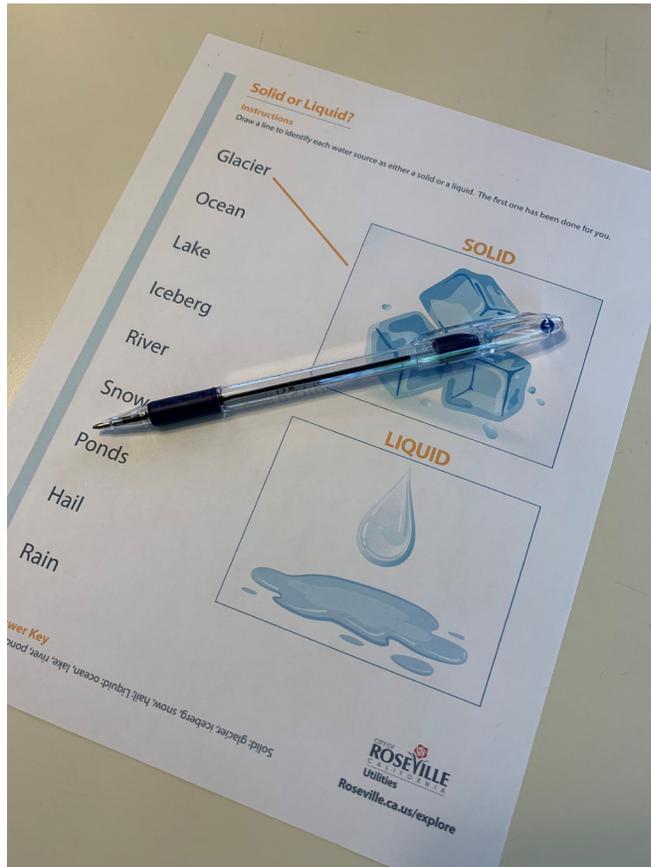

Table Talk

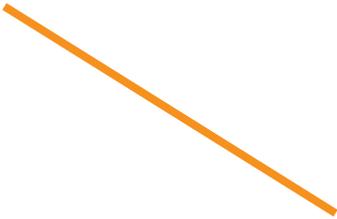

1. Can you use solid water?
2. What do you think is the best kind of water for most of your needs - solid or liquid? Why?

Solid or Liquid?

Instructions

Draw a line to identify each water source as either a solid or a liquid. The first one has been done for you.

Glacier

SOLID

Ocean

Lake

Iceberg

River

LIQUID

Snow

Ponds

Hail

Rain

Answer Key

Solid: glacier, iceberg, snow, hail; Liquid: ocean, lake, river, ponds, rain
