

# Business/Commercial Solar Approval to Interconnect Form C

## Form C - To be signed by Roseville Electric Utility

### SECTION ONE - General Information

**Completed, signed and sent to the Customer-Generator by Roseville Electric Utility.**

Roseville Electric Utility's Business/Commercial Solar Approval to Interconnect Form C grants approval to connect to Roseville Electric Utility's electric distribution grid. The system identified below may now be turned on and operated by the Customer-Generator.

Customer-Generator Information		
Name (as appears on electric bill)	Roseville Electric Utility Service Account #	
Installation Address (street and zip)	Net Meter # (if applicable)	
Production Meter # (if applicable)	Production Phone # (if applicable)	Final CSI CEC-AC Watt System Size (kW)

Customer-Generator shall contact Roseville Electric Utility prior to making changes to the PV system approved by this document. Distributed generation systems shall comply with all requirements for interconnection as outline in Roseville Electric Utility's Rule 21, Construction Standards, and Business/Commercial Solar Energy Program. Customer-Generators shall be granted approval for interconnection of a distributed generation system to run in parallel to Roseville Electric Utility's distribution grid upon receipt this form. Customer-Generators shall NOT interconnect to Roseville Electric Utility's grid without prior written permission from Roseville Electric Utility.

Routine maintenance of existing systems do not require contact with Roseville Electric Utility.
