Customer-Generator Signature	

Interconnection Approval

Roseville Electric Utility will sign below and e-mail a copy of this form to the Customer-Generator and Contractor once interconnection approval is granted, the system may not be turned on until this signed form is received. Once approved the net meter will be ordered. Setting of the net meter will cause an outage at the home. Once the net meter has been installed, the PV system may be turned on. The net meter has a small green label and is labeled 'Net.' **A final system operational inspection will occur sometime after the net meter has been set.**
