

**Stormwater Post-Development  
Control Measure Maintenance  
Self Inspection Check List  
For Constructed Wetland Basin**

Date: \_\_\_\_\_ Time: \_\_\_\_\_ Permit # : \_\_\_\_\_

Inspection done by: \_\_\_\_\_

**I. PROJECT INFORMATION**

1. Year Installed: \_\_\_\_\_

2. Project Type:  Single Family Residential  Multi-Family Residential  
 Industrial  Commercial  Other \_\_\_\_\_

3. Facility Name: \_\_\_\_\_  
Site Address: \_\_\_\_\_

**II. CONTROL MAINTENANCE ACTIVITY ITEMS**

- Trimmed vegetation (as applicable) and removed weeds to limit unwanted vegetation.
- Removed litter and debris from landscape area.
- Used integrated pest management (IPM) techniques to reduce use of chemical pesticides and herbicides.
- Inspected the planter to determine if runoff is infiltrating properly. (At least twice per year during Storm events)
- Reconstructed or replaced the control measure when it no longer functioning properly. (Lifespan of Constructed Wetland Basin is approximately 20 years)
