City Manager's Budget Message

EXECUTIVE OVERVIEW

Fiscal Summary

Roseville's fiscal outlook will see a significant improvement in Fiscal Year (FY) 2019-20 due to a half-cent sales tax increase (Measure B) approved by voters in November 2018. This increase became effective on April 1, 2019. The City will begin receiving the estimated \$16 million to \$19 million annually in new sales tax revenue around July 1, when this budget takes effect.

While the approval of Measure B will undoubtedly help stabilize General Fund services, protect our quality of life and fund high-priority areas identified by the community, it is not sufficient by itself to maintain long-term fiscal stability. In the next several years we will continue to see cost increases from federal and state mandates, supplies and materials, pensions, and labor. Therefore, we must continue to look for ways to identify operational efficiencies, reduce expenses including pension costs, increase revenue, and reduce the size of our organization in non-growth areas.

We are anticipating a large number of retirements over the next year. This is both a challenge and an opportunity. It will require more time, training and development for new employees, but it provides us a unique opportunity to reduce the size of the organization with less disruption. It also means there are services that we will no longer provide. With an eye

on strategic growth, we will balance the elimination of vacant positions in areas that align with the community's priorities and increase of staffing in areas that the community has indicated are important to them.

As was the case with the FY2018-19 General Fund budget and in accordance with Council policy adopted in FY2016-17, the FY2019-20 General Fund budget matches budgeted expenses with projected revenues without the use of reserve funds.

Although the City's General Fund budget is balanced for FY2019-20, many underfunded needs remain. The City was able to maintain service levels during the recession by deferring millions of dollars' worth of capital improvements and maintenance, borrowing from reserves, and lowering payments to key funds such as workers' compensation and retiree health. As the economy recovered, the Council adopted policies to ensure that future revenues are allocated to move towards fully funding these crucial obligations.

This budget builds on the importance expressed by the community to maintain services that enhance our quality of life. Measure B revenues assist in preventing further cuts to services this year. Also, the budget includes \$6.8 million in funding for the City Council's newly established General Fund stabilization reserve fund. This fund will help us weather a future economic downturn by minimizing drastic cuts

City Manager's Budget Message

to services in the event of a significant drop in revenues. This budget also continues to fund the overhaul of aging technology systems to help us meet the demand for more immediate, precise data and to improve efficiency as well.

With an overall City budget of about \$554 million, only \$158 million comprises the General Fund operating budget. The majority of the remaining \$396 million in funding is dedicated toward electric, water, wastewater and solid waste operations.

Of the \$158 million General Fund budget, \$34 million of expenditures are offset by restricted revenue, coming from grants, specific fees, and taxes tied to specific programs. Non-discretionary expenditures and transfers totaling \$23 million are required by Council-approved policies and agreements. Council has discretion over \$102 million that is unrestricted. Over half of this unrestricted funding—about \$64 million—goes toward public safety, the Council's top priority. The rest funds parks, recreation, libraries, museums, streets, floodplain management, code enforcement, and general government such as: finance, legal, human resources, public records, website, broadcasting, and custodial maintenance.

It's an ongoing balancing act to ensure that service levels are maintained and that funding aligns with operational necessities and community priorities. With this approach in mind, departments are implementing the following efficiency strategies during FY2019-20:

- Elimination of low priority vacant positions
- Utilization of technology to increase service levels and efficiency
- Implementation of cost-saving department reorganizations

Given the funding priorities for Measure B revenues described below, there is limited room for budget growth without new sources of revenue. There is also limited capital available for new projects.

Strategic Funding initiatives from Measure B

Although expenses are growing at an increasing rate, Measure B revenue has allowed the City to maintain current services levels, restore others, and strategically increase spending in high-priority areas while still achieving a balanced budget.

As part of the EngageRoseville effort in 2017 and 2018, the City asked residents for their priorities in city services to guide the city in developing future budgets. Those priorities, along with Council priorities, are reflected in the FY2019-20 budget and are indicated below in the list of services that will be maintained, restored or added. Additionally, this has allowed

for the establishment of an economic stabilization reserve fund and for the City to begin to pay down outstanding liabilities.

Services maintained include:

- Specialized police and fire services
- Fire engine company
- Recreation and library programs
- Street maintenance levels
- Job-creation and business-recruitment initiatives

Services restored include:

- Library hours
- 4th of July fireworks
- Fire training and investigations
- Goat grazing for thatch management in open space
- Park maintenance standards
- Industry training and development

Services added include:

- Establishing new police beat in west Roseville
- Maintenance for three citywide parks, allowing for construction to occur

Fiscal health investments include:

- Build economic stabilization reserve fund
- Pay down CalPERS pension obligation
- Pay down retiree health liability

To promote transparency and accountability for the Measure B revenue, the Council enacted the provision in the measure that calls for a Local Sales Tax Oversight Committee.

The five member Local Sales Tax Oversight Committee will be charged with the annual review and report to the City Council on the revenue and expenditures of revenues generated by Measure B.

Workforce Changes and Investment

The City's largest General Fund expense is labor. For the past six years, the City and its labor groups have partnered to slow payroll growth, reduce retirement benefits, and lower salaries.

The City's compensation philosophy remains focused on fiscal responsibility by offering competitive wages to employees that we can afford. The City benchmarks total compensation (salary and benefits) at the median of the labor market in order to manage rising pension costs and still be competitive in hiring qualified employees. It also recognizes that, in unique situations, the City may have to pay above the market median to attract qualified candidates or retain skilled employees.

City Manager's Budget Message

Performance audits were conducted throughout the City's operations to ensure our staffing levels are appropriate. The studies confirmed we're staffed below the requirements to support the service levels at which we operate. The City has temporarily overcome the staffing shortage due to efficiencies gained by having long-term, seasoned staff in place, but many of those employees are retiring. As they retire, we are reassessing priority areas, to take advantage of this unique opportunity to reorganize our staffing models. By relying on the community input and priorities, we will staff our operations appropriately. At the same time, this budget reinvests in education and training for our workforce. We continue to learn about and implement industry best practices as we strive to be the workplace of choice for people at all stages of their careers. This approach ensures high-quality services for our community.

Fiscal Trends

During FY2019-20 the City is expected to receive \$72.3 million in sales tax revenues, including a conservative estimate of \$16 million for the new Measure B local sales tax, and \$48.9 million in property tax revenues. Sales and property tax revenues will account for 76 percent of the City's FY2019-20 General Fund revenues.

Sales tax revenue in FY2019-20, other than the new Measure B local sales tax, is forecasted to remain flat compared to the FY2018-19 projections. Sales tax growth in future years is projected to grow at a reduced rate compared to the past several years. This slowing growth rate is primarily due to the transition to a service economy. Because California does not tax services, the City receives no revenue when people purchase services (such as a lawn service), instead of goods (such as a lawn mower). At the same time, however, the recent Supreme Court's ruling in the Wayfair decision opens the door for states to begin requiring out-of-state online sellers to collect sales tax. The State's implementation of this ruling, effective April 1, 2019, combined with new State legislation requiring online 'marketplace facilitators' to also collect sales tax effective October 1, 2019, is expected to result in additional sales tax revenue for the City.

Utility franchise fees from electric, natural gas, and cable companies comprise 5 percent of General Fund revenues. The remaining 19 percent of revenues come from development-related fees, permits, recreation programs, business license taxes, hotel/motel tax, grants, etc.

City of Roseville Three-Year Operating Revenue (in millions)			
	Actual FY2017-18	Amended FY2018-19	Proposed FY2019-20
Sales Tax	\$51.6	\$56.9	\$72.3
Property Tax	\$44.2	\$44.7	\$48.9
Subtotal	\$95.8	\$101.6	\$121.2
Other Operating Revenue	\$38.9	\$40.1	\$38.1
Total	\$134.7	\$141.7	\$159.3

After forecasting the City's revenue, the City must account for continued pressures on the expense side which include the increasing costs of salaries, benefits, CalPERS retirement costs, retiree health costs, and state minimum wage increases affecting the City's contracts with suppliers.

City of Roseville Three-Year Operating Expense Trend (in millions)			
	Actual FY2017-18	Forecast FY2018-19	Proposed FY2019-20
Operating Expenditures	\$132.7	\$140.0	\$157.9

Positions

The FY2019-20 budget includes recommendations for a net increase of 9.00 full-time equivalent (FTE) General Fund positions, including elimination of three low priority vacant positions. New General Fund positions recommended to address service level requirements, totaling 12.00 FTE, include 5.00 Police Officer FTE, 1.00 Economic Development Supervisor FTE, 0.50 Deputy City Clerk FTE, 1.00 City Clerk Technician FTE, 0.50 Finance Technician FTE, 1.00 Geographic Information System Technician (GIS) FTE, 2.00 Street Maintenance Worker II FTE, and 1.00 Code Enforcement Inspector II FTE.

The budget recommends a net increase of 21.00 FTE positions in non-General Fund funds. A net decrease in staffing levels in the Transportation Fund is due to the addition of 0.25 Alternative Transportation Analyst FTE position and elimination of 0.75 Office Assistant FTE position. An additional 18.00 FTE positions are recommended to be added to the Environmental Utilities (EU) Funds (Solid Waste, Water, Wastewater and Stormwater) as part of the EU Department's ongoing resource realignment. The budget also includes a net increase of 2.00 FTE positions in the Electric Fund and the addition of a 0.50 FTE position shared by the Electric and EU Funds. In addition, a 1.00 Information Technology Analyst FTE position is recommended in the Information Technology Operations Internal Service Fund (ISF).

Citywide, the budget increases staffing levels by 30.00 FTE positions after taking into account all new positions, eliminations, reclassifications, and transfers. As we grow in both size and complexity we will need to add positions to deliver the services we provide. The new positions in this budget are a result of new technology, additional workloads, and growth of our City. The table on the following page summarizes the position changes:

City Manager's Budget Message

Fund	FTEs Added	FTEs Eliminated	Net Change
General Fund	+4.00 Police Officers (Beat 7) +1.00 Police Officers (Traffic) +1.00 Economic Development Supervisor +0.50 Deputy City Clerk +1.00 City Clerk Technician +0.50 Finance Technician +1.00 GIS Technician +2.00 Street Maintenance Worker II +1.00 Code Enforcement Inspector II	-1.00 Public Safety Outreach & Community Relations Analyst -1.00 Community Services Officer -1.00 Assistant Engineer	+9.00 FTE

Information Technology Operations ISF	+1.00	No Change	+1.00
Overall Change	+34.75 FTEs	-4.75 FTEs	+30.00 FTEs

Economic Indicators

While economic development helps maintain Roseville's competitiveness in the marketplace, it won't solve the City's budget issues. Nonetheless, looking at key economic indicators, including the labor market and residential, retail, and commercial sectors, Roseville's economy remains strong. At the close of FY2018-19, single-family residential home production is expected to finish approximately 15 percent below the City's historical annual average of 900 permits, due in large part to a decline in the finished lot inventory. However, projections for FY2019-20 expect a 13 percent increase in single-family home production over the historical annual average as new subdivisions in the Sierra Vista and West Roseville Specific Plan (Fiddymont Ranch) areas come online. Consistent with past years, the budget includes a conservative single-family residential building permit issuance assumption of 900.

A total of \$136 million in commercial investment (\$56 million in new commercial building construction valuation and \$80 million in commercial tenant improvements) will close out FY2018-19. New commercial construction and tenant improvement valuation should decline slightly in FY2019-20 as large projects such as Kaiser Riverside and Adventist Health come to completion. The City conservatively estimates roughly \$100 million in total commercial construction and tenant improvements for FY2019-20, indicating a continuation of strong investment in Roseville's commercial sector.

This past year, work neared completion on many new, large, long-term projects. These include a five-story, 275,000 square-foot corporate-office headquarters complex for Adventist Health; 220,000 square feet of new medical office buildings and a two-level parking structure for Kaiser Permanente's Riverside campus; 100,000 square feet for Sutter Roseville Medical Center, including new critical care units and a significant expansion of its emergency department; a new medical-supply distribution facility for McKesson's new Roseville location; grand opening of the first phase Campus Oaks Apartments, including 42 affordable units; two new hotels and a Living Spaces home furnishings store adjacent to Top Golf; a new Villa Sport athletic-club facility; and the start of grading at the Sierra Vista Specific Plan property. Work is also underway on a new sports facility complex @TheGrounds, the Placer County Fairgrounds site in Roseville. The facility is expected to draw thousands each year for competitive youth sports tournaments and meeting and convention needs.

At the Westfield Galleria at Roseville, redevelopment of Sears will bring a 14-screen theater with an entertainment facility featuring bowling, darts, pool, and a restaurant, as well as other lifestyle additions. Tesla began selling its electric vehicles at the Galleria in December 2018.

In Roseville's downtown, Lohse Apartments, a 58-unit, mixed-use by Mercy Housing opened in January 2019 on Vernon Street. Construction of Main Street Plaza Apartments on the corner of Washington and Main, began in spring, bringing 65 affordable

City Manager's Budget Message

units and 3,000 more square feet of commercial space to the historic district. Junction Crossing will bring 80 affordable units to Pacific Street. Its developer St. Anton Communities, is expected to break ground in 2019 when it receives additional financing.

Summer 2019 brings the opening of two new pedestrian bridges over Dry Creek, linking downtown and Royer Park. The third downtown bridge, the historic Icehouse Bridge, was rotated to better align with the recently extended bike and pedestrian trail to strengthen off-road connectivity in our city.

Space is at a premium across all sectors of Roseville's commercial property, according to the City's Economic Development Department. The office sector is at 90 percent occupancy. Industrial space is 97 percent filled.

As a regional shopping destination, Roseville draws shoppers from far beyond the city limits while also offering ideal consumer demographics nearby for a variety of retailers. Retail space showed a strong 95 percent occupancy, confirming Roseville as the region's retail powerhouse.

Roseville's top five private-sector employers are Sutter Health, Kaiser Permanente, Adventist Health, Pride Industries, and Top Golf. Job growth remains strong, with a 12.7 percent increase projected over the next five years, and the unemployment rate stands at 3.5 percent.

Council Priorities

The Roseville City Council established multi-year priorities in 2012 and has added to them at annual goal-setting workshops in the years since.

Following are the City Council's priorities for FY2019-20, which are supported in the budget:

- Public safety
- Fiscal responsibility
- Economic development
- Sound and stable utilities
- A great downtown
- Infrastructure
- Legislative advocacy
- Civic engagement
- Core neighborhoods
- Regional engagement
- Culturally rich community

Highlights of What's on the Horizon

- Operationalizing results from EngageRoseville input on community priorities with Measure B revenues
- Expanding police beat in west Roseville
- Opening a new passport service center
- Initiating a study of fire service levels and staffing models
- Processing development approvals for new residential areas within Roseville
- Ensuring appropriate mitigation of impacts to city services and infrastructure from regional development on city borders
- Expanding the presence of higher education institutions in downtown Roseville
- Looking for ways to relieve traffic congestion on Interstate 80 and Highway 65 and throughout South Placer County
- Opening six new parks throughout Roseville
- Launching a small-business financing program, Roseville Advantage, through a partnership with the City and local banks
- Opening a new community solar project, Roseville Solective
- Working on ways to improve water reliability, waste reduction and processing

City Manager's Budget Message

- Upgrading utility meters
- Improving passenger rail service between Roseville, Sacramento and the Bay Area
- Implementing an extensive new technology program for City finance, budget, billing, and human resource needs
- Advocating for local control and other City priorities at the state and federal levels, particularly around affordable housing and infrastructure development

Looking Ahead

Knowing where our challenges lie is a critical first step in being able to address them. Roseville's tradition of sound fiscal management has served us well through the tough times of the recession and the cost pressures that followed. This coming fiscal year will be a turning point as we focus on strategies to keep us on a sound financial footing, including investing strategically in priorities for Measure B revenues as identified through a year's worth of community outreach. We will continue to work in partnership with our community to support these priorities and deliver desired service levels, through efficient and effective

business models. This budget allows us to fund core services, implement Council priorities and live within our means while building a stabilization reserve fund to weather economic cycles. This coming fiscal year is a dynamic time bringing both challenges and opportunities to our city. However, I am confident by working together with our community, Council, and committed staff we will capitalize on opportunities and mitigate challenges, positioning Roseville to effectively deal with the changes that come in the years ahead and remain a great city to live, work, and play.

Awards & Achievements

- The Public Affairs & Communications Department won a national Granicus Digital Strategy Award in the Continuous Improvement of Public Services category, competing with local, state, and federal agencies.
- The California Capital Chapter of the Public Relations Society of America recognized the EngageRoseville initiative with an Influencer Award in 2018.
- On an international level, the Public Affairs & Communications Department was recognized with a 2018 Adobe Government Creativity Award in the Multi-Channel Campaigns - Citizen-facing Campaign category.
- At the statewide annual conference of the California Association of Public Information Officials, the Public Affairs & Communications Department was awarded Best in Show along with 5 other awards for EngageRoseville community outreach, planning, and podcast; and the What's Happening in Roseville video series.
- The City's HUB intranet site won third place in a national competition comparing intranets for User Experience and Content Management".
- Environmental Utilities received the Award of Excellence from 3CMA – City-County Communications and Marketing Association for Sustain the Gains Landscape Makeover Contest.
- Environmental Utilities received a Merit Award from the Public Relations Society of America California Capital Chapter for External/Community Relations Campaigns for the Sustain the Gains Landscape Makeover Contest.
- The City's Wastewater utility was recognized as a "Utility of the Future Today" by the National Association of Clean Water Agency (NACWA), the Water Environment Federation (WEF), the Water Environment & Reuse Foundation (WE&RF) and WaterReuse.
- The Finance Department received Recognition for Excellence in Budgeting from the California Society of Municipal Finance Officers for the FY2018-19 budget.
- Government Finance Officers Association awarded the Distinguished Budget Presentation Award to the Finance Department for the FY2018-19 budget.
- Government Finance Officers Association awarded the Certificate of Achievement for Excellence in Financial Reporting to the Finance Department for the FY2017-18 Comprehensive Annual Financial Report.
- The City received Government Finance Officers Association's Award for Excellence in Government Finance for its EngageRoseville submission.
- The City's 316 Vernon Street Office Building was recognized by the American Society of Civil Engineers as the Architectural Engineering Project of the Year for District 9 (California).
- The Parks, Recreation & Libraries Department received its 12th consecutive James Farrell Award for Excellence for doing an outstanding job hosting Amateur Softball Association National Championship Tournaments.
- The National Arbor Day Foundation recognized the City of Roseville for its commitment to sustainable urban forest management with the 36th Tree City USA Award and for its high level of tree care with the 23rd Tree Growth Award.
- The Development Services Department, Building Division, has achieved compliance with the International Accreditation Services (IAS) criteria for building departments/code enforcement agencies, making it the only accredited building division in the State of California and one of only 25 accredited building departments in the country.
- The Roseville Fire Department was recognized by the American Heart Association as a Mission Lifeline Bronze medal winner for their outstanding job providing care for ST-Elevation Myocardial Infarction (STEMI) patients.
- The Information Technology Department received the 2018 Excellence in IT Practices Award, and the President Award from the Municipal Information Systems Association of California (MISAC), covering the areas of budget and strategic planning, purchasing, operations and staffing, customer satisfaction, internet, project management and application development, professional development and training, disaster preparation and recovery, security, GIS, and delivering a base level of services.
- The Information Technology & Utilities Departments were recognized by Data Splice Corporation for the Citywide Maximo - Work Order, Mobility and Asset Management efforts at their 2018 Annual Maximo Conference.
- International City/County Management Association (ICMA) recognized the City's Cyber Security Best Practices & Partnership Efforts on their "18 Experts on 2018 Local Government Predictions".

Awards & Achievements

- Roseville Electric Utility received the California Association of Public Information Officials' Excellence in Public Information and Communications Epic Award for "Life is Electric Renters Campaign".
- Roseville Electric Utility received the Northwest Public Power Association's Safety Award - second place for a utility with 200,001 - 300,000 hours of exposure.
- Roseville Electric Utility's Journeyman Team received third place at the American Public Power Lineman's Rodeo.
- Roseville Electric Utility received third place in Website Design from the Northwest Public Power Association.
- Public Works Engineering received the Roseville Road Safety Improvement Project - American Society of Civil Engineers, Sacramento Section - 2017 Outstanding Roadway and Highway Project of the Year.
- Public Works Engineering received the 2017 Outstanding Architectural Engineering Project of the Year award for the Louis - Orlando Transfer Point Improvement Project - American Society of Civil Engineers, Sacramento Section.
- Public Works Alternative Transportation Division received the California Association of Public Information Officials' EPIC Award of Distinction for Game Day Express branding.

The City of Roseville received the Government Finance Officers Association's (GFOA) Distinguished Budget Award and the California Society of Municipal Finance Officer's (CSMFO) Operating Budget Excellence Award for the FY2018-19 budget. These awards represent a significant achievement and reflect a commitment of the governing body and staff to meeting the

highest principles of governmental budgeting. In preparing the FY2019-20 budget, staff has once again followed the GFOA and CSMFO criteria as well as made enhancements. This document will be submitted to the GFOA and CSMFO for consideration for the FY2019-20 budget awards.

Demographics

Population

As of January 1, 2019, the State Department of Finance estimated Roseville's population to be 139,643. This represents an increase of 3,383 new residents from the previous year.

Future Population

Roseville's current growth rate is approximately 2.5 percent, which is much higher than the current California rate of 0.60 percent or the national rate of 0.71 percent. Placer County continues to be recognized by the Department of Finance as one of the State's fastest growing counties. Current estimates indicate the population of Roseville will surpass 140,000 by the end of 2020 (Development Services Department).

Education

The Roseville community has clearly established education as a high priority. Over 94.4 percent of Roseville residents, over age 25, have a high school diploma, with approximately 39.7 percent obtaining a bachelor's degree or higher (Civic Dashboards). Roseville high schools have an average drop-out rate below that of the national average of 8 percent and considerably lower than the state average of 17 percent. All three schools also have SAT averages above the national average of 1,068 and the state average of 1,076.

Household Income

The median household income in Roseville is \$78,446 compared to the state median of \$63,783 (www.civicsdashboards.com).

Persons Per Household

The average Roseville home has 2.69 people, which is slightly more than the county average of 2.68 persons per household (State of California Department of Finance).

Historical Population	
Year	Residents
1910	2,608
1960	13,421
1970	18,221
1980	24,347
1990	44,685
2000	79,921
2005	102,191
2010	118,233
2015	131,433

Residential Development

Building Permits (Issued SFDs)

The City's Building Division issued 1,009 single-family dwelling (SFD) building permits for FY2017-18. The number of building permits issued is slightly less than the previous year's total of 1,057. However, residential permit issuance remains well above the low of 410 permits issued in FY2010-11 (City of Roseville, Building Division).

Occupancy Permits (Finaled SFDs)

In FY2017-18, the Building Division finaled 1,200 SFD building permits, which was higher than the 810 finaled SFD permits in FY2016-17. Continued residential growth is expected throughout the upcoming fiscal year based on the number of approved/issued SFD permits (City of Roseville, Building Division).

Total Housing Units

There are currently 54,858 completed housing units in Roseville. Single-family units make up 80 percent of the total housing units, while multi-family development makes up 20 percent (City of Roseville, Planning Division).

Single-Family Residential Home Prices and Values

The median home value in Roseville is \$459,500. Roseville home values have gone up 2.9 percent over the past year and are predicted to rise 1.5 percent within the next year. The median list price per square foot is \$232, which is lower than the Sacramento--Roseville--Arden-Arcade Metropolitan Statistical Area (MSA) average of \$241.

Single-Family Residential Forecast

As of January 2019, there was an inventory of 573 approved single-family lots awaiting construction with an additional 22,065 allocated. The undeveloped lots are primarily located in the Stoneridge, North Roseville, Sierra Vista, West Roseville, and Creekview specific plan areas (City of Roseville, Business Services Division).

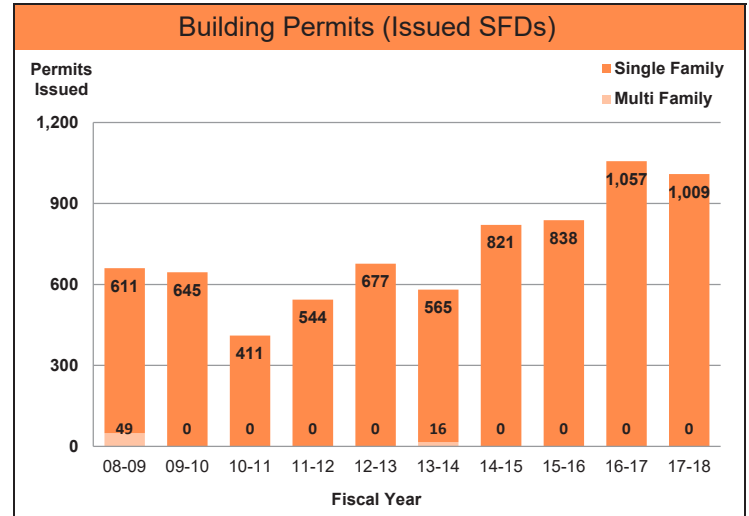

Industrial Development

Developed Industrial Space

As of January 2019, Roseville had a total of 14,498,113 square feet of developed industrial and warehouse space. The majority of industrial space is located in the North Industrial and Infill areas (City of Roseville, Business Services Division).

Industrial Activity

Development of industrial land has continued to increase over the previous year as vacancy rates remain at historic lows (currently at approximately 3 percent).

Source: City of Roseville, Building Division

Source: City of Roseville, Building Division

Commercial Development/Office Development

Commercial development has increased over the previous year with new commercial development totaling 696,108 square feet. New commercial development has primarily been related to the construction of restaurants, retail space, and other personal service uses. Office space vacancy is approximately 9 percent and the current inventory is 5,201,000 square feet. Due to the total vacancy rate, it is not anticipated that significant office development will occur in the upcoming year.

Cost of Doing Business

The Kosmont Rose Institute identified Roseville as one of the 20 least expensive California cities in which to do business for 2018. Roseville has been on this list for 14 consecutive years. The study analyzes fees, taxes, and business incentives to determine its rankings.

Active Business Licenses

The City of Roseville had a total of 8,910 active business licenses as of April 5, 2019. This number represents all businesses with an active business license in Roseville. This is an increase of 48 active business licenses over the prior year.

Demographics

Employment

Jobs and Employed Residents

Per Emsi (a labor market analytics firm), Roseville is estimated to have 88,597 jobs and a resident labor force of approximately 57,000. The labor force has increased approximately 17 percent since 2012. Overall, the City of Roseville and the Greater Sacramento Region is expected to see continued job growth over the next 12 months.

Positive job growth further illustrates the continued strength in the business market.

Unemployment Rate

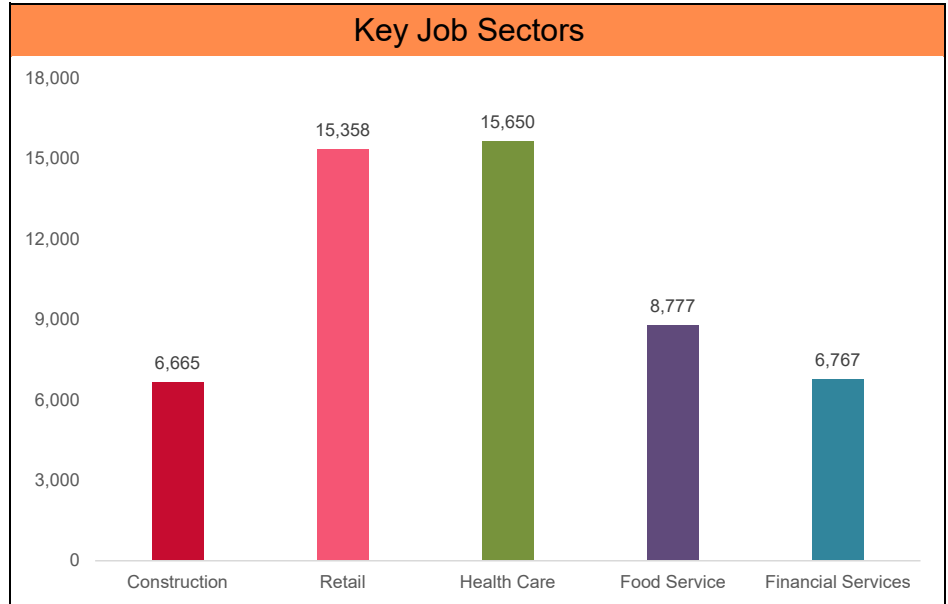

California's 4.6 percent unemployment rate is slightly higher than the national average of 3.6 percent. Placer County unemployment is 3.7 percent and Roseville is at 3.5 percent. Health care, professional and business services have led the year-over expansion in employment growth (www.civildashboards.com).

Roseville Businesses

Roseville hosts nearly 11,000 businesses. The largest industry sector is health care and social assistance at approximately 5.6 percent. Retail businesses are second at approximately 5.5 percent. Rounding out the remaining top business sectors are food service, government, and construction (Emsi, GSEC Analyst).

Top Employers

Roseville's top ten businesses, which account for over 10,000 jobs, include two top-tier health care providers, government agencies, a high-tech company, retail, and the railroad industries. These businesses help solidify Roseville's status as a leader in regional employment (ESRi Business Analyst Online).

Source: Economic Development Department

Section 7.02 of the Roseville City Charter mandates the legal requirements for the preparation and adoption of the City budget. The Finance Department - Budget Division prepares an annual Budget Manual providing detailed instructions for department staff to prepare their budgets for materials, supplies, services, and capital. Staff submit their budgets in a detailed format to ensure consistency with City Council's goals, objectives, and policies.

The General Fund budgeting process starts with an analysis of operational expenses completed by the Budget Division. This review includes a three-year historical review as well as the development of a forecast for future spending requirements. Finance then works cooperatively with the department heads and their teams to review and discuss their findings. The forecast allots all General Fund departments with a target budget for materials and supplies based on prior years' spending history and the removal of "what-ifs" and one time expenditures. The "what-ifs" are budgeted in an account called "General Fund Contingency." The purpose of the contingency account is to:

- Fund new, departmental appropriations not identified during budget preparation,
- Streamline the budget adjustment process by allowing the City Manager to reallocate funds from the contingency to a General Fund department, and
- Define and control General Fund operating expenditures without tapping into unrestricted fund balance.

Contingency funds are also built into the Water, Wastewater, and Solid Waste Operating Funds.

If a department can't fit items into its budget target, these requests are brought to the Executive Team (the City Manager, Assistant City Manager, and the Chief Financial Officer) for discussion during budget review meetings. Any new requests approved are included in the proposed budget.

The next step is building a salary vacancy factor of 4 percent into the budget. At year end, if a department hasn't had enough vacancies to cover the budgeted vacancy factor, funds will be returned to their salaries, wages, and benefits budget. If vacancies existed throughout the year, the funds could be reallocated to other city priorities or flow to unrestricted fund balance.

For the Enterprise Funds, budgets are developed based on their rate cases. Salary vacancy factors are not factored into their budgets.

Throughout the year, requests for changes in appropriations are made at the departmental level and are initially reviewed by the Budget Division. The City Manager then reviews all of the requests and ensures that all budget decisions are consistent with stated City Council policies and all applicable federal, state, and local laws and regulations.

Budget Process

Preparation of the Budget Document

Altogether, budget preparation takes approximately five months. Departments begin preparing their budget requests/revenue estimates by January. From January through March, the Budget Division and City Manager's office carefully review, evaluate, and prioritize each department's budget submissions for materials, supplies, and services; capital outlay; capital improvement projects; positions; and revenue. During the review, the City Manager remains mindful of public safety and legal requirements, adherence to Council's financial policies, as well as how to provide the most efficient, effective, and economical service levels possible. When the draft budget document is balanced to the City's financial system, a proposed Budget document is printed. The City Manager then presents a proposed budget to City Council and the public for review in June. (Section 7.05 of the Charter requires that, "... on or before

June 30, [City Council] shall adopt the budget with revisions, if any, by the affirmative votes of at least three (3) council members".) Typically the budget is adopted at the Council's second meeting in June.

Budget Document Overview

Detailed Budget Process

1. Budget Workshop – City Council conducts a budget goals and objectives workshop in September. The workshop provides an opportunity for departments to report on current year accomplishments and fiscal year goals. Council provides budget policy direction to City staff at this time.
2. Mid Year Review – Work begins in the fall of each year on the mid-year review, which includes projected City revenue; salary, wage, and benefits; and other operating expenses during the current fiscal year. Budgetary outcomes are compared to actual mid-year results and important financial issues facing the City are highlighted. This enables the City to establish funding guidelines for the upcoming fiscal years.
3. Budget Packages – Budget Division staff distributes budget packages in January to each department for the upcoming fiscal year. Packages include data and information to assist departments in preparing their budget requests including current and historical financial reports of operating expenses, Capital Improvement Projects (CIPs), program performance budgets, a budget calendar, and instructions for preparing budget requests. Budget Division staff also hold several training classes at this time to assist staff with data input and budget processes.
4. Internal Budget Reports – Departments submit new personnel requests to the City Manager in December. Preliminary operational budget requests, performance budgets, and CIPs are submitted to the Budget Division in February.
5. Revenue Projections – During February and March, major sources of revenue such as sales tax and property tax are projected. Historical and year-to-date revenues are analyzed along with major economic trends and new or proposed legislation. Building- and development-related revenues are projected by estimating proposed new development and compliance with city policies and City Manager recommendations.

6. Proposed Budget – Recommendations and revisions from departmental review sessions with the City Manager’s Office are incorporated in the proposed budget. This budget is submitted to City Council no later than the first meeting in June.
7. Council Review/Public Hearings – During the month of June, City Council reviews the proposed budget and conducts public hearings to address public requests and concerns. Any Council recommendations or changes are incorporated into the final budget document.
8. Council Adoption – City Council adopts the Annual Budget by the second Council meeting in June.

Changing the Budget

Budget Implementation and Budget Transfers

Once the budget is adopted by the City Council, the responsibility of implementing each department’s budget lies with each department head, with ultimate responsibility resting with the City Manager. Department heads are expected to operate their departments within the appropriations established in the budget. Budget amendment requests are considered where unforeseen events have occurred. Budget amendments that require the use of unrestricted fund balances must be approved by the City Council or those delegated by the City Council to approve amendments. (Further details with respect to budget transfers and amendments can be found in the City Charter Sec 7.06.) Amendments that request movement of City Council approved appropriations within the same fund or that request use of the contingency funds can be approved by the City Manager.

Reasons for initiating a budget amendment may include:

- Recognizing unanticipated revenue, which was not projected in the budget, and appropriating associated expenditures in the year in which the revenue is received
- Appropriating additional funds from reserves
- Transferring dollars from the operating budget to the capital budget or vice versa
- Transferring between funds, departments, or projects
- Use of contingency funds for new appropriations not identified during budget preparation

Understanding the Document Layout

As indicated in the Table of Contents, the City of Roseville’s Budget document consists of the following sections:

Introduction

The introduction outlines the key contents of the budget. The main components of this section include the City Manager’s Message and city demographics. The fiscal health of the City as a whole is discussed as well as detailed information about growth and the economy. It also contains the Budget Document Overview, Boards and Commissions, Awards and Achievements, and the ordinance adopting the budget.

Budget Summary

The Budget Summary section provides a summary of revenues and expenditures/expenses and various other financial matters including the Gann Appropriations Limit.

Funds

The Funds section of the document provides an overview of each fund’s estimated revenue, appropriations, reserves and unrestricted fund balance. Local government budgets are made up of funds that help to organize and account for various resources. Enterprise Funds are set up as self-supporting units similar to those in a business. They account for the operation and maintenance of facilities and services that are entirely paid for by rates charged to customers or, in the case of internal service funds, to the City’s departments. It is important to note that the City’s revenue estimates make assumptions based on actual experience and current knowledge of impending circumstances.

Often there is uncertainty as to actual revenues projected up to 15 months in advance. Overall, the revenue estimates assume conservative levels of growth based on analysis, historical trends, and projections developed using consultants. Appropriations, in turn, are based on these projected revenues. The funds presented in this section include the General Fund, Enterprise Funds, Special Revenue Funds, Capital Projects Funds, Permanent Funds, Special District Agency Funds, Trust Funds, and Internal Service/Self-Insurance Funds. (Fund type definitions can be found in the Glossary.) Reflected in this section are actual revenues and expenditures for FY2017-18, the FY2018-19 Amended Budget, and the FY2019-20 Proposed Budget. Also included in this section are overviews of each of the fund types including sources of revenue and major expenditures.

Department Operating Budgets

Included in the Department Operating Budgets section of the budget are organizational charts, departmental narratives, and program performance budgets for each city department. This format allows the reader to review a budget at a programmatic level by department. This format is different than what appears

Budget Document Overview

in the fund summaries where only operational expenditures are presented. Specific information related to the number of employee positions within a particular unit or division can be found here as well.

Performance measures listed in this section are used by the City to assess how efficiently and effectively programs and activities are provided and determine whether organizational goals are being met. Performance measures are grouped into these categories:

- Work volume measures that indicate the level of work to be performed with the resources requested (example: tons of solid waste collected).
- Efficiency and effectiveness measures that provide information on the level of productivity and that show how effectively or how well objectives are met (example: percent of Capital Improvement Projects completed).

This section is preceded by an Organizational Budget that summarizes all operating departments within the City. The operating departments include: City Council, City Manager, City Attorney, Finance, Human Resources, Information Technology, City Clerk, Police, Fire, Parks, Recreation & Libraries, Economic Development, Development Services, Public Works, Environmental Utilities, and Electric.

Capital Improvement Program

This section of the budget document provides readers with cost estimates, funding sources, and recommended project schedules for the City of Roseville's Capital Improvement Program for the next five years. Accordingly, the documents provide descriptions, justifications, status, costs, classifications, and any other relevant facts for each annual and capital improvement project (CIP).

CIPs are composed of expenditures related to the acquisition, expansion, or rehabilitation of an element of the City's infrastructure (physical plant such as streets, water, sewer, public buildings, and parks). Projects are reviewed by the presenting department with input from the City Manager's Office. The ranking of projects may be rearranged according to the input received and funding availability. Enterprise Fund CIPs are proposed by the department that manages the Enterprise Fund. Often the prioritization of these projects is dictated by the department's operational needs, strategic plan, or specific Council direction. Reflected in this section are the sum of the project's prior year's expenditures and funding sources, the upcoming fiscal year's budgeted appropriations and funding sources, and future year's expected appropriations and funding sources.

Appendices

The Appendices Section of the Budget document contains the following information: 1) Debt Management, 2) Glossary of Budget Terms, 3) Glossary of Commonly Used Acronyms, and 4) Index.

Understanding the Details

Financial Summaries

Reflected in this document are actual revenues and expenditures for FY2017-18, the FY2018-19 Amended Budget, and the FY2019-20 Proposed Budget.

Revenues: Both operating and non-operating revenues are displayed for each fund. The revenues include items such as fees collected for cost-recovery of specific services to the public, as well as revenues received from other funds.

Expenditures: Operating expenditures are displayed at the fund summary as well as the operating budget level. For example, within the General Fund summary, the Public Works Department expense budget as a whole is shown. Within the Public Works operating budget, expenditures for the Building Division and other Public Works divisions are shown.

Basis of Accounting and Budgeting: The City's funds are maintained in accordance with Generally Accepted Accounting Principles (GAAP), as established by the Governmental Accounting Standards Board (GASB). In preparing the budget, all funds are budgeted based on the City's budgetary basis of accounting. The City accounts for all governmental funds using the modified accrual basis of accounting, which means revenues are recognized when measurable and available. The City considers all revenues reported in the governmental funds to be available if the revenues are collected within 120 days after year-end, with the exception of property taxes which are considered available if collected within 60 days after year-end. Proprietary and fiduciary funds are reported using the full accrual basis of accounting, which means revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the cash is disbursed.

In developing and evaluating the City's accounting system, consideration is given to the adequacy of internal accounting controls. Internal accounting controls are designed to provide reasonable, but not absolute, assurances regarding (1) the safeguarding of assets against loss from unauthorized use or disposition and (2) the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance recognizes that (1) the cost of a control should not exceed the benefits

likely to be derived and (2) the evaluation of costs and benefits requires estimates and judgments by management. All internal control evaluations occur within the above framework. Finance Department staff remain committed to improving the City's accounting system, maintaining the City's internal accounting controls to adequately safeguard assets, and providing reasonable assurances of proper recording of financial transactions.

Budgetary control is directed by the City Council by ordinance when the budget is adopted each year. Expenditures may not legally exceed appropriations at the department level by fund or at the project total level by fund for multi-year projects. The City utilizes the encumbrance system as a management control technique to assist in controlling expenditures. Periodic reports of revenue, expense, and investment activity are available to the City Council and City departments to monitor spending in relation to the budget. The Finance Department conducts quarterly budget monitoring meetings with the City's General Fund departments to ensure that they are on track and there are no unknown expenditures coming during the remainder of the fiscal year.

Indirect Cost Allocation Plan: The City of Roseville uses the indirect cost allocation process to allocate departmental costs from the General Fund to all funds that receive benefit from the services that the General Fund departments provide. The City uses a consulting firm which specializes in indirect cost studies to prepare the indirect cost allocation plan. The plan is based on the most current budget information available at the time the study is completed - typically six months prior to the adoption of a new budget. The consulting firm makes several onsite visits to interview staff from the General Fund departments that provide services to other departments as well as those departments that receive services from the General Fund departments. Cost allocation drivers are confirmed during the interview process and budget data is provided to the consultant. The budget data used in the study excludes reimbursed expenses. Examples of reimbursed expenditures are CIPs and secondary labor that is direct charged from one department to another. The consultant prepares a comprehensive study that is provided to all departments for review and comment. Departments receiving allocated costs have an opportunity to comment on the plan and to correct any errors.

Indirect cost charges appear as expenses in the operating section of the fund summaries that are paying for the services and as reduced expenses in the operating expenses section of the General Fund. The purpose is to ensure that the General Fund is reimbursed for the full cost of services that

it is providing throughout the City. Internal service funds at the City of Roseville directly charge costs of service to funds and departments receiving the service; therefore, the only fund that uses the indirect method of allocating costs is the General Fund.

Reserves

By Council policy, the City of Roseville has consistently planned its budgets while considering the long-term needs of the City. This is accomplished through the establishment of several funds that serve to direct City revenues to long-term financial needs. This ensures that funding is available for needs as they arise. These funds include:

General Fund Emergency Reserve Fund: The City maintains an operating reserve of 10 percent of total estimated General Fund operating expenses. This reserve is held in a separate fund called the General Fund Emergency Reserve Fund. Additionally, the City attempts to maintain a similar operating reserve in all of the City-owned utility operations funds. These reserves guard against impacts from sudden changes in revenues.

General Fund Stabilization Reserve Fund: The General Fund Stabilization Reserve Fund may be used strategically to allow time for the City to restructure its operation in a deliberate manner as required in an economic downturn while minimizing service disruption. Use of the Stabilization Reserve will only take place in the context of a Council-adopted long-term plan. The Stabilization Reserve is intended to be used to address significant revenue shortfalls that occur during an economic downturn until the City's operating expenditure and revenue levels are adjusted to eliminate structural deficits.

Rate Stabilization Funds: Roseville Electric maintains a rate stabilization fund reserve target of between 40 percent to 90 percent of operating expenses. This allows the City time to react to major changes in the cost of electricity without having to impose an emergency rate increase. Rate stabilization funds are also used in the Environmental Utilities to help ease the impacts of rate increases over a period of years.

Rehabilitation Funds: The City has set aside funds in several rehabilitation funds for the purpose of maintaining the City's investments in its buildings, information technology, equipment, and park facilities. The Council's goal is to increase the balance of these funds to keep pace with the improvements, replacements, and maintenance needed. The rehabilitation funds are: General CIP Rehabilitation Fund, Facility Rehabilitation Fund, IT Replacement Fund, and the General Equipment Replacement Fund.

Budget Document Overview

Automotive Replacement Fund: The City saves for the cost of replacement vehicles over the useful life of the vehicle. This ensures that funds are available to keep the City's vehicle fleet operating properly and safely. Roseville Electric sets aside vehicle replacement costs in the Electric Fund.

Strategic Improvement Fund: The City developed a fund several years ago that provides Council with funds that can be used for periodic, strategic investments on behalf of the City. This fund has been used to acquire land and fund improvements, primarily in redevelopment areas.

Litigation Reserve Fund: The Litigation Reserve Fund contains funds set aside for legal matters that are unforeseen and/or unusual in nature and, as a result, require reactive measures such as seeking a budget adjustment and a funding source. Some examples are contract disputes, municipal code enforcement, and other public safety enforcement matters. This fund allows for a proactive handling and funding of such matters.

Employee Salary & Benefits Summary

The City has a Management/Confidential employee group, as well as five bargaining units: International Brotherhood of Electrical Workers (IBEW), Stationary Engineers, Local 39 (Local 39), Roseville Firefighters, Local 1592 (RFF), Roseville Police Association (RPA), and Roseville Police Officers Association (RPOA). Each unit negotiates a contract which is reflected in a Memorandum of Understanding (MOU) that governs the total compensation for that particular group (e.g. longevity pay, education pay, and certification pay).

The City has established a general pay philosophy of benchmarking total compensation (i.e., compensation and benefits) at the median of the labor market in order to manage rising pension costs and still be competitive in hiring qualified employees to provide City services and a high quality of life in Roseville. In unique situations, the City may have to pay above the market median to attract qualified candidates or retain skilled employees. The total compensation comparison includes base salaries (not including overtime or payouts upon retirement), pay incentives (e.g., special certification, longevity), health and welfare benefits (i.e., medical, dental, vision, life insurance, disability insurance) and retirement benefits. The City compares its total compensation with jurisdictions that are similar in size, services (Roseville is a full service City) and geographical location to remain competitive. A Benefit Summary document for each group can be found on the City's website under the Human Resources Department page. **The key compensation components of a typical City employee are listed below:**

Title	Description
Salary	City salary schedules are set on a variety of factors including job duties, relation to other like jobs within the organization, reporting structure, etc. Compensation surveys are conducted to compare like jobs with comparable local government agencies and in some cases private sector industries in Northern California. Survey results ensure Roseville salaries and benefit packages are competitive to other similar jurisdictions, helping us to attract and retain the high level talent we are known to employ.
Retirement	The City and employees contribute to a plan provided by the California Public Employee Retirement System (CalPERS) based on the employee's age, years of service, highest monthly pay rate, and benefit factor. Classic members (hired before 1/1/13): Public Safety 3% @ age 50 Miscellaneous 2.7% @ age 55 New members (hired after 1/1/13): Public Safety 2.7% @ age 57 Miscellaneous 2% @ age 62 <i>Note: City of Roseville employees do not participate in Social Security.</i>
Health, Dental & Vision Insurance	Depending on employee elections, the City may contribute up to a maximum dollar amount of \$1,489 per month towards employee and dependent insurance coverage: Medical provided by California Public Employees Retirement System (CalPERS) Dental provided by Delta Dental Vision provided by Vision Service Plan (VSP)
Other Group Insurance	Long Term Disability (LTD) coverage is offered to employees. City-paid LTD is provided to employees with more than five years of service and who are in one of the following employee groups: Management/Confidential, IBEW, or Local 39. A group term life insurance plan is provided to all regular employees. Optional self-pay short-term disability and supplemental life insurance plans are also available to employees.
Other Post-Employment Benefits (OPEB)	The City offers health care coverage to all employees who retire from the City of Roseville through California Public Employee Retirement System (CalPERS). An employee's date of hire will determine the level of city contributions, if any, toward this benefit.
Sick Leave	12 days or 96 hours per year to all units (except RFF which is 6 shifts or 144 hours) for all regular employees (pro-rated for those on modified schedules). Effective July 1, 2015, the City provides up to 24 hours of paid sick leave to all employees who qualify as defined by AB 1522.
Vacation Leave	The City provides twelve days of vacation to those with less than five years of service. As tenure increases, the allocation also increases to a maximum of twenty days to employees who have worked twenty years or more. The accruals are pro-rated based on work schedule and vary for those working a 24-hour shift schedule.

ORDINANCE NO. 6113

ORDINANCE OF THE COUNCIL OF THE CITY OF ROSEVILLE
ADOPTING THE ANNUAL BUDGET FOR THE FISCAL YEAR 2019-2020,
ADOPTING BUDGET CONTROL POLICIES, ADOPTING AN APPROPRIATIONS LIMIT,
ADOPTING THE BUDGET FOR THE SUCCESSOR AGENCY OF THE ROSEVILLE
REDEVELOPMENT AGENCY, AND ESTABLISHING THE
SEALED BID REQUIREMENT, TO BE EFFECTIVE IMMEDIATELY
AS AN URGENCY MEASURE

THE CITY OF ROSEVILLE ORDAINS:

SECTION 1. The proposed budget for the City of Roseville entitled "Proposed Budget Fiscal Year 2019-2020, City of Roseville, California," a copy of which is on file in the office of the City Clerk, is hereby adopted as the "Annual Budget Fiscal Year 2019-2020, City of Roseville, California."

SECTION 2. The proposed expenditures shown in the Fund and Department Operating Budget Summaries of the budget document, which are incorporated herein, are hereby appropriated to the departments and activities in the amounts and purposes therein stated. Encumbrances and expenditures of the various appropriations described in the budget document shall be made by those departments and employees designated therein as the requisitioning authorities.

SECTION 3. The following budget control policies shall become effective upon the adoption of this ordinance:

1. The operating Budget of the City of Roseville and the Successor Agency of the Roseville Redevelopment Agency shall be approved within the major summary categories of
 - a. Salaries, Wages, Benefits
 - b. Materials, Supplies, Services
 - c. Capital Outlay
 - d. Reimbursed Expenses
2. Capital Improvement Projects. The Capital Budget of the City of Roseville and the Successor Agency of the Roseville Redevelopment Agency shall be approved by Capital Improvement Project.
3. The City Manager or designee shall apply prudent monitoring procedures to assure that actual expenditures/expenses of the City and the Successor Agency of the Roseville Redevelopment Agency do not exceed the appropriations at the department level by fund.

4. The City Council delegates authority to the City Manager or designee to approve the movement of City Council approved appropriations within the same fund, excluding Capital Improvement Projects and annual projects.
5. Appropriation increases, revenue increases, and transfers to or from funds shall require approval by the City Council.
6. The City Manager and Chief Financial Officer are directed to maintain the General Fund Emergency Reserve at approximately ten percent (10%) of General Fund operating expenditures and transfers out, pursuant to the City's General Fund Reserves Policy. The City Manager and Chief Financial Officer are also directed to maintain reserves of ten percent (10%) of total operating expense and transfers out for applicable utility funds as a reserve for economic uncertainties.
7. The City Manager or designee is authorized to increase the Fiscal Year 2019-20 budget appropriations in the amount of the remaining unspent appropriations from the prior fiscal year for active multi-year projects.
8. Annually, completed or inactive projects will be closed, except for projects that have existing litigation, payment disputes or other extenuating circumstances. An inactive project is defined as one where transaction activity is less than \$1,000 over the prior three years. Closures are the responsibility of the designated project manager. The managing department and the City Manager or designee have the authority to process the necessary documentation to close inactive projects. Unobligated appropriations for all inactive projects will expire on June 30, 2020, following the third full year of the last appropriation to the project.
9. All encumbrances for valid purchase orders and contracts in effect as of June 30, 2019, will remain in effect in the following fiscal year. The City Manager or designee is authorized to increase the Fiscal Year 2019-20 budget appropriations in the amount of the outstanding encumbrances for valid purchase orders and contracts as of June 30, 2019.
10. The City Manager or designee is authorized to eliminate funds as required for proper accounting and fiscal management when the purpose of a fund has expired and its fund balance has been expended.
11. The City Manager is authorized to revise any appropriation made in the Adopted Budget where the revision does not increase appropriations and is consistent with City Council intent.
12. The City Manager is authorized to adjust appropriations as necessary to implement the conversion to the City's new financial system, provided the overall appropriations by fund and department remain unchanged.

- 13. The City Manager is authorized to increase appropriations in any department or project from the General Fund Administrative Contingency.
- 14. The City Manager is authorized to refine/add content, as may be needed to meet Government Finance Officers Association (GFOA) and California Society of Municipal Finance Officers (CSMFO) budgeting award requirements, in the Proposed Budget to create the FY2019/20 Approved Budget.

SECTION 4. Pursuant to Article XIII B of the California Constitution, the appropriations limit for the City of Roseville is hereby established as \$174,424,400 for Fiscal Year 2019-2020. The State Department of Finance provides the City the annual adjustment factors used in the appropriation limit calculation. The factors are the changes in the California Per Capita Personal Income and population levels for the City or the County.

SECTION 5. Sealed bids are required, pursuant to Section 7.21 of the Charter of the City of Roseville, for all purchases and public works involving the expenditure of twenty three thousand, three hundred thirty-eight dollars (\$23,338.00) or more. This amount has been inflated by the consumer price index per provision of Section 7.21.

SECTION 6. It is hereby ordered that a copy of this ordinance and the budget document be certified by the City Clerk and filed in the office of the City Clerk. The City Clerk is directed to post a copy of this ordinance in three (3) conspicuous locations in the City and enter the posting thereof in the Ordinance Book.

SECTION 7. This ordinance is required for the orderly operation and maintenance of municipal activities and the appropriations for usual and current expenses of the City and the Successor Agency of the Roseville Redevelopment Agency during the 2019-2020 fiscal year. Therefore, this ordinance shall take effect immediately upon passage hereof as an urgency ordinance, pursuant to Section 5.03 of the Charter of the City of Roseville.

PASSED AND ADOPTED by the Council of the City of Roseville this 19th day of June, 2019 by the following vote on roll call:

AYES COUNCILMEMBERS: Bernasconi, Alvord, Roccucci, Allard

NOES COUNCILMEMBERS: None

FY2015-16 THROUGH FY2019-20

Gann Appropriations Limit Calculation

The Gann Appropriations Limit began as a ballot initiative approved by California voters in 1979 and modified by Proposition 111 passed in 1990. Its purpose is to limit the amount of tax proceeds state and local governments can spend each year. The Gann Appropriations Limit appears in California's State Constitution as Article XIII B.

The limit is different for each city and changes annually. Each year's limit is based on the amount of tax proceeds that were authorized to be spent in fiscal year 1978-79 in each city, and modified for changes in inflation and population each

subsequent year. By law, inflationary adjustments are based on the California Department of Finance's official report which states the change in California's per capita personal income and population levels for the city or the county.

Each year the City Council must adopt an appropriations limit for the following year. The City's Appropriation Limit for FY2019-20 has been calculated to be \$175,424,400. Appropriations subject to the limitation in the FY2019-20 budget total \$99,734,843, which is \$75,689,557 less than the calculated limit.

Consumer Price Index (CPI)	1.0385
Population Increase	<u>1.0248</u>
Ratio of Change	1.0643
FY2018-19 Appropriations Limit	<u>164,828,654</u>
FY2019-20 Appropriations Limit	<u>\$ 175,424,400</u>
General Government Operating Appropriations	160,702,943
Capital Improvement Project (CIP) Appropriations	<u>16,626,371</u>
Subtotal Operating and CIP Appropriations	177,329,314
Less Exclusions not Subject to Limit	
Non-Proceeds of Taxes	(73,883,385)

General Funds Overview

General Funds Overview

These funds are used to account for general City operations and activities. They are used to account for all financial resources except those required to be accounted for in another fund.

The General Fund funds are comprised of:

- General Fund
- General Fund Contributions by Developers Fund
- General Fund Emergency Reserve Fund
- General Fund Stabilization Reserve Fund
- Harrigan Trust Adult Literacy Fund
- Litigation Reserve Fund
- Parks & Recreation Donation Fund
- Roseville Youth Sports Coalition Fund
- Stormwater Management Fund
- Strategic Improvement Fund

The fund presentations provide an overview of funds including the fund's operating budget (revenues and expenses), non-operating budget (capital, debt, and non-recurring revenues and expenses), and a section summarizing the fund balance, reserves and unrestricted fund balance. This presentation provides a mechanism to gauge the changes in the fund from the beginning of the fiscal year to the end of the fiscal year. For the City's General Fund, this format also demonstrates that the City of Roseville is "living within its means", that is, it is not spending more than the incoming revenue for the year.

General Fund

The General Fund budget provides for the delivery of municipal services to the Roseville community. These services include police, fire, parks and recreation, libraries, public works, economic development, development services, and general government, which includes the following departments: City Council, City Manager, Public Affairs and Communications, City Attorney, Human Resources, City Clerk, and Finance. The General Fund is the City of Roseville's chief operating fund.

Following are details of the larger General Fund Funds presented in this section.

Major Revenues

The City relies on several major revenue sources to assist the General Fund budget. The primary revenue sources are the following:

Sales and Use Tax

Sales and use tax is the largest single source of revenue in the General Fund. The City of Roseville receives a 1 percent share of taxable shares generated within city limits per the Bradley-Burns Local Sales and Use Tax Act. The FY2019-20 sales tax projection of \$55.2 million reflects a decrease of 1 percent from the current year estimate of \$55.8 million. FY2018-19 sales tax revenue is unusually high because the State of California Department of Tax and Fee Administration (CDTFA) was delayed in disbursing FY2017-18 taxes due to system implementation issues. These delayed disbursements were

Major General Fund Revenue Sources

- Sales Tax
- Secured Property Tax
- Property Tax In-Lieu of Vehicle License Fees
- Building Permits and Plan Check Fees
- Hotel/Motel Tax
- Franchise Fees

collected in FY2018-19, which resulted in a dip in revenues in FY2017-18 and a spike in FY2018-19. With the passage of Measure B in November 2018, sales and use tax was increased by half a cent effective April 1, 2019. Based on the most recent information provided by the City's sales tax consultant, the City anticipates receiving \$16-19 million in Measure B revenue during FY2019-20. The City conservatively budgeted \$16 million and will return to the Council with a midyear update after a few quarters of Measure B revenue is collected.

Secured Property Tax

Property tax is the second largest source of revenue in the General Fund. Real property is defined as the land and any improvements made to the land, such as buildings and other permanent structures and taxed at 1 percent of the property's assessed valuation by Placer County. In accordance with Proposition 13, the assessed valuation is determined when a change in ownership occurs, in which case sales price is used as the value, or as the valuation of new construction. Property tax is increased a maximum of 2 percent annually. Property that declines in value may be reassessed (per Proposition 8) for a temporary reduction. Property tax is shared by several taxing entities, mainly school districts, Placer County, and the City of Roseville. The City's share is determined by what tax rate area (TRA) the parcel is located in. The Placer County Auditor-Controller's Office has provided an estimate of property taxes the City of Roseville can expect to receive during the current year. Building upon this estimate, the FY2019-20 secured property tax projection of \$36.1 million reflects an 11 percent increase over the FY2018-19 estimate of \$32.5 million. The FY2018-19 estimate includes a reduction for the annual administrative fee SB2557 imposed by Placer County. Going forward, this administrative fee will be shown separately and not combined with secured property tax revenue giving FY2019-20 the appearance of inflated growth. The projected increase was based on monitoring the local real estate market, new single family homes recently added to the market, economic forecasts, and consulting with the Placer County Assessor regarding current valuations and appeals.

Property Tax In-Lieu of Vehicle License Fees

Previously the State of California assessed a 2 percent tax known as the Vehicle License Fee (VLF) on car registrants. As part of the 2004 Budget Act negotiations, an agreement was made between the state and local governments where the VLF rate will be permanently reduced from 2 percent to 0.65 percent. The difference will be paid through local property tax from County educational revenue augmentation funds (ERAF), referred to as the "VLF swap". The City of Roseville's projection for FY2019-20 of \$10.2 million reflects a 5 percent increase over the current year estimate of \$9.7 million. The projected growth is due to the combined change in assessed valuation of all property.

Building Permits and Plan Check Fees

Building permit fees are paid when a permit is issued for development of property. The building permit and plan check fees are based on the assessed valuation of the square footage proposed for development and improvements. This revenue is estimated by analyzing probable future development of single family, multi family, commercial and industrial property. Builders and developers are contacted regarding possible new residential development, while commercial projects are estimated based upon current submittals to the City. Combining these projections along with tenant improvements are what comprise the permit and plan check revenue estimates of \$4.2 million generated by the Building Inspection Program. Approximately 900 new single family homes and several commercial projects are anticipated in FY2019-20. Revenues from tenant improvements are based upon a five-year average.

Hotel/Motel Tax

Hotel/Motel Tax, also known as Transient Occupancy Tax, is a 6 percent tax assessed on hotel and motel room rentals within the City of Roseville. The City currently has 17 operating hotels and motels. One was recently completed and another in the process of being built. The projection of \$3.9 million is 1.3 percent higher than the current year estimate. This growth is projected based upon analysis of monthly tax receipts, regional vacancy rates, and estimates provided by a city consultant that handles collection of the hotel/motel tax.

Franchise Fees

Franchise fees are considered a form of rent for the privilege of using Roseville public rights-of-way. This includes furnishing users with telephone, cable television and gas services. Franchise fee revenue comes from Comcast, Consolidated Communications, Pacific Gas & Electric, and KinderMorgan. Payments are based on a percentage of gross revenues as stated in the Roseville Municipal Code. The FY2019-20

General Funds Overview

projection of \$2.39 million reflects a 2.4 percent decline over the current year estimate of \$2.45 million. The revenues will fluctuate based on gross billings by the companies listed above, and the city is remaining conservative on forecasted franchise fees from Pacific Gas & Electric.

Other General Fund Revenue Sources

Licenses and Permits

The major components of this revenue category include animal licenses, building permits (described above), and fire permits.

Use of Money and Property

This revenue category includes interest on investments and rental/lease revenue.

Fees for Current Services

This revenue category includes fees for items such as plan checks, franchise fees, assessment districts and City administration, police and fire services, park maintenance, and recreation programs. These items are mostly external reimbursements and fee-based payments for services provided by General Fund departments.

State and Federal Grants and Revenue from Other Agencies

This revenue category includes state and federal grant awards received by the Police Department. It also includes revenue from other agencies, including State Home Homeowners Tax Relief and reimbursements for training and state mandates.

Other Revenue

This revenue category is mainly comprised of reimbursements and third party recoveries. Items such as sales of publications and DUI cost recovery can be found here.

Electric Franchise Fees and Operating Transfers In

The largest two components of these two categories are the Electric Franchise Fee and the Municipal Services District Funds transfer. The Electric Franchise Fee is a result of City Ordinance 9.01, "City-owned utilities may pay an in-lieu of franchise fee not to exceed four percent (4 percent) of total operating and capital expenditures to the City's General Fund. All in lieu of franchise fee revenue received shall be budgeted and appropriated solely for police, fire, parks and recreation or library services." The Municipal Services District Funds transfer is a reimbursement for costs of administration for those funds and associated actions. Other transfers include an annual transfer from the Supplemental Law Enforcement Fund. These transfers provide funding to cover the cost of staff and/or programs in the General Fund.

General Fund Expenses

The General Fund includes expenses for operations, debt, capital, transfers out, and interfund loans. The operations expenses are for departments which provide services to the Roseville community including Police, Fire, Public Works, Economic Development, Development Services, Parks, Recreation & Libraries, and the general government departments. Operating expenses also include post-retirement health insurance (aka OPEB), and annexation payments.

Indirect Cost

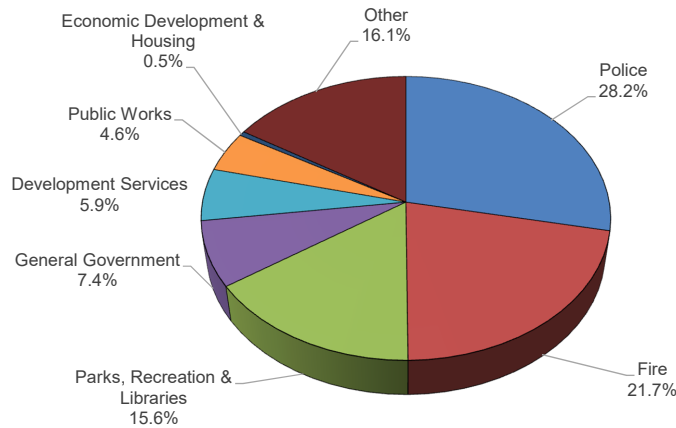

The City of Roseville's General Fund includes expenses for all administrative services (e.g., finance, human resources, attorney services, etc.). A good portion of these services support the enterprise funds, including utility funds. The City uses a fair and equitable indirect cost allocation process to allocate departmental costs from the General Fund to all funds that receive benefit from the services that the General Fund departments provide. The City uses a consulting firm that specializes in indirect cost studies to prepare the cost allocation plan. The plan is prepared in accordance with generally accepted accounting principles (GAAP) as recognized by the Governmental Accounting Standards Board (GASB). The primary principals used to develop the plan are: 1) The allocated cost is necessary and reasonable for proper performance of a department, division, unit and/or program, 2) the allocated cost is charged to departments, divisions, units and/or programs relative to the benefits received, and 3) costs are consistently treated as direct or indirect. Those costs that cannot reasonably be directly charged are included in the study.

Capital and Debt Expenditures

The General Fund includes Capital Improvement Projects (CIPs) related to public buildings, general improvements, street improvements, drainage improvements, and park improvements. The detail for each CIP that is requesting new budget approval in the upcoming budget year can be found in the Capital Improvement Program section of this document. If a General Fund project is fully or partially funded by resources from another City fund, then funds are transferred into the General Fund from the other fund. The amount of those transfers can be found in the "Estimated Capital & Debt Transfers In" line on the General Fund summary.

Debt in the General Fund includes the principal payments on outstanding loans that are the obligation of the General Fund.

General Fund Operating Expenses by Service Area

Transfers Out

Funds are transferred out of the General Fund to the Stormwater Management Fund and the General CIP Rehabilitation Fund annually. These transferred funds help to provide stormwater services and set asides for rehabilitation of City infrastructure. The General Fund also transfers funds into other City funds when projects sponsored by those funds benefit the General Fund departments as well.

Non-Recurring Expenditures

These include projects that are related to special studies. For example, full cost projects related to future annexations and engineering projects, such as traffic studies, all of which are pass through expenses that are funded by developer contributions.

General Fund Contribution by Developers Fund

The revenue source for this fund is from non-construction contributions from developers. This fund is used to support General Fund operations as necessary.

General Fund Emergency Reserve Fund

By policy, the City maintains an operating reserve of at least 10 percent of total estimated General Fund operating expenses. This reserve is held in a separate fund called the General Fund Emergency Reserve Fund.

General Fund Stabilization Reserve Fund

The General Fund Stabilization Reserve Fund may be used strategically to allow time for the City to restructure its

operation in a deliberate manner as required in an economic downturn while minimizing service disruption. Use of the Stabilization Reserve will only take place in the context of a Council-adopted long-term plan. The Stabilization Reserve is intended to be used to address significant revenue shortfalls that occur during an economic City of downturn until the City's operating expenditure and revenue levels are adjusted to eliminate structural deficits.

Litigation Reserve Fund

The Litigation Reserve Fund contains funds set aside for legal matters that are unforeseen and/or unusual in nature and, as a result, require reactive measures such as seeking a budget adjustment and funding source. Some examples are contract disputes, municipal code enforcement, and other public safety enforcement matters. The purpose of this fund is to address these situations by allowing for a proactive handling and funding of such matters. The revenue source for this fund is transfers from other City funds.

Stormwater Management Fund

The Stormwater Management Fund is a program developed by the City to improve water quality within our local creeks. Under this program, the City educates and involves the community in stormwater pollution prevention, requires water quality facilities in development projects, regulates stormwater run-off from construction sites, investigates non-stormwater discharges and reduces non-stormwater run-off from municipal operations.

General Funds Overview

Revenue

The main funding sources come from a General Fund reimbursement and transfers from community facilities districts.

Expenses

Approximately half of the fund expenses are dedicated to staff working in the program. The remaining budget is comprised of material, services, and supplies. This includes professional services, advertising, printing, software, tools, training and travel, as well as other internal charges.

Strategic Improvement Fund

The Strategic Improvement Fund was established to provide support for the General Fund as necessary. The major revenue sources are transfers in from the General Fund and a Community Benefit Fee.

The expenditures in this fund are typically to support Council approved strategies related to land acquisition and usage. This fund is also used to support General Fund operations, as well as strategic CIPs in other funds, that would eventually generate revenue for the General Fund.

This chart compares the total General Fund expenditures with the amount that is funded with sales, property and other tax revenue. It shows that of the total \$157.9 million ¹ in budgeted operating expenses, \$33.6 million are funded by revenue offsets, ² \$125.7 million are funded by sales, property and other tax revenue, ³ \$1.4 million is the amount of General Fund operating revenue that exceeds operating expenses and is available to spend on non-operating expenses, ⁴ and \$123.4 million ⁵ of the sales and property tax revenue on non-discretionary expenses, the City Council has \$102.3 million ⁶ at its discretion. After funding Police and Fire (with \$64 million ⁷ of sales, property and other tax revenue) there is \$38.3 million remaining for City Council to fund the rest of the City's operations.

Electric Funds Overview

Roseville Electric Utility is a community-owned utility that provides reliable electricity to Roseville residents and businesses. The enterprise funds associated with the utility are the Electric Fund and the Electric Rate Stabilization Fund.

Revenue

The primary source of operating revenue in the electric funds is retail electricity sales to residential and business customers. Capital revenues include Contribution in Aid of Construction and the Electric Backbone Mitigation Fee which recover the costs of designing and installing new electric infrastructure. Other revenue sources include interest earnings and proceeds from the sale of state greenhouse gas allowances and low carbon fuel standard credits.

Operating Expenditures

Operating expenses represent the cost of acquiring and delivering electricity to our customers. The cost of acquiring and generating power is the largest utility expense. Other

expenses include engineering, construction and maintenance, customer service, government relations, administration, traffic signals, and shared City services and technology projects. As provided under the City Charter, the utility pays an in-lieu of franchise fee of 4 percent of total operating and capital expenditures to the City to fund police, fire, parks, and library services. The utility also shares in funding of the City's Utility Exploration Center.

Capital Expenditures

The utility's Capital Improvement program provides for the acquisition, expansion, rehabilitation or modernization of electric utility distribution and generation infrastructure.

Debt

Electric utility debt is the result of bonds issued to build the Roseville Energy Park (REP) and portions of the distribution system. Opportunities to lower costs by refunding or refinancing debt are monitored, and acted on when advantageous for the utility.

Environmental Utilities Funds

Environmental Utilities (EU) is a group of rate-based utilities that provide water, wastewater and recycled water, and solid waste services to Roseville residents and businesses.

The three EU operating funds account for the majority of each utility's total financial resources. Their primary source of revenue is the rates paid by customers. Per Proposition 218, EU's rates cannot exceed the cost of providing services.

Each utility has operating, construction, and rehabilitation capital programs which typically include technology, facilities, and industry-specific infrastructure. All the utilities are participating in the implementation of the City's Enterprise Resource Planning (ERP) project which replaces the legacy financial and human resources application. The Water utility is partnering with Roseville Electric Utility to implement the Automated Metering Infrastructure (AMI) project.

Water Funds

The rate-based Water Operations Fund provides for the purchase, treatment, and delivery of water to the Roseville

community (approximately 44,000 accounts) which includes the operation of the City-owned water treatment plant and water storage, water efficiency programs, and reimbursed expenditures. The budget also includes costs for the continued implementation of metered billing, new regulatory requirements, planning for continued reliability, and a set-aside for future infrastructure rehabilitation and replacement. Other water funds are:

- Water Rate Stabilization Fund
- Water Construction Fund
- Water Rehabilitation Fund

The City is obligated to meet debt service coverage related to long-term debt as part of a rate covenant made to bondholders. The rate covenants outlined in the Certificates of Participation (COPs) issued in 2007 and refunded in 2015 for water capital improvement projects requires a minimum debt service coverage ratio of 120 percent. While connection fees are the primary source of payment of debt service, water utility revenue is the ultimate security for repayment of debt.

Environmental Utilities Funds Overview

Wastewater Funds

The Wastewater utility collects and treats wastewater for Roseville and its regional partners (South Placer Municipal Utility District and Placer County) at its two City-owned wastewater treatment plants. The utility has also been designated a regional provider of recycled water for areas in the City and Placer County. The rate-based Wastewater Operations Fund provides for all operational costs, reimbursed expenditures, and a set-aside for future infrastructure rehabilitation and replacement. Other Wastewater funds are:

- Wastewater Rate Stabilization Fund
- Wastewater Construction Fund
- Wastewater Rehabilitation Fund

As a partner in the South Placer Wastewater Authority (SPWA) JPA, the City is obligated to meet certain debt service coverage ratios related to long-term debt. The rate covenant outlined in bond documents where debt was issued for wastewater capital improvement projects requires a minimum debt service

coverage ratio of 110 percent. While connection fees are the primary source of payment of debt service, wastewater utility revenue is the ultimate security for repayment of the City's portion of the debt.

Solid Waste Funds

The Solid Waste utility collects, recycles, and disposes of refuse for residential and commercial customers, and oversees the maintenance of the closed Roseville Sanitary Landfill.

The rate-based Solid Waste Operations Fund provides for these operational costs as well as regulatory compliance and the implementation of programs aimed at increasing diversion from the waste stream. In addition, the budget includes a set-aside for the rehabilitation and replacement of existing cans and bins. Other Solid Waste funds are:

- Solid Waste Rate Stabilization Fund
- Solid Waste Capital Purchase Fund
- Solid Waste Rehabilitation Fund

Transportation Funds Overview

The Transportation Funds are used for Transit, Bikeway and Transportation Systems Management (TSM) programs and projects, and street and road improvements, such as roadway resurfacing. However, funds must be used to meet all transit needs determined to be reasonable before funds can be diverted to bikeway, TSM or roadway improvements. The three enterprise funds that comprise the transportation funds include:

- **Transit Fund** - This fund supports transit operations (including services for the elderly and the handicapped), maintenance and capital improvements, California Transportation Development Act (TDA) law requires the City maintain at least a 15 percent fare box recovery ratio.
- **Transportation Fund** - This fund supports bikeway development and maintenance, bicycle education programs, and the TSM Program. This fund also supports roadway resurfacing and pedestrian improvements when funds are available.
- **Consolidated Transportation Service Agency (CTSA) Fund** - This fund supports the South Placer Transit Information Center (the Call Center) and the Transit Ambassador and Mobility Management Programs, which are services provided by the City of Roseville on behalf of the West Placer Consolidated Transportation Services Agency (WPCTSA).

Revenue

State sales taxes, passenger fares, and federal grants typically account for most of the total revenues for the Transportation Funds. Two key sources of money allocated to the City's

Transportation Funds each year are derived from the TDA. These are revenues from the State Transit Assistance (STA) and Local Transportation Funds (LTF) accounts. The LTF allocation to the City of Roseville is derived from a quarter-cent general sales tax collected in Placer County and distributed based upon the City's population. The STA allocation is derived from the statewide sales tax on diesel fuel and is distributed using a formula based upon population and transit fare revenues. Two transit revenues are derived from Senate Bill 1 (SB 1). One of the SB 1 sources augments the STA allocation, and like STA is derived from fuel excise taxes. A program called State of Good Repair (SGR) was also created by SB 1 and is funded by State Transportation Improvement fees on vehicle registrations. Passenger fares, federal, state and local grants, and bus advertising are other sources of revenue.

Funding for the CTSA programs is provided by the WPCTSA (whose funds are derived from the TDA and managed by the Placer County Transportation Planning Agency) and federal grant revenue.

Expense

Seventy-five percent of all operating expenses in the Transportation Funds are for Roseville Transit operations such as contractor expenses, vehicle maintenance, fuel, and administration. The other 25 percent of operating expenses pay for bikeway and pedestrian planning and education, TSM programs, safe routes to school programs, crossing guards program, Public Works communications, and engineering. A significant share of the Transportation Funds support capital projects for transit, bikeways, bike trail resurfacing and road maintenance.

Youth Development Fund Overview

Youth Development Fund Overview

The Parks, Recreation & Libraries Department operates Adventure Club and Preschool programs, which are accounted for within the Youth Development Fund. The Youth Development Fund currently has the largest fund balance since 2001. The fund performed well during the last fiscal year and with continued positive enrollment trends, the fund should continue to see positive growth in the coming years.

Youth Development programs provide safe, engaging and memorable experiences for Roseville children and families. The Adventure Club & Preschool programs operate in partnership with both the Roseville and Dry Creek School Districts to provide before and after school licensed child care at 18 elementary school sites serving over 2,700 families. Subsidized care programs are offered for qualifying families at locations eligible for grant funding.

Revenue

The most significant sources of revenue include fees for providing before and after school child care and preschool tuition. The ability to generate these fees depends on families' demand for care and desire to participate in Adventure Club and Preschool. Subsidized care options are available through a state grant to provide services for qualifying families at three locations. Additionally, through a Memorandum of Understanding (MOU) with the Roseville City School District, the District reimburses the City for direct costs to provide the

After School Education & Safety (ASES) after school program at Cirby and Woodbridge Schools. These subsidized care programs are funded within the Youth Development Fund and provide a significant benefit for participating families.

Expenses

Operationally, program revenues continue to offset all direct and indirect/fund level expense. Direct expense include staff salaries, facility maintenance, material and supplies. Indirect fund expenses include post-retirement insurance, City indirect contributions, Internal Service Fund expense, Enterprise Resource Planning (ERP) system share of cost, and loan payments.

Debt

One loan currently exists within the Youth Development Fund. The loan encompasses the following: an accounts receivable balance payoff loan was necessary in FY2013-14 and the fund needed a loan to purchase the Fiddyment Farm facility in 2015 and the Orchard Ranch facility in FY2017-18. The loan is scheduled for payoff in 2032.

Capital improvement Projects (CIPs)

All CIP expense for facility maintenance including HVAC repair, flooring replacements, exterior paint, Americans with Disabilities Act (ADA) ramp repair/resurface, etc. are funded within the Youth Development Fund. As new schools open, the fund incurs the expense to purchase new facilities at approximately \$300,000 per site.

YOUTH DEVELOPMENT FUND

* Prior Year Carryovers are included as revenue since they represent the reserve set aside to cover the carryover expenditures from the prior year. The beginning fund balance has been adjusted down by the amount of these reserves.

Special Revenue Funds Overview

These funds are established to collect money that must be used for a specific purpose. Special Revenue Funds provide an extra level of accountability and transparency to taxpayers that their tax dollars will go toward an intended purpose. Special Revenue Funds are:

- Affordable Housing Fund
- BEGIN Fund
- Cal/Home Fund
- Cable TV PEG Funds
- Community Development Block Grant Fund
- Gas Tax Fund
- Federal Asset Seizure Fund
- Forfeited Property Fund
- Golf Course Operations Funds
- Highway Users Tax (HUT) Fund
- Home Improvement Fund
- HOME Investment Partnership Program Fund
- Housing Trust Fund
- Landscape & Lighting and Services District Funds
- Low and Moderate Income Housing Fund
- Native Oak Tree Propagation Fund
- Non-Native Tree Propagation Fund
- Open Space Maintenance Fund
- Police Evidence Funds
- Road Maintenance and Rehabilitation Account (RMRA) Fund
- Supplemental Law Enforcement Fund
- Technology Fee Replacement Fund
- Traffic Safety Fund
- Trench Cut Recovery Fund
- Utility Exploration Center Fund

Following are details for two of the larger Special Revenue Funds presented in this section (Highway Users Tax Fund, RMRA, and Golf Course Operations Funds).

Highway Users Tax (HUT) Fund and RMRA Fund

The HUT Fund, along with the RMRA Fund, are the City's primary sources of funding for the street maintenance program which includes maintenance of pavements, curb and gutter, sidewalks, and roadway drainage systems.

Revenue

The source of annual revenue for the HUT and RMRA funds come from State Excise Tax paid at the pump. RMRA funds are a result of the 2017 passage of Senate Bill 1 which established an

additional gas tax in California for road maintenance purposes. Other sources of road maintenance revenue include the Roadway Fund which derives its annual revenue from Utility Impact Reimbursement (UIR) funds paid by Environmental Utilities for their impact to the City's roadway network, Transportation Development Act funds remaining after funding the City's Transit needs, and Federal Regional Surface Transportation Program (RSTP) funds from the Federal Excise Tax (Federal Gas Tax) paid at the pump. The amount of HUT and RMRA fund revenue the City receives is a function of Roseville's population and roadway miles. As the City grows, the HUT and RMRA fund revenues will increase accordingly. Roadway Fund revenues are a function of the actual cost of the previous year's resurfacing work (UIR portion) and the cost of meeting the City's transit needs (TDA portion).

Expenses

These funds include costs for staff, materials, and equipment. Also included are the roadway resurfacing contracts that are put out to bid each year. For roadway resurfacing, it is most cost effective for the City crews to perform the prep work (crack filling, pothole repair, etc.) and then contract out the application of the resurfacing material.

The City has invested over \$1 billion in street infrastructure, so it is critical to protect that investment. The City's goal is to maintain arterial and collector streets at a Pavement Quality Index (PQI) of 72 or better, and 65 or better for residential streets. PQI is a measure from 1 to 100, with 100 representing a brand new street. Having high quality street pavement is a key element in maintaining the high quality of life Roseville citizens and business owners have come to expect. In order to achieve this goal for all streets in Roseville, approximately \$2 million per year of additional revenue would be required for the next 8 to 10 years.

Special Revenue Funds are funds that are established to collect money that must be used for a specific purpose.

Golf Course Funds

The City owns two municipal golf courses, operated and maintained by contracts and managed by the Parks, Recreation & Libraries Department. Woodcreek Golf Club is an 18-hole championship course with a lighted driving range and full service restaurant and banquet facility designed to provide the public with a country club like experience. Diamond Oaks Golf Course is an 18-hole traditional municipal course designed to ensure recreational golf is available to the public. Both courses provide a variety of golf opportunities for City residents and neighbors. The Golf Course Operations Fund is the special revenue fund associated with the golf courses.

Revenue

The most significant source of revenue is generated through user fees for course play. Additional revenue is derived from food and beverage services. Revenue generation related to golf industry economics is highly dependent upon customers' desire to expend their disposable income in recreational golf. Nationally, annual rounds played in 2018 declined by 6.1 percent, however, local trends in rounds played increased 8 percent. As the golf market slowly recovers, the Golf Course Fund is projected to remain in a negative position for the next several years.

Expense

The major fund expenses are course maintenance, bond payments and utilities. Although City staff is involved in the management of course contracts, no staff are employed directly at the courses. The Woodcreek Golf Course is currently operating at a deficit which is expected to continue through at least 2024. This is due primarily to the annual bond payment of \$490,000 per year. Based on current revenue and expense trends, this fund requires a subsidy from the General Fund, however, it is expected that the fund will be in a better position after 2024 once the final bond payment is made.

Debt

The construction of Woodcreek Golf Club was financed through municipal bonds. The construction of the Woodcreek clubhouse was financed through an inter-fund loan.

CIPs

Minor course repairs and improvements are handled through the operations accounts while more significant repairs and renovations are handled through CIPs.

AFFORDABLE HOUSING FUND

Increase (Decrease) from Operations	(469,192)	1,351,981	(123,872)
Less Encumbrance Carryover Reserve	(66,131)	0	0
Estimated Unrestricted Ending Fund Balance	\$ (1,228,109)	\$ 123,872	\$ (0)

* Prior Year Carryovers are included as revenue since they represent the reserve set aside to cover the carryover expenditures from the prior year. The beginning fund balance has been adjusted down by the amount of these reserves.

Note: The Golf Operations Funds face financial challenges in the current economy and market. Both golf courses are experiencing increased competition and costs. Regionally, annual rounds played continue to decline, impacting revenue trends. Several factors, including indirect charges and debt expenditures, have affected the funds' ability to maintain a positive balance over the past several years. Historically, the City has financed a large portion of golf course capital improvements through the issuance of bonds. The debt related to this financing strategy is scheduled for final payoff in FY2023-24.

HIGHWAY USERS TAX FUND

[Fund 252]

	Actual 6/30/2018	Amended Budget FY2018-19	Budget FY2019-20

Capital Project Funds Overview

These funds are used to account for financial resources to be used for the construction or maintenance of major city facilities. Capital Project Funds are:

- Air Quality Mitigation Fund
- Al Johnson Wildlife Area Fund
- Bike Trail Mitigation Fund
- Blue Oaks Boulevard Fund
- Building Improvement Fund
- City/County Mitigation Fee Fund
- Citywide Park - Campus Oaks Fund
- Citywide Park Development Fund
- Citywide Park Development - SVSP Fund
- Citywide Park Development - WRSP Fund
- Community Facility Districts - Construction Funds
- Downtown Benefit Fee Fund
- Downtown Parking Fund
- Fire Facilities Fund
- General CIP Rehabilitation Fund
- Park Development Funds (All)
- Parks, Recreation & Library Capital Fund
- Parks & Recreation Fee Funded Projects Fund

- Pleasant Grove Drainage Basin Construction Fund
- Pooled Unit Park Transfer Fees Fund
- Project Play Fund
- Public Facilities Fund
- Roadway Fund
- SVSP Mitigation Fund
- Traffic Benefit Fee Fund
- Traffic Mitigation Fund
- Traffic Signal Coordination Fund
- Utility Impact Reimbursement Fund
- Westpark Drive Fund

The following are details for three of the larger Capital Project funds presented in this section (Park Development Funds, Traffic Mitigation Fund, and Fire Facilities Fund).

Park Development Funds

The City of Roseville specific plans require each plan area to provide for the development costs of citywide/regional parks, neighborhood parks, school parks, and bike trails. The specific plan development agreements and accompanying financing plans set the parameters for the future collection of park development fees and to ensure the amount and types of park facilities are constructed as outlined for each plan area.

Different funds are used to segregate and account for the fees, which cannot be used for any other purpose.

The main sources of revenue are development fees which are assessed at building permit issuance, citywide park development fees, neighborhood park development fees, and bike trail fees. Other revenues include paseo fees, in-lieu fees (in-lieu of land dedication and/or development) and interest.

The major fund expenses are capital improvement projects for citywide park, neighborhood park or bike trail development. Typical costs include design, grading, construction, permits, and inspections. City indirect charges account for less than 2 percent of expenses.

Inter-fund loans are sometimes used to bridge the timing gap between collection of fees and CIP construction.

Traffic Mitigation Fund

The Traffic Mitigation Fund is the City's primary source of funds for capacity improvements to the roadway network. The source of revenue for the Traffic Mitigation Fund is traffic impact fees paid by developers when they are issued building permits. The fee is based on the amount of traffic generated by land development and the cost of the roadway projects contained in the roadway related CIPs. This method complies with Assembly Bill 1600 which requires a nexus between the impact fee and the impact caused by land development. Although traffic impact fees paid by developers comprise the majority of revenues for capacity improvements to the City's roadway network, the City also participates in federal and state grant programs when available.

The City's roadway capital improvement program is comprised of just over \$500 million in roadway improvements that have been identified as being needed to handle the volume of traffic once Roseville is completely built out and areas surrounding Roseville are developed to market levels at some future horizon year (typically around 20 years into the future). Traffic modeling software is used to forecast those future traffic volumes. In determining the projects for the CIP, the City targets the threshold for traffic congestion as adopted by the City Council, which is to maintain Level of Service C or better during the p.m. peak hour at 70 percent or more of signalized intersections.

The citywide roadway capital improvement and traffic impact fee program were adopted by the City Council in 1989. Since then, the City has constructed over \$200 million in roadway improvements. Examples of some of the major roadway CIPs that have been constructed are:

- Harding Boulevard Overcrossing (over Atlantic Street)
- Old Auburn Road Realignment
- Pleasant Grove Overcrossing (over the Union Pacific railroad tracks)
- Atlantic Street Widening
- Roseville Parkway/I-80 Overcrossing
- Douglas/I-80 Tunnel and Flyover
- Fiddymment Road Widening
- Eureka/I-80/Taylor Improvements
- Blue Oaks Widening (from four to six lanes)
- Intelligent Transportation System (ITS) and Traffic Operations Center (TOC)
- Woodcreek Oaks Widening from Canevari to Crimson Ridge

Since traffic impact fees are paid when building permits are pulled, the Traffic Mitigation revenue stream varies each year based on the rate of land development. When land development is booming, Traffic Mitigation revenues can range from \$10 million to \$11 million per year. When land development is slow, Traffic Mitigation revenues hover around \$1 million to \$1.5 million per year. During a down economy, it takes longer to save up enough money to construct roadway projects. But by the same token, a lower rate of land development means traffic volumes are not growing as rapidly.

Fire Facilities Fund

The Fire Facilities Fund was originally created in 1984 through the fire service construction tax for the purpose of requiring new construction within the City to contribute to the cost of providing the new fire service facilities and equipment for which it creates a need. On December 31, 2009 the tax ended; however, the terms of the tax continue to survive in various development agreements.

Revenue

The majority of revenue comes from the surviving Fire Service Construction Tax which is calculated by multiplying 0.005 by the valuation of the structure for which the permit application is made. It is due at the time of the permit application and is a condition for obtaining a building permit. Another source of revenue in this fund is fire-related development agreement fees.

Expenses

The fund expenditures can only be used for the funding of construction, reconstruction or repair of fire facilities, or the acquisition, repair, or maintenance of fire equipment. Historically, the fund has been the primary source of funding for fire station construction projects and the purchase of new to the fleet fire apparatus.

AIR QUALITY MITIGATION FUND

[Fund 257]

	Actual 6/30/2018	Amended Budget FY2018-19	Budget FY2019-20
ESTIMATED OPERATING REVENUES, TRANSFERS IN, AND CARRYOVER

Estimated Unrestricted Ending Fund Balance	\$ 462,451	\$ 668,239	\$ 100,148

Permanent Funds

These funds are used to account for resources that are restricted to the extent that only earnings, and not principal, may be used for purposes that support the City's programs, to remain intact in perpetuity or until a specific future date or event. Permanent Funds are:

- **City of Roseville Citizen's Benefit Trust Fund** – provides community and Roseville Employees Charitable Hearts (REACH) grants to non-profit organizations throughout the City. The primary source of annual revenue comes from interest and City of Roseville employee donations.
- **Roseville Aquatics Complex (RAC) Maintenance Fund** – offsets costs of maintaining the RAC. The Roseville High School District provided the initial contribution and the interest is spent annually towards maintenance.

Special District Agency Funds

These funds account for assets held by the City as an agent for individuals, governmental entities, and non-public organizations. Special District Agency Funds are funds used for public infrastructure improvements and maintenance financed by special levies against property holders. They are secured by special taxes assessed on the property owners within the district to pay the principal and interest on the bonds.

Trust Funds

These funds are earmarked for specific programs and purposes in accordance with a statute that designates the fund as a trust. Its statutory designation distinguishes the fund as a trust rather than a special fund. Trust Funds are:

- **OPEB Trust Fund** – used to account for assets held by the City as a trustee agent for the members and beneficiaries of other post-employment benefit plans (retiree medical).
- **Private Purpose Trust Funds** – a collection of trust funds including the Library Endowment Fund and various urban reserve funds.
- **Successor Agency Roseville RDA Fund** - is responsible for unwinding the affairs of the former Redevelopment Agency (RDA). The Successor Agency will continue to oversee completion of redevelopment projects, dispose of assets and properties of the former RDA and meet its enforceable obligations. A seven-member Oversight Board approves the semi-annual Recognized Obligation Payment Schedules (ROPS) that determine the amount of property tax increment the Successor Agency receives to pay its annual debt service and other enforceable obligations.

Internal Service Funds and Self-Insurance Funds

These funds are used to account for financing of goods and services provided by one City department to other City departments on a cost-reimbursement basis. Internal Service Funds are:

- **Automotive Replacement Fund** – provides automotive replacement services for the City's fleet.
- **Automotive Services Fund** - provides maintenance and supplies to the City's fleet.
- **Facility Rehabilitation Fund** - provides rehabilitation for City's facilities.
- **Facilities Services Fund** – provides building maintenance and custodial services to all departments citywide.
- **General Equipment Replacement Fund** - provides for the replacement of equipment for General Fund departments.
- **IT Operations Fund** - provides information technology support and services for digital communication, database and cloud, network infrastructure, business solutions, GIS, client services, and enterprise solutions to all departments citywide.
- **IT Replacement Fund** - provides rehabilitation for City's information technology infrastructure.

Self-insurance funds are:

- Dental Insurance Fund
- General Liability Fund
- Section 125 Fund
- Unemployment Insurance Fund
- Vision Insurance Fund
- Workers' Compensation Fund

These self-insurance funds provide services and benefits to the City and its employees on a cost reimbursement basis. The primary source of revenue is a premium charged to funds that include city salaries.

CITY OF ROSEVILLE CITIZEN'S BENEFIT TRUST FUND

[Fund 280]

	Actual 6/30/2018	Amended Budget FY2018-19	Budget FY2019-20

Estimated Unrestricted Ending Fund Balance	\$ 17,630,205	\$ 17,605,681	\$ 17,649,212

Note: Per Ordinance 3388, Section 4.06.040, the City Council may annually appropriate up to 90 percent of the annual interest earnings. To smooth out the monies available for grants, a higher percentage can be awarded when not all available interest was awarded in previous years. This allows for a higher award amount in a given fiscal year, while meeting the requirements of the ordinance.

Department Operating Budgets Overview

The Department Operating Budgets contain the operational costs by department and their programs. The section begins with an “Organization Budget Summary” that outlines all departments and their operational programs. The summary contains two years of data: the current year amended budget along with the new budget year. The full-time equivalent (FTE) positions for both years are presented as a comparison. Following the Organizational Budget Summary is the detail for each department, their programs, and the costs required to fund their programs.

Each department contains an organizational chart and a departmental narrative. The organizational chart displays the overall structure of the department. The departmental narrative describes the services provided by each department including key issues currently faced and goals for the upcoming fiscal year. Following each narrative is the Department Budget Summary and associated Program Budgets.

The Department Budget Summary shows the various programs (also known as divisions) and their expenditures over a three-year period: prior year actuals, current year budget, and the new budget year. The expenditures are segregated into four categories:

- Salaries, wages, and benefits
- Materials, supplies, and services
- Capital outlays
- Reimbursed expenditures

The salaries, wages, and benefits category includes compensation and benefits paid to employees of the City. Materials, supplies, and services contain costs that are consumed during the course of the fiscal year and are not of a capital nature. Capital outlays are expenditures which result in acquisitions or additions to fixed assets and represent a betterment or improvement. These expenditures typically have a life of more than two years and cost \$5,000 or more. Reimbursed expenditures serve to reduce the total expenditures of a program. The reimbursements generally result from expenses charged to other programs.

The funding summary for each department shows the funding sources allocated to pay for the programs. This may include more than one fund as well as expenses charged elsewhere via reimbursed expenditures.

Following the Department Budget Summaries are individual Program Performance Budgets for each program within the department. The program budget contains specific and measurable objectives and specifies work volumes to be accomplished and efficiency and effectiveness levels to be achieved. These are compared on a year-to-year basis. Any new positions added in the new budget year or a change in positions (FTE) that has occurred since adoption of the current year budget is noted.

ROSEVILLE CITY COUNCIL

Fiscal Year 2019-20

ROSEVILLE CITY COUNCIL AND COUNCIL-MANAGER FORM OF GOVERNMENT

The City of Roseville operates under the council-manager form of municipal government. Councilmembers are elected at-large to four-year terms of office. Two and three Councilmembers will be elected alternately at the general municipal election in November of even-numbered years. The Councilmember receiving the highest number of votes in the latest election is seated as Vice Mayor for the first two years of their four-year term, and as Mayor for the final two years.

OVERVIEW OF SERVICES

The City Council, as the elected body, adopts legislation, sets policy, adjudicates issues, and establishes the budget. City Council policies and laws are implemented by the City Manager, the administrative head of the City government. The City Council obtains direct citizen input from 13 Council-appointed boards and commissions. The Mayor and Councilmembers are accountable to the electorate and must balance the views of individuals and groups with the needs of the entire community. Councilmembers lead and collaborate with residents, businesses, and regional partners, to achieve success on matters of mutual interest and public policy issues faced by the region.

BUDGET HIGHLIGHTS FOR FISCAL YEAR 2019-20

The City Council will continue to ensure long-term fiscal and resource stability through effective management, visionary long-term planning, community engagement, and opportunities to further community goals with innovative ideas and new efficiencies. On a regional level, Councilmembers collaborate on cross-jurisdictional issues and provide leadership to committees and organizations, both essential to ensure a healthy socio-economic ecosystem in Northern California. Since the City of Roseville is not immune from slowing revenue growth and increasing expenses faced by cities throughout California, the approval of a half-cent sales tax increase will bring financial relief. For the past two years, at the City Council's direction, a focus has been helping the community understand the City's budget challenges, what has been done to address them, and what options lie ahead. Based on raising this awareness and gathering feedback on priorities, the City Council gave the community the opportunity to increase revenue or cut services by placing a half-cent sales tax measure on the November 2018 ballot. Measure B passed with 64 percent of the vote, allowing the collection of additional revenues to help the City maintain services, expand services in a few high-priority areas, and stabilize service levels during an economic downturn.

KEY ISSUES

As the governing body for the City of Roseville the City Council sets policy, diligently works toward common solutions, builds a sustainable future, provides perspective on critical issues, seeks community input, and works with the community to enhance understanding of City processes and issues. The City Council has identified the following key priorities for the FY2019-20 budget:

- Public safety
- Fiscal responsibility
- Economic development
- Sound and stable utilities
- A great downtown
- Infrastructure
- Legislative advocacy
- Civic engagement
- Core neighborhoods
- Regional engagement
- Culturally rich community

SUMMARY

Council policies and leadership are critical in determining the quality of life and economic success the City enjoys today. As the City celebrates its 110th anniversary of cityhood and having emerged from the most challenging economic time in the past 80 years, it faces the fiscal realities of slowing revenue growth and rising costs. Policies the Council has implemented in the past few years position the City well to meet its financial commitments and live within its means,

ensuring expenses do not outpace revenue in any given year. The City Council continues to engage the community for input about service priorities and standards to align them with budget realities and to advocate for those priorities with state and federal legislative and regulatory bodies. Also, the City Council will continue to set the stage for new economic development opportunities while renewing its commitment to maintain fiscal health, grow responsibly, and offer high-quality services that meet the City's residents' and businesses' needs.

In the upcoming year, focus areas for the City Council will include ongoing public outreach through EngageRoseville, initial meetings of the Council-appointed Local Tax Oversight Committee authorized by voters, and meetings of the Council-appointed Charter Review Commission, which meets every ten years to address policy issues related to the City's governing document.

City Manager's Office (7 FTE)
(includes positions funded in the CM budget)

CITY MANAGER'S OFFICE

Fiscal Year 2019-20

OVERVIEW OF SERVICES

The City Manager's Office implements the City Council's vision by aligning financial resources and administering City projects, programs, and services that support expressed City Council priorities. The City Manager makes policy recommendations to the City Council and oversees all City departments except the City Attorney's Office. Also, the City Manager's Office focuses on leadership; internal and external communications; engagement with employees, the business community, neighborhood associations, residents, and regional governments; internal collaboration between departments; public/private partnerships; higher-education opportunities, and drives efficiency, innovation, and change within the City.

Public Affairs & Communications

Overview—The Public Affairs & Communications (PA&C) Department leads the City's legislative advocacy, media relations, community relations, social media, broadcast, internal communications, neighborhood services, and public information initiatives. The PA&C manages the staff work related to the City Council's Law and Regulation Committee. PA&C also has a leadership role in citywide teams including Communications, Government Relations, Marketing, Emergency Services, E-Government, and Open Data.

EngageRoseville—In FY2017-18, the City initiated this 18-month, multi-platform public outreach effort to educate residents on budget issues and to learn their priorities in city services as significant cuts were forecasted in upcoming years. The greatest challenge was to illustrate the reality of declining municipal revenues in a city known for a high quality of life and in a growing economy.

To give every Roseville resident, visitor, and worker multiple opportunities to provide input, staff looked for varied and inventive ways to gather data. The City asked its residents to “**tell us what matters**” in person and online, through surveys and budget gamification, billboards and flyers, multiple community meetings and a nine-month, in-depth community-priorities advisory committee.

Through the EngageRoseville effort, in April 2018, the Roseville City Council was provided with tens of thousands of data points in a 1,500-page report from which to inform its decisions. Throughout the effort, the data was made available as it was gathered to all participants, Council, and staff. In June 2018, based on the input from the public engagement effort, Council unanimously voted to give residents the opportunity to increase revenue instead of only cutting services, by placing a half-cent general sales tax measure on the November 2018 ballot.

On November 6, 2018, the ballot measure passed with strong voter support in a notably very conservative area. The measure will generate an estimated \$16 million to \$19 million per year to the City's General Fund. Directly as a result of the EngageRoseville effort, city residents are better educated about municipal finance, leading to an increase in civic engagement and trust in local government. This effort allowed the identification of the community's priorities for use in future budgets and helped move the City forward to a more financially secure future. During FY2019-20, the City will invest the revenues in high-priority services and focus areas and will begin meetings of the Local Sales Tax Oversight Committee.

Public Engagement efforts continue—The PA&C is supporting key engagement initiatives in FY2019-20 including the once-a-decade Charter Review Commission and the Placer County Transportation Authority's work on raising awareness of and finding solutions for traffic issues related to Interstate 80 and Highway 65.

Collaborative work with other departments—In light of staffing changes and exploring new ways of work, the PA&C is collaborating more intensely with all departments, particularly Economic Development, Public Works, Development Services, Electric, and Environmental Utilities. This involves significant communication, coordination, and sharing of resources and ideas. In FY2019-20 and beyond, the Department is focusing on working with other departments, including Police, Fire, and Parks, Recreation & Libraries on outreach with underserved and faith-based groups.

Following are descriptions of the PA&C's key citywide teams:

Citywide Organizational Culture and Leadership (OC&L): The OC&L Team is a citywide cross-functional team committed to valuing employees, improving internal communication, and creating meaningful policies and processes to improve the efficiency and effectiveness of citywide operations. The OC&L Team continues to complete the goals and objectives outlined in the five-year year OC&L strategy and will be led and coordinated through the PA&C.

Communications Team: This team exchanges information on current messages and topics; media relations; and City programs, events, and initiatives to strengthen the City's “one voice.” It ensures communications are comprehensive and provides opportunities for training, partnering, and cross-promoting among departments. Outreach channels include the City website, numerous City social media outlets, traditional media outlets such as television stations and newspapers, e-newsletters, and a government-access television station. The Department also manages community

outreach and develops speeches and presentations for business and community groups. During an emergency, vital information needed to ensure public safety is coordinated and disseminated through the City's public information channels. In all cases, the goal is to deliver timely, accurate, consistent, and transparent information.

Legislative Advocacy Team: This team develops, recommends, and manages the annual state and federal legislative agenda and strategy for the City in accordance with Council policy through advocacy, coalition-building, and public education. The number of employees focused on government and regulatory affairs increased with the addition of positions in the utility departments, with the effort continuing to be coordinated by PA&C. The Department staffs the Council's Law & Regulation Committee created in 2012 to facilitate analysis, public education, and engagement. Legislative staff develops and maintains the City's relationship with its contract lobbyists and serves as the City's primary, day-to-day liaison for the City's legislative strategy.

E-Government Team: This team assists in shaping the City's 24/7 virtual presence, services, interaction, information, engagement, and transparency with internal and external communities online. This team helps to evaluate and prioritize external, public-facing services through the governance process. In FY2018-19, this team launched a new intranet site for employees, called The Hub. The Hub was previously a separate employee-news site with a printed companion newsletter for staff who didn't have regular computer access. The new intranet site allows for all employees to have access anytime from any device, so a separately printed newsletter is no longer needed.

Community Relations: This team serves as a liaison between the City and various community groups, including the Roseville Coalition of Neighborhood Associations, the Sun City Government Affairs Committee, and the Roseville Area Chamber of Commerce. It assists in two-way communication regarding initiatives, policies, operations, and events; resolution of issues; and outreach regarding proposed Council action or City policy or operational changes.

BUDGET HIGHLIGHTS FOR FISCAL YEAR 2019-20

Roseville has a tradition of leadership in making innovative, bold decisions in the best interest of the community. The City will continue to promote fiscal responsibility, an organizational culture of putting people first, operational excellence, economic vitality, regional and community engagement, and legislative advocacy.

KEY ISSUES

Focus areas for FY2019-20 include filling existing department head vacancies and integrating new members of the executive leadership team, wrapping up labor contracts for remaining bargaining groups, strategically growing the organization to ensure fiscal health, ensuring industry leadership through training and development, continuing to operationalize the findings of EngageRoseville as part of the City's business practices, and successfully launching and implementing the new Enterprise Resource Planning software to manage business processes, integrating the City's financial and human resources/payroll transactions, activities, and reporting. Also, the City Manager's Office will have significant involvement in the once-a-decade Charter Review Commission process. Every ten years, the Roseville City Council appoints members of the community to review the City's Charter and make recommendations for amendments to the City Council for consideration. Any amendments the City Council approves will be on the November 3, 2020, ballot for Roseville voters to consider.

SUMMARY

The City remains committed to making well-informed decisions that allow it to fulfill its mission to create and maintain a vibrant community environment and enhance the quality of life for residents, businesses, customers, and partners by providing exceptional facilities, programs, and services in a fiscally responsible manner.

The City Manager's Office will continue to provide the best possible service to Roseville's residents, businesses, and City Council. The City will continue to involve stakeholders in determining the best course of action to address pressing issues and to plan for the future.

City Attorney (9 FTE)

CITY ATTORNEY'S OFFICE

Fiscal Year 2019-20

OVERVIEW OF SERVICES

The City Attorney's Office provides comprehensive legal services consisting chiefly of staffing City Council meetings, boards, and commissions; preparation and review of ordinances, resolutions, contracts, and other documents; advice and strategic assistance to City departments; and civil litigation management and code enforcement.

BUDGET HIGHLIGHTS FOR FISCAL YEAR 2019-20

During FY2019-20, the City Attorney's Office will continue to provide legal support for development projects, infill and rezoning projects, economic development, Downtown Roseville revitalization efforts, and regional development issues.

Regional and statewide water supply issues will require special attention, adding to the growing volume and complexity of legal services necessary for the City's utilities. Major projects such as downtown development and improvement require considerable attention, as do increasingly complex state and federal mandates regarding energy and conservation. Ordinances will be introduced or updated to reduce the City's exposure to liability and to comply with statutory and regulatory mandates. Legal assistance will continue for the enforcement of affordable housing agreements, economic development, programs serving local businesses and residents, matters pertaining to marijuana legislation and homelessness, and the entire spectrum of City functions and services.

The provision for training of staff, commissioners, and other City officials on legal issues related to their roles will increase during FY2019-20. Also, the Department will promote the efficient use of resources with a proactive approach to serving City departments with training and education on legal issues and early involvement of attorneys in proposed projects.

KEY ISSUES

- Support the Charter Review Commission and Local Sales Tax Oversight Committee meetings and processes.
- Assist staff on key land acquisition, disposition and development projects including the Downtown Post Office and the Fairgrounds.
- Draft multiple complex ordinances involving, among other topics, motorized scooters, accessory dwelling units, and transit standards and conduct.

SUMMARY

The City Attorney's Office will proactively and strategically provide transactional and advisory legal support for all City services and functions, adding value to all City programs through avoidance of liability and efficient use of resources. Attention to litigated matters will continue with the aggressive defense of liability claims, the intensive management of outside legal counsel on pending cases, and self-handling of hearings on law enforcement and certain law and motion and liability matters.

ANALYSIS				

FINANCE DEPARTMENT

Fiscal Year 2019-20

OVERVIEW OF SERVICES

The Finance Department provides services in budgeting, investing and cash management, general accounting, disbursements, purchasing, central stores, and utility billing.

The Budget Division is responsible for the preparation, development, and publication of the Annual Adopted Budget as well as the Quarterly Financial Reports. This division also assists with budget amendments, including the carry-forward of approved budgets for unspent encumbrances and capital improvement projects (CIPs), throughout the year. The budget team works with all City departments to ensure that actual spending does not exceed City Council-approved budget appropriations.

The General Accounting Division is responsible for the development, implementation, and maintenance of effective financial accounting systems and internal controls. The division provides for management control over the City's financial activity by ensuring the ability to present a fairly stated financial position of the City in a timely basis. The division is responsible for managing the revenue operations of the City and monitoring the City's debt and investment portfolio. It is also responsible for the City's billed receivables including the collection of citywide delinquent accounts. This division is also responsible for grants, special assessments, capital assets, and financial reporting.

The Disbursements Division is responsible for the timely calculation and payment of payroll, payments to vendors, PERS administration and reporting, and retiree health administration and payment. The division is also responsible for all federal and state reporting requirements.

The Purchasing and Central Stores Division is responsible for procurement and acquisition services, central warehousing, mail handling, and courier services.

The Utility Billing Services Division is responsible for the billing and collection of utility services to the City of Roseville residents for electric, water, wastewater, and refuse service. Services include the processing of new service, transfers, payments, delinquency cutoffs, and meter reading.

BUDGET HIGHLIGHTS FOR FISCAL YEAR 2019-20

During FY2019-20, the Department will continue in its critical role in the deployment and optimization of the new Enterprise Resource Planning (ERP) system. Other highlights include:

Budget Division

- Prepare and maintain balanced annual operating and CIP budgets that meet the Government Finance Officers of America (GFOA) and California Society of Municipal Finance Officers (CSMFO) award program guidelines for excellence in budgeting
- Anticipate potential budget impacts from changing economic conditions, state budget impacts to Roseville, impacts from state and federal legislation to the City, and recommend and implement measures to mitigate those impacts
- Administer quarterly budget monitoring meetings with City departments

General Accounting Division

- Issue the 6/30/2019 Comprehensive Annual Financial Report (CAFR) that meets the guidelines for GFOA certificate of achievement for excellence in financial reporting program
- Complete month-end closings of all financial modules promptly
- Administer and control the investment of all monies to maximize interest income while preserving the safety, liquidity, and yield of principal

Disbursements Division

- Deliver excellent customer service while paying vendors and employees both timely and accurately
- Administer retiree health payments
- Enhance the payroll and time and attendance system to allow more streamlined configuration for any legislative, memorandum of understanding (MOU), or report changes

Purchasing Division

- Provide an open, fair, and competitive central purchasing system while continuing to leverage multi-year, citywide commodity based strategies

Utility Billing Services Division

- Deliver superior service to internal and external customers in a fiscally responsible manner
- Participation in the Advanced Metering Infrastructure (AMI) Project

KEY ISSUES

- Complete deployment of the ERP project
- Update and enhance City financial policies
- Expand internal customer outreach and training program

SUMMARY

By implementing and completing identified priorities for FY2019-20, the Finance Department will continue to fulfill its mission of promoting a sustainable community by providing sound financial expertise and outstanding customer service.

Human Resources Department (15 FTE)

HUMAN RESOURCES DEPARTMENT

Fiscal Year 2019-20

OVERVIEW OF SERVICES

The Human Resources Department provides services to both internal departments and employees, as well as to the community. The Department focus is to attract, develop, engage and retain a diverse, well-qualified, and professional workforce that reflects the high standards of the community we serve, as well as ensuring the safety and security of employees and the community. The Human Resources Department accomplishes its goals through teamwork, collaboration, and dedication to providing excellence in public service.

BUDGET HIGHLIGHTS FOR FISCAL YEAR 2019-20

The Human Resources Department will continue to focus on continuous improvement of processes and providing quality and responsive services to its customers. A primary goal for the year will be responsive recruitment services to replace a potential 34% of the City's workforce who have begun retiring over the past few years. Additional goals for the year continue from last year with support for the City's succession planning initiative, the dedication of resources to a new Enterprise Resource Planning (ERP) system, completion of diversity training for the workforce, and the implementation of the updated Injury and Illness Prevention Program (IIPP).

KEY ISSUES

- Recruitment and Hiring – Continue to focus on streamlining the hiring process to bring efficiencies, conduct training for supervisors to help orient new employees to the City's high performing work culture, and incorporate additional outreach strategies to ensure that the City has the best candidate pool available.
- Employee/Employer Relations – Support the labor relations process to ensure timely successor labor agreements, support operational changes in departments through the meet and confer process, as well as updating the Personnel Rules and Regulations in response to recent legislation and to fold in revisions to the Catastrophic Leave Program.
- Human Resources Systems – Continue to support the ERP system implementation (which includes HR/Payroll) through the dedication of one full-time analyst to ensure the implementation of the system is successful.
- Risk Management – Continue to focus on citywide safety through a centralized organizational safety structure and issue the IIPP.
- Performance Management Training – Conduct training on the City online performance management system and educate employees on the City core competencies.

SUMMARY

The FY2019-20 will continue to be a year of ongoing change as many of the City's longtime employees retire and departments continue to reorganize. With 34% of the workforce eligible to retire over the next few years, recruitment and selection, as well as continued succession planning efforts, become a crucial part in planning for the success of the City in the future. The Human Resources staff looks forward to the challenges of the new year.

INFORMATION TECHNOLOGY

Fiscal Year 2019-20

OVERVIEW OF SERVICES

The Information Technology (IT) Department is comprised of three major business units – Strategic Planning and Digital Communication, Client and Innovation Services (comprised of Client Services, Enterprise Solutions and Business and Cloud Solutions), and the Infrastructure team (comprised of Geographic Information System (GIS) and Analytics, Database and Cloud, and Network Infrastructure Solutions). The Department has the responsibility of administering and maintaining innovative technology and services to both internal departments and the community. The department's vision focuses on Leadership, Innovation, Partnership, and Performance. The Department's strategic goals include:

- Provide secure, cost effective and innovative solutions, and technology leadership for Roseville
- Build customer-focused collaborative partnerships working towards the City's success
- Achieve results by meeting business needs through flexible and agile services
- Develop a trusted, cooperative, and collaborative work environment

BUDGET HIGHLIGHTS FOR FISCAL YEAR 2019-20

Technology plays such a significant impact on our daily lives and is continually evolving. Departmental spending on technology grows every year intending to improve services and reducing operational costs. This growth in information technology usage has required a shift in the way to approach technology usage throughout the City. The role of the department is changing from technical support to technical business consultant and partner.

Over the past year, the Department has partnered with a consultant to work on the IT Internal Service Fund (ISF) model. This approach has allowed IT to work closely with internal departments to refine the IT-ISF model, which has provided an opportunity for departments to be heavily involved in the distribution of IT funds. The model will continue to allow for:

1. **Collaboration** between departments and IT in regards to technology needs and innovative ideas that keep the City moving forward.
2. **Visibility** of the City's current technology resources which gives the IT Department the ability to manage and utilize those resources more effectively.
3. **Consolidation** of shareable technology resources for improved leverage during contract negotiations for current and new programs.

The Department has focused heavily on people and culture over the past year. A Continuous Improvement Team has been created to work on internal initiatives and improving business processes for the department. These resources are crucial to improving not only the IT department but the organization as a whole.

Through cooperative partnerships, a focus forward perspective, and a clear understanding of where we're going, the IT Department can ensure that technology solutions are business efficient and cost-effective for the entire City.

KEY ISSUES

IT Vision 2020	
Build a Dynamic Workforce	Continue to build a dynamic workforce that takes pride in delivering quality services and creative solutions to customers. Strive to create a culture of innovation, collaboration, and partnerships.
Enhance City Processes	Continue to simplify and streamline processes through lean practices, reducing bureaucracy, and applying technology to deliver better government services. Increase operational agility and performance of technology services, and simplify the way the City does business through improved use of technology.
Transform the City through Innovation	Continue to reimagine the City as a platform for the most impactful, transformative technologies that will shape the way to live and work in the future. Focus on reducing cybersecurity risks. Continue to explore opportunities to digitally transform community engagement and improve their quality of life.

SUMMARY

Through leadership, expertise and strategic partnerships, the IT Department will deliver innovative and cost-effective technology solutions to support citywide operations and to provide excellent service to the community.

City Clerk (12 FTE)

City Clerk – Passport Center

CITY CLERK DEPARTMENT

Fiscal Year 2019-20

OVERVIEW OF SERVICES

The City Clerk Department's multi-faceted functions have evolved in response to the needs of the legislative body and its constituents. The Department is the link between the public, the City Council, and other City departments. The Department is committed to providing support services and access to government in an accurate, efficient, and timely manner with a focus on customer service. Support services include:

- City Council and staff support: legal posting, agenda preparation, legislative meeting follow-up, minutes preparation, and video streaming for the City Council, Roseville Housing Authority, Roseville Natural Gas Authority, Roseville Finance Authority and the Law and Regulation Committee
- Board and commission member recruitment and training
- Passport processing and notary public services
- Records management
- Elections administration and campaign finance reform
- Fair Political Practices Commission Filing requirements
- Bids/contracts management
- City switchboard
- Bond and security processing
- Public records requests

BUDGET HIGHLIGHTS FOR FISCAL YEAR 2019-20

The City Clerk Department remains committed to efficiently supporting the City Manager, City Council, City staff, and the residents of Roseville with a high level of customer service. Major programs for the Department during the next budget year include:

- **Administration:** To accurately maintain the legal record of the actions of the City Council and all permanent records, staff will continue to provide information and assistance in an efficient and service-oriented manner. Staff will complete administrative functions and comply with regulations regarding the filing of Statements of Economic Interests (Form 700), ethics training tracking, board and commission recruitment, and bid openings. The Department will continue to monitor and track changes to federal and state law and alter procedures to ensure compliance. The City Clerk Department work plan includes moving forward in automating councilmember and candidate campaign statements as well as transitioning all boards and commissions to the Novus electronic platform. Transition to the electronic platform consists of tremendous amount of configuration and training for the eleven advisory board and commission groups comprised of 70 volunteer members plus staff.
- **Records Management:** The City Clerk Department will continue to conduct a comprehensive review and develop plans to replace the City's current electronic document management storage system (SIRE) with a replacement system. SIRE replacement is critical as the company is no longer offering software maintenance and upgrade services. Also, the Department realized a 70% increase in public records requests. For these reasons, staff will research technology for implementation that assists employees with processing requests and ensures compliance with the Public Records Act.
- **Regional Passport Acceptance Center:** The U.S. Department of State designates the City Clerk Department as an authorized Passport Acceptance Facility. Celebrating fifteen years of processing, the City Clerk Department will be opening a standalone regional passport processing center at 316 Vernon Street. Services will include Live Scan, hazmat endorsement, TSA PreV, and Transportation Worker Identification Credentialing. The facility will offer a convenient location for members of the community and the surrounding region to submit passport applications and take care of their fingerprinting needs.

KEY ISSUES

Key issues for the City Clerk Department include continuing current service levels while facing newly-imposed unfunded mandates regarding public records, campaign filing, and notification procedures.

SUMMARY

The City Clerk Department will continue to be responsive, credible, and innovative in serving the residents of Roseville and internal service partners. The Department is fully committed to safeguarding public trust by providing information and access to government.

Police - Operations Division

Police – Services Division

Police – Support Division

POLICE DEPARTMENT

Fiscal Year 2019-20

OVERVIEW OF SERVICES

The Roseville Police Department provides all law enforcement services within the City. The primary mission of the Department is the safety of the public and the protection of their property. The Department provides the following services to meet the City's goal of a safe and healthy community:

- **Police Administration** sets goals and provides leadership to the Department. Police administration includes the Professional Standards Unit, training and personnel, payroll, budget/finance, and the Public Affairs Team, to include public information and some public safety outreach.
- **Police Property Records and CSI Unit** processes thousands of police reports, citations, and other documents annually, and provides for the security and legal release of evidence, property, and police record information. Also, this unit ensures compliance with local, state and federal mandated reporting, manages the Crime Scene Investigations team, and the Department's false alarm reduction program.
- **The Communications Unit** answers 911 and routine calls for police, fire, and advanced emergency medical dispatch, and dispatches the appropriate assistance. The unit also conducts public outreach through "911 for Kids," and "911 Community Outreach."
- **Police Social Services** provides a comprehensive Social Service model to reduce recidivism and maintain a collaborative multidisciplinary team with City departments, state, county, and local agencies. Social Services officers address mental health, substance abuse, and homelessness, and are assigned to schools and parks. The Department's Threat Assessment Officer is also assigned to this unit.
- **Police Patrol** provides uniformed police officers and other staff who respond to emergencies and routine calls for service. Patrol also includes a new Unmanned Aircraft Systems (UAS) team and Regional Special Operations Units which include SWAT, CINT, and EOD teams.
- **Police Investigation** investigates major crimes, to identify and arrest the perpetrators. The investigation unit also includes Investigators assigned to the Placer County Special Investigations Unit and the Placer County Regional Auto Theft Task Force. This division also consists of the Crime Suppression Unit, which targets gangs, known offenders, and emerging crime problems.
- **Animal Control** enforces animal control laws, responds to animal-related emergency and routine calls, and takes dead, stray, and abandoned animals to the SPCA. The City's contract with the Placer County SPCA for shelter and disposal service is included in the Animal Control budget.
- **Police Traffic** enforces traffic laws, driving under the influence (DUI) laws, and investigates traffic collisions. This unit is also responsible for the Major Accident Investigations Team (MAIT).

BUDGET HIGHLIGHTS FOR FISCAL YEAR 2019-20

The Police Department continues to send police trainees through the police academy to fill police officer vacancies. Also, the Department has added a fifth police K9 to the team and will be replacing another retired K9 when the right dog is found.

The Police Department has also added an unmanned aircraft system, as well as several stationary and mobile license plate readers, to coordinate with outside agencies and to assist in capturing crimes in progress or preventing possible crime. The radio upgrade of the P25 radio system is operational, and the process of fully deploying a new traffic citation system is in progress.

Although crime does occur in Roseville, Roseville's 2018 total crime rate increased by only 1% from 2017 levels and is still far lower on a per-capita basis than it was 20 years ago. The City's rate of property crime runs higher than the state average due to its large retail sector but remained stagnant from 2017 to 2018, and the City's violent crime rate remains one of the lowest in the Sacramento region.

The Police Department will be adding four new police officers, and one traffic officer in FY2019-20 to establish a Beat 7 on Roseville's west side, to better serve residents in that area.

KEY ISSUES

- The Police Department continues to face vacancies through attrition due to retirements and resignations; however, the Department is maintaining authorized staffing levels through targeted recruiting and efficient hiring programs. The Department works hard to hire the best entry-level and experienced employees, in both the sworn officer and professional staff ranks. The Police Department continually strives to maintain high standards and quality service by carefully selecting qualified candidates, training them well, and providing the best possible continuing professional development for all employees.
- The SPCA contract for animal care and shelter continues to be the largest portion of the Animal Control budget, as well as the largest contracted amount in the Police Department's budget. In FY2019-20 the SPCA animal intake contract cost will increase 2%, based on CPI, and this will increase the cost to \$324.73 per animal taken to the SPCA, thereby increasing the total SPCA contract to \$909,244. This contract does not include costs for storage of deceased animals or protective custodies and bite quarantines/vicious holds, which can cost upwards of \$10,000.

SUMMARY

The Roseville Police Department is dedicated to providing the best quality of life possible through the highest level of service to the residents of Roseville. The Department strives to maintain an organizational culture that values public trust, inclusion, professional competence and service. One of the main areas to focus on is to continue to build trust in the community. The Department hosts a variety of community events throughout the year, and representatives regularly attend neighborhood association meetings and other community events. Another way the Department strives to build trust is through accountability and transparency. The Department maintains a Professional Standards Unit that regularly updates policies, conducts internal audits of critical procedures, oversees professional standards, oversees professional training standards, and investigates resident complaints and other matters of concern. The Department responds to inquiries from the public in a timely manner, and endeavors to provide as much information as circumstances and the law allow. The Police Department will continue to work together with neighborhoods and businesses to identify and resolve community problems, and take necessary and effective action to ensure a safe City.

- The humane classes taught by Animal Control officers have stopped due to staffing.					

Roseville Fire Department (119 FTE)

FIRE DEPARTMENT

Fiscal Year 2019-20

OVERVIEW OF SERVICES

The Roseville Fire Department is a full-service agency that strives to provide the highest level of public safety services for the community. The Department's goal is to protect lives and property through fire suppression, emergency medical services, disaster management, fire prevention and, public education. The Department provides the following services to fulfill its mission:

- **Fire Administration** implements City policies and programs and manages the various programs within the Fire Department, including budget management, to provide the highest level of fire and emergency management services responsibly.
- **Fire and Life Safety** is the focal point of the Fire Department's efforts to minimize fire losses in the community. This division's key role is improving the safety and quality of life of the residents of Roseville. Its primary activities are fire code enforcement, a comprehensive fire safety inspection program, plan review services, hazardous materials enforcement, hazard abatement, public information, and public education activities.
- **Fire Operations** responds as an all-hazards response agency to meet the routine and catastrophic needs of the community including medical calls, fires, technical rescue, hazardous materials, major causality incidents, and other types of emergency calls. Roseville firefighters respond to requests for service from the public when those services are not assigned to another public agency. The division also participates in the California Fire Assistance Agreement, Sacramento Regional Homeland Security Initiative, and the FEMA Urban Search and Rescue California Task Force 7.
- **Fire Training** provides training at the Fire Training Center for all firefighters within the Department, other city departments and for regional cooperators. Training is the single most crucial ingredient to the readiness of firefighters and emergency responders to fulfill their assigned mission. Other fire departments utilize the training center on a daily fee-for-use basis.
- **Fire Support Services** provides all the logistical, purchasing, fleet and management for the business support side of the Fire Department.
- **Emergency Preparedness** is a citywide program managed by the Fire Department which includes the maintenance of the Emergency Operations Center, emergency operations and mitigation plans, and other technology related to disaster planning and preparedness. This program also provides ongoing emergency management training to all City employees and the general public.

BUDGET HIGHLIGHTS FOR FISCAL YEAR 2019-20

The Department will adjust as needed to any operational changes to maintain response times to the community.

KEY ISSUES

Working within budgetary limitations, the key issues facing the Fire Department will be in providing the safe and effective delivery of fire emergency services (facilities, equipment, and personnel) to residents, businesses, and visitors.

- Maintain minimum training standards as required by state and federal agencies.
- Implement the National Fire Operations Reporting System which will assist in operational statistics and exposure management.
- Maintain accreditation by the Center for Public Safety Excellence.
- Initiate the preliminary stages for an eighth fire station in the Blue Oaks/Woodcreek Oaks area.
- Bring hazardous materials certification training in-house to provide a more cost-effective method of delivery and improve opportunities for related grants and revenue streams in the future.
- Continue to explore new revenue streams.
- Maintain acceptable response times as the population and geography of Roseville continues to grow.
- Evaluate the current staffing and service delivery model.

SUMMARY

The FY2019-20 budget reflects the Department's continuing commitment to provide fire and emergency services in a well-planned, cost-effective, and professional manner to the residents of Roseville.

ANALYSIS					
- The Fall 2018 Emergency Operations Center (EOC) readiness exercise was cancelled due to an actual EOC activation for the Citywide Network outage caused by server broadcast storm.					
* The city Emergency Operations Plan (EOP) will be updated in coordination with Placer Office of Emergency Services during the next fiscal year.					

Economic Development Department (14 FTE)

ECONOMIC DEVELOPMENT DEPARTMENT

Fiscal Year 2019-20

OVERVIEW OF SERVICES

Economic Development

The Economic Development Department is responsible for creating a dynamic environment that attracts and expands businesses and business investments that support the community's values. Economic Development focuses on leveraging partnerships, sharing resources, building on Roseville's competitive advantages, and strengthening Roseville's position as the region's community of choice for business, investment and the community.

The Department provides staffing and support for the Economic Development Advisory Committee, the Roseville Housing Authority, the Roseville Grants Advisory Commission, housing programs, the Roseville Homeless Response Team, the Successor Agency, the Housing Successor and the Advantage Roseville Program.

Economic Development Advisory Committee

The Economic Development Advisory Committee advises the City Council on creating a community environment conducive to existing businesses, attracting desirable businesses to Roseville, and promoting tourism as a key element of the local economy.

Roseville Housing Authority

The Housing Authority is funded by the federal department of Housing and Urban Development (HUD) and administers the Housing Choice Voucher (HCV) Rental Assistance Program (formerly Section 8), which assists elderly, disabled, and very-low income individuals and families by providing affordable housing opportunities in a safe environment.

Roseville Grants Advisory Commission

The Department staffs the Roseville Grants Advisory Commission who recommends grant awards from the Citizens' Benefit Trust Fund, and the Roseville Employees Annual Charitable Hearts (REACH) Fund, a special fund in the City employee-giving campaign designated for community grants.

Housing Programs (First-Time Homebuyer, Rehabilitation, and Affordable Purchase and Rental Programs)

The Department's Housing Division coordinates and administers the First-Time Homebuyer, Housing Rehabilitation, and Affordable Purchase and Rental programs, which are funded from several federal and state grants, as well as developer fees and other sources.

Roseville Homeless Response Team

The Department provides leadership and coordination with both the internal Homeless Coordination Team that enhances interdepartmental communication across the City on actions related to homelessness and for the multidisciplinary Homeless Response Team.

Successor Agency and Housing Successor

The Department provides staff support for the Successor Agency of the former Redevelopment Agency and manages the Agency's enforceable obligations. The Successor Agency is overseen by the Placer County Consolidated Oversight Board. The Housing Successor of the former Redevelopment Agency has assumed the assets of the former Low and Moderate Income Fund, and staff manages the funds that are used primarily for affordable housing projects and homelessness intervention activities.

Advantage Roseville

The Economic Development Department has brought the Advantage Roseville Program into its work programs from the Roseville Community Development Corporation. The goal of the Advantage Roseville Program is to grow Roseville's economy by bringing in new businesses and retaining and expanding existing businesses. The Advantage Roseville Program is in its seventh year of operation and has an anticipated \$75,000 operating budget for FY2019-20.

BUDGET HIGHLIGHTS FOR FISCAL YEAR 2019-20

The Department is focused on the implementation of the Economic Development Strategy during this fiscal year. Implementation of the strategy will be monitored by the Economic Development Advisory Committee (EDAC). The Department will continue to work on the Advantage Roseville Program business goals of attraction, retention and growth; project assistance; outreach to higher education; and tourism and marketing of Roseville's business-friendly programs and services.

Each year, staff continues to support the revitalization of Downtown Roseville. Focus includes the implementation of Downtown Specific Plan goals; development of strong public/private partnerships; interactions with the entire downtown community; and the identification, financing, and construction of new downtown projects.

The Department will continue to work to ensure the success of downtown investments and citywide projects including the construction of the three downtown pedestrian bridges, facilitation of the University Development Foundations efforts for higher education, sale of surplus properties, redevelopment of 330 Vernon Street (aka Post Office), and 505 Royer Street (old Courthouse) properties; and facilitate permitting of planned reinvestment at Westfield Galleria at Roseville.

The Housing Authority will continue to fully expend its funds allocated by HUD for the Housing Choice Voucher Rental Assistance Program, will utilize its newly-awarded VASH vouchers and Mainstream vouchers, and will apply for additional funding when available.

Staff will continue to refine and streamline the work of Grants Advisory Commission activities, by completing a Community Needs Assessment to ensure that the grants have the greatest impact and support to the non-profit community serving Roseville.

The Housing Division will continue implementation of the City's 10-percent Affordable Housing Goal (rental and purchase programs), as well as the First-Time Homebuyer Down Payment Assistance Program. Housing staff will continue to administer Homeless Prevention and Rapid Rehousing funding within the community, with continued requests for matching funds from Sutter Health's *Getting to Zero* campaign and other local potential funders for this program, as well as efforts in the construction of and predevelopment work of affordable rental housing developments.

Staff will also continue with the administration of local Community Development Block Grants (CDBG) that support local services and investment into infrastructure projects for the older core neighborhoods of the City, including Owner-Occupied Rehabilitation loans to low-income homeowners, Main Street Plaza Apartments, and completion of the rehabilitation of the Johnson Pool with health, safety, and accessibility upgrades.

KEY ISSUES

- Implementation of the Roseville Advantage Finance Program
- Expand the City's brand recognition and position the City as a leader in job growth and business attraction
- Track economic indicators to form fiscal decisions
- Pursue the sale of surplus properties
- Support reinvestment into core neighborhoods through the completion of the rehabilitation of the Johnson Pool, construction of Main Street Plaza Apartments (Washington and Main), implementation of affordable ownership home rehabilitation programs, rehabilitation of The Gathering Inn restrooms and showers at Berkeley Avenue, predevelopment work for Junction Station, and opportunities for additional affordable housing development
- Build on the success of the Roseville Homeless Response Team and the Homeless Prevention & Rapid Rehousing funding through continued collaboration and ongoing outcome performance measures, while identifying opportunities for matching fund sources
- Complete a Community Needs Analysis to guide the use of the Citizens Benefit Fund grants
- Identify community priorities, draft, and adopt the Five Year Consolidated Plans required for the CDBG Program and the Housing Authority Housing Choice Voucher Program

SUMMARY

The Economic Development Department will focus on the implementation of the Economic Development Strategy by playing a key role in attraction, retention, and business growth efforts of the City.

The Housing Authority will continue to focus on providing rental assistance through funding from HUD and will continue to be a "High Performing Agency." The Housing Division will continue to implement the City's affordable housing goals by using funding from the HOME Investment Partnerships Program (HOME), Building Equity and Growth in Neighborhoods Program (BEGIN), Affordable Housing and the Housing Trust Funds, as well as other funding sources. CDBG will continue to provide grants and loans for community development activities, owner-occupied rehab, affordable housing development opportunities, and public services.

The Department will also take a lead role in coordinating business-focused resources, programs, and services from multiple City departments. Leveraging partnerships with the Roseville Area Chamber of Commerce, City resources, and other economic-related organizations will be critical to the Department's implementation of the Economic Development Strategy.

Parks, Recreation & Libraries – Recreation/Business Divisions

Parks, Recreation & Libraries Director

Parks, Recreation & Libraries – Parks Division

Parks, Recreation & Libraries – Library Division

PARKS, RECREATION & LIBRARIES DEPARTMENT

Fiscal Year 2019-20

OVERVIEW OF SERVICES

The mission of the Parks, Recreation & Libraries Department is to enhance lives and the community by providing exceptional experiences. The Department accomplishes this mission through a variety of programs, services, and facilities. The proposed budget for this fiscal year is approximately \$33.8 million, with an estimated \$14 million offset in revenue. The Department currently maintains and/or operates 81 developed parks and facilities, 258 acres of streetscape, 42 acres of school property, 4,400 acres of open space, two championship golf courses, two community centers, three swimming pool facilities, the Maidu Museum & Historic Site, 18 Adventure Club facilities, and three libraries.

BUDGET HIGHLIGHTS FOR FISCAL YEAR 2019-20

The Department will enhance existing service levels in priority areas in the FY2019-20 budget as a result of the passing of Measure B in November 2018. The Department used the priorities identified in the EngageRoseville process to help focus resources in the areas that were most important to the community.

The Parks Division budget includes the development of a turn-key (or developer-built) pocket park at parcel FF-97 in West Roseville. This park is anticipated to be completed in the summer of 2020. Design and construction will also continue on WB-51 (John L Sullivan Park) off of Solaire and Summerfaire Drive in the Westbrook area of Roseville. Groundbreaking is anticipated in the spring of 2019 for RG Phillips Park (F-52) off of Old Coach, Richard & Pauline Roccucci Park (W-51), and Pistachio Regional Park. Phase II for both Harry Crabb Park and Central Park is targeted for completion in Spring 2020. Designs for park parcels W-50C, W-50E, and F-51 will begin in the fall of 2019. Rehabilitation or replacement of existing park assets will also be ongoing. Also, the Parks Division budget includes additional funding to enhance turf care, replace plants, maintain sport fields and infrastructure, and clean facilities.

Measure B revenues allow the Open Space Division to manage the City's urban forest using a five-year grid pruning cycle versus the six and a half year cycle that was previously used for several years. Also, the FY2019-20 budget provides funds to utilize goats to help accomplish the prescribed thatch management levels and to assist with fuel load reduction of approximately 200 acres of General Fund open space. This budget also includes additional resources to help support efforts related to unsheltered camp clean up.

The Recreation Division is focusing efforts on core services and City Council goals. The division continues to identify opportunities for financial assistance/scholarship programs based on eligibility requirements and available funding. The FY2019-20 budget reestablishes funding for Vernon Street Town Square holiday lighting, fireworks, and one additional special event.

The Libraries Division prioritizes access to information, education, literacy, technology assistance, cultural awareness, and facilities serving as a community gathering space. The three focus areas for the coming year are outreach to at-risk youth and underserved residents, organizational efficiencies and extended access to facilities and materials. The FY2019-20 budget includes expanded operational hours and an increase in the budget for materials.

KEY ISSUES

The Parks Division continues to balance the demand for the development of new parks while seeking resources to maintain existing General Fund parks and rehabilitation projects. The Department has made significant efforts to stabilize park service levels; however, catching up on multi-year deferred maintenance in General Fund areas remains a challenge.

The Recreation Division is strategically offering popular programs to provide residents a variety of recreation and fitness programs and events throughout the year that promote community health and wellness. To help meet budget goals, the division is increasing user fees in strategic areas, including impacted programs and those benefitting specialized groups or individuals. The Recreation Division continues to strive to provide affordable programming in underserved neighborhoods, but fiscal challenges continue to make this more and more difficult. This division also operates the Youth Development Enterprise Fund, as well as several special revenue funds, including the Golf Fund.

The Libraries Division continues to make community outreach to at-risk youth a priority. Automated materials handling and self-check allow for more efficient library operations and free staff to enhance customer experiences through programming and outreach. The Library division continues to utilize volunteers to help support programs and facility operations. The Maidu Museum & Historic Site continues to focus on building tribal relationships and consultation assistance opportunities.

Golf Fund

The most significant source of revenue is generated through user fees for course play. Golf continues to be a financial challenge in the current economy and market. Both golf courses are experiencing rising costs, while rounds and green fees remain relatively flat. The weather plays a significant role in overall course usage. These factors are also seen both regionally and nationally. The primary expenses of the fund are course maintenance, bond payments, and utilities. Although city staff is involved in the management of course contracts, no staff are employed directly at the facilities. The annual bond payment is approximately \$490,000 and is scheduled to be paid off in 2024. This fund is projected to need a \$700,000 to \$800,000 subsidy until the bond is fully retired.

Youth Development Fund

The most significant sources of revenue include fees for providing before and after school child care and preschool programs. The Youth Development Fund currently has its largest fund balance since 2001. The fund consists of Adventure Club, preschool, After School Education & Safety and subsidized care programs, which continue to provide nearly 2,700 families with quality, dependable childcare, and preschool services. Fund expenses include direct service delivery charges for staff salaries, facility maintenance, materials, and supplies. Additional expenses to the fund include post-retirement insurance, city indirect contributions, internal service fund support, and facility loan payments. Adventure Club attendance continues to grow. The fund performed well during the last fiscal year and is expected to continue to that trend in the coming years. There is a potential new elementary school that could open in the fall of 2020.

SUMMARY

The Parks, Recreation & Libraries Department remains challenged but committed to providing exceptional services, facilities, and programs to residents. The Department continues to deploy existing staffing and financial resources to concentrate on core services. The Department plans to focus on the following key areas for FY2019-20:

- Implement the organizational transformation plan designed to leverage staff positions to their fullest extent.
- Develop and update policies and procedures to enhance service efficiencies.
- Implement succession planning addressing the high level of staff turnover.

ANALYSIS				
<ul style="list-style-type: none"> - Salary expenses for temporary part-time staff are included but not reflected in the FTEs (Full-Time Equivalent.) - The FY2018-19 Target, Department Estimate, and FY2019-20 Budget reflect the impact of reductions in operational hours and programs. - The change in FTE during FY2018-19 is due to removing one Library Assistant, and moving one Administrative Technician and one Administrative Analyst to the Park and Recreation Administration program. 				

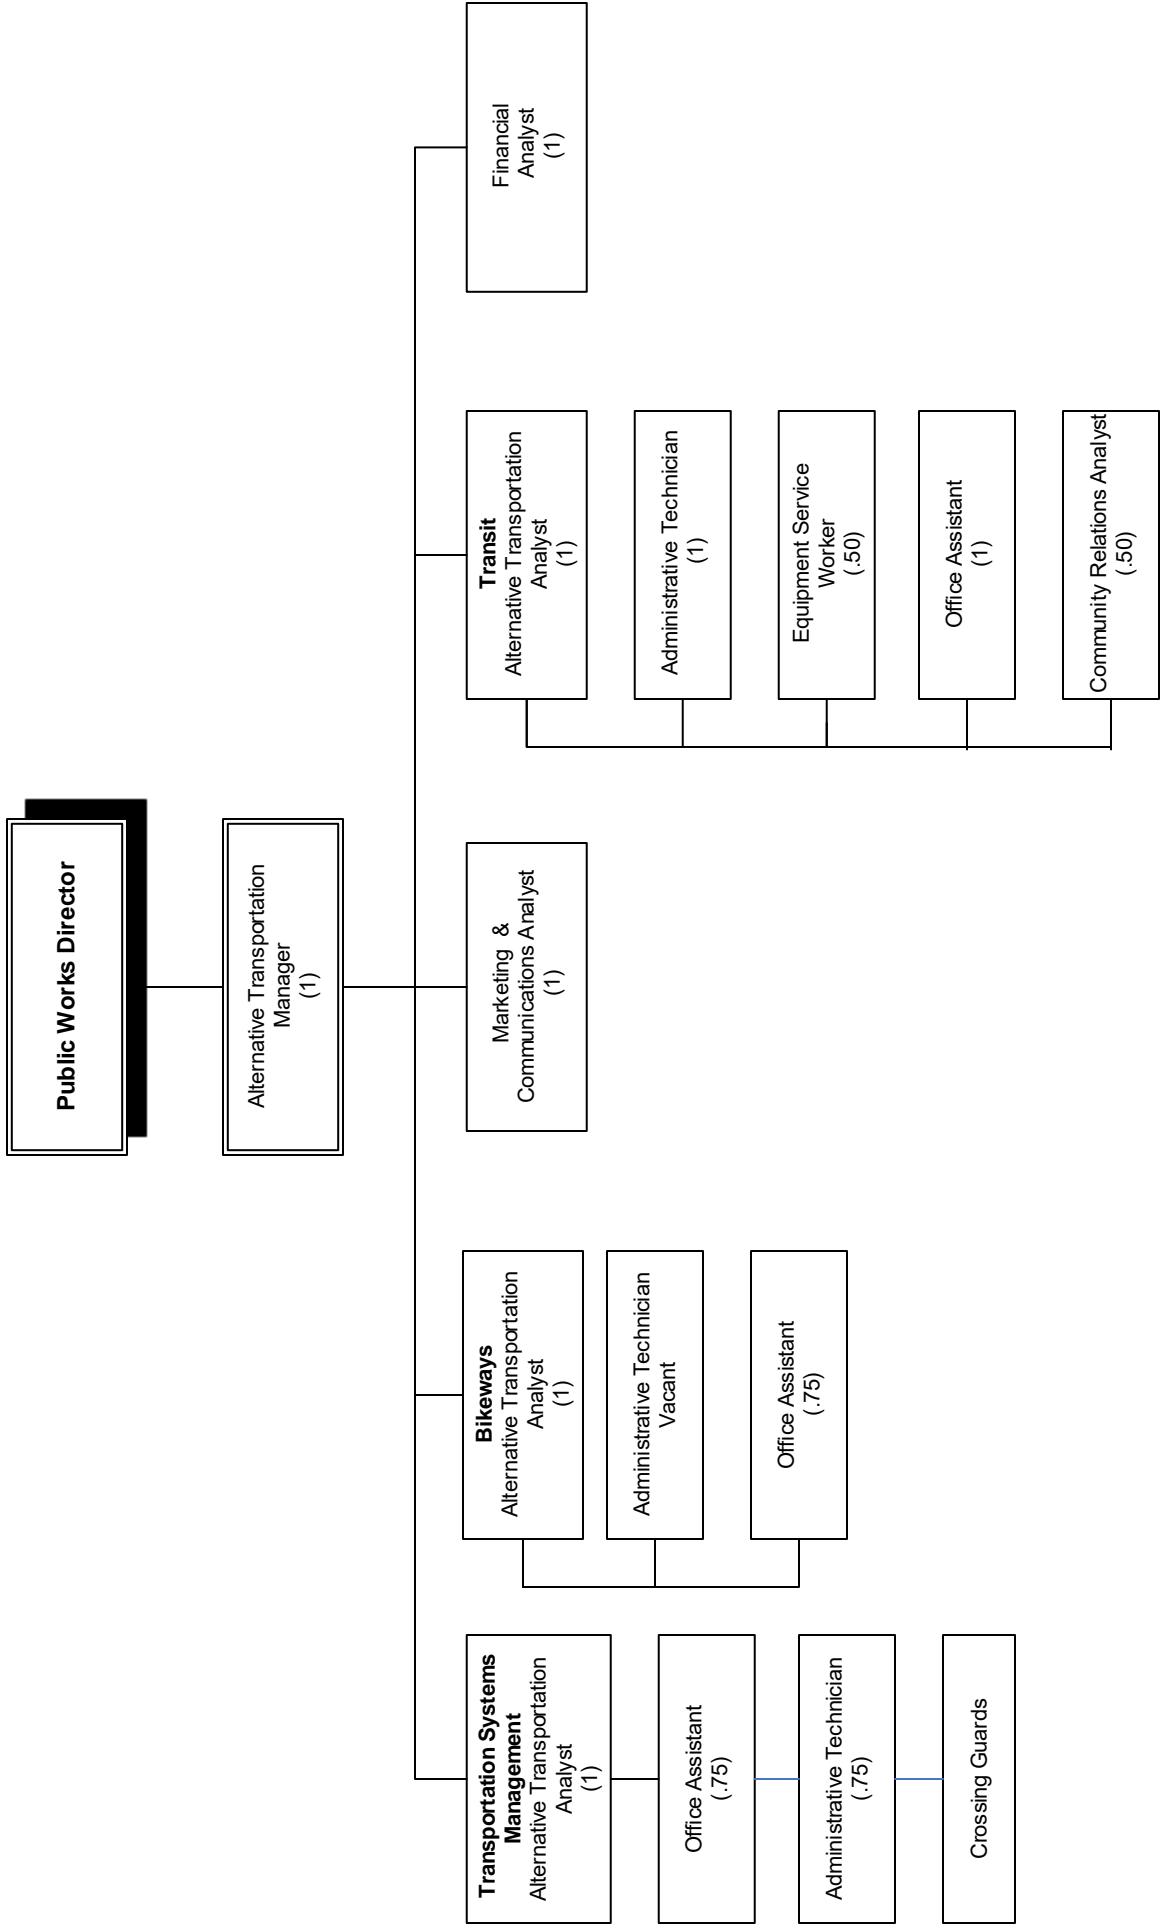

(THIS PAGE INTENTIONALLY LEFT BLANK)

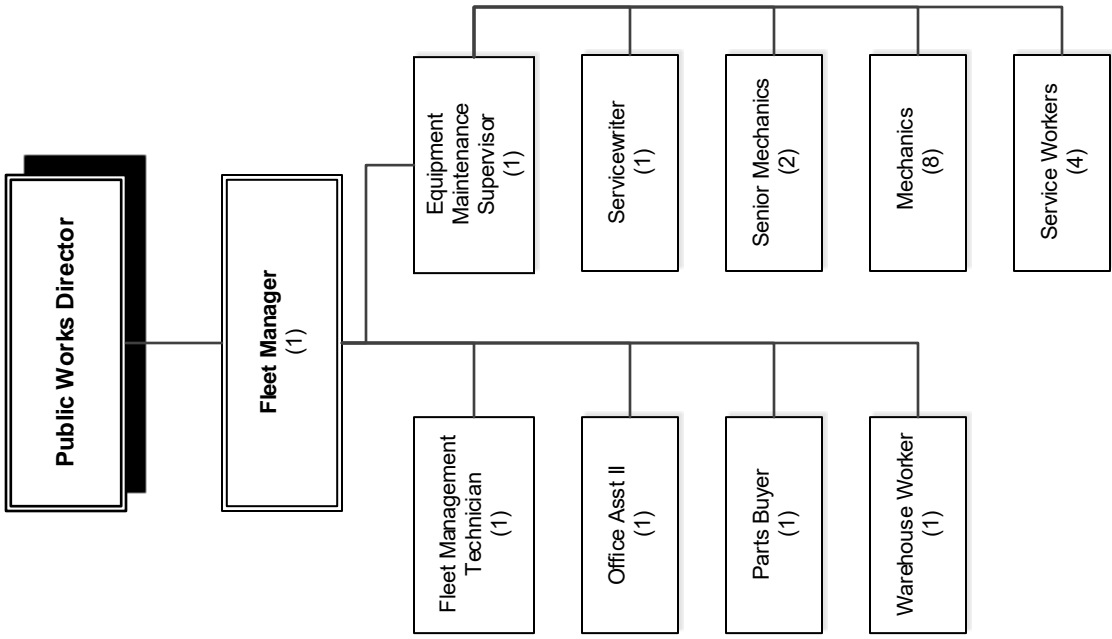

Public Works Department (111.25 FTE)

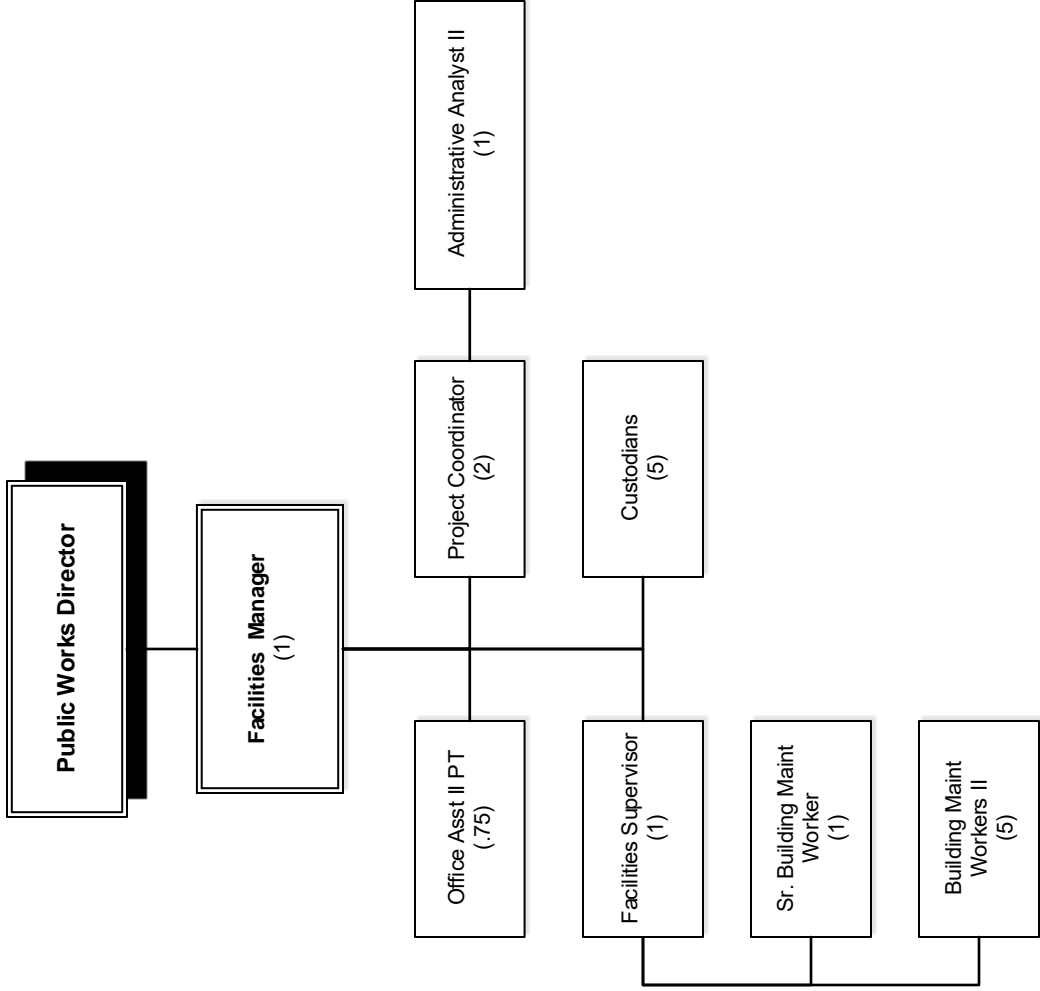

Public Works Department – Fleet Services Division

Public Works Department – Facility Services Division

PUBLIC WORKS DEPARTMENT

Fiscal Year 2019-20

OVERVIEW OF SERVICES

The Public Works Department (PWD) manages all aspects of transportation infrastructure within the public right-of-way, including the maintenance and operations of programs and services for the safe and efficient transportation of Roseville residents, businesses, and visitors. The PWD also manages the construction and maintenance of public buildings, is responsible for flood control within the City, and manages and maintains the City's fleet of vehicles. Specifically, Public Works plans, develops, and maintains public roads, bridges, buildings, City fleet, flood control facilities, and Class I (off-road) multi-use paved trails. Additionally, the PWD is responsible for the maintenance of 523 centerline miles of streets; 36.2 miles of trails; and the Intelligent Transportation System which includes 188 traffic signals, ten changeable message signs, the Bus Tracker real-time arrival tool, and information for Google Transit online trip planning.

The Public Works Department also manages the Roseville Transit and the local Transportation Systems Management Ordinance. Furthermore, the PWD provides and promotes transportation safety and education through various programs and events, including but not limited to: Safe Routes to School, Bikefest, Mobility Training, and volunteer Transit Ambassador, and Bike/Walk Ambassador programs. In addition to managing Roseville Transit, the PWD provides the South Placer Transit Information transportation service, a phone, web, and e-mail portal for the public to easily obtain information and trip-planning assistance for all public transit services in the south Placer region.

The PWD provides road maintenance (signs, signals, lights, pavement, storm drains, etc.), street sweeping, and an annual leaf pickup service. The PWD also manages flood control projects and services within the City, including an advance flood alert warning system for public safety. The City of Roseville is the only community in the United States to have the FEMA Class I rating for flood protection and insurance. The PWD is responsible for maintaining this rating for the safety and benefit of the community. Public Works recognizes the impact and importance transportation has on the region, and continues to enhance communication and public engagement regarding infrastructure projects, maintenance, transportation services, as well as bike and pedestrian safety. The PWD also acts as staff to the Transportation Commission, a recommending body for the City Council.

The PWD Fleet Services Division provides fleet management services and performs preventative maintenance and repairs for all City vehicles, maintains an Automotive Service Excellence (ASE) Blue Seal of Excellence status, maintains compliance with all California Air Resources Board rules and regulations for public fleets, maintains compliance with State mandated California Highway Patrol Basic Inspection of Terminals program, and is seeking grant funding to expand the City's compressed natural gas (CNG) vehicle inventory and infrastructure.

The PWD Facility Services Division maintains 60 City buildings totaling over 1.2 million square feet. Facility Services is in its third year of transition to an Internal Service Fund (ISF) model of accounting and service delivery. With the addition of the new Fire Station 1 and the Oak Street Parking Garage, the responsibility of Facility Services is expanding. The division is also managing several facility rehabilitation projects at various locations, managing the facility ADA Transition Plan, and updating the 10-Year Facility Capital Improvement Project (CIP) Plan.

BUDGET HIGHLIGHTS FOR FISCAL YEAR 2019-20

The total budget for FY2019-20 is \$35.0 million of which 17 percent (\$6.0 million) is from the City's General Fund. The net General Fund costs for FY2019-20 reflect a 10 percent drop from the FY2018-19 amended budget. The remaining funding sources include State of California Transportation Development Act funds, solid waste funds, electric funds, and gas tax funds.

Capital Improvement Projects (CIPs) Goals for FY2019-20

- Complete construction of the SR65/Galleria Blvd northbound ramps project (2-year construction)
- Begin construction on the Oak Ridge Drive Bridge Replacement Project (2-year construction)
- Complete underground drainage upgrades in the Hillcrest area
- Complete the 2019 Curb, Gutter, Sidewalk, and Ramp Project
- Repair the Maidu Park multi-use paved trail
- Repair various creek bank and drainage facilities
- Resurface 18.8 miles of arterial and collector roadways
- Resurface 13.9 miles of residential roadways
- Resurface approximately 8 miles of multi-use paved trails
- Complete the design of the Washington/All America City roundabout
- Begin design of the Roseville Parkway Widening Project
- Begin design of the Pleasant Grove/Roseville Parkway Triple Left Turn Project
- Begin design of the Mahany Open Space Trail Project
- Begin final design for the Dry Creek Greenway East Trail Project

- Begin the Bicycle Master Plan and Pedestrian Master Plan updates
- Begin the Dry Creek Greenway West Trail design and environmental review
- Complete a business plan for the long-range conversion of the Roseville Transit fleet to zero-emission buses per the requirements of the California Air Resources Board
- Continue the process to replace four Roseville Transit Commuter diesel buses with battery-electric zero emissions Commuter buses as a pilot project for electrification of the transit fleet
- Begin the replacement process for three Dial-A-Ride diesel buses and seven additional Commuter diesel buses
- Rehabilitate six local route buses
- Continue design of the Washington “Andora” Widening Project
- Construct a Changeable Message Sign on westbound Pleasant Grove approaching Roseville Parkway

Street Maintenance Projects

Public Works plans to resurface several roads this year and improve pedestrian ramps and, storm drains in preparation for more resurfacing next year. Maintenance is also scheduled on 16 bridge decks throughout the city. The goal is to maintain all collectors and arterial streets at an average pavement quality index (PQI) of 72 and residential streets at 65. PQI is measured from 1 to 100, with 100 representing a brand new street.

Roseville Transit Services

Roseville Transit will continue to work with Placer County Transportation Planning Agency (PCTPA) on the implementation of the Short Range Transit Plan (SRTP). The Transit Plan will help to assess challenges and opportunities for transit in 2025. The SRTP may include detailed route optimization studies to enhance the effectiveness and efficiency of transit. Fleet upgrades comprise the rehabilitation of existing buses and the purchase of new Dial-A-Ride and Commuter replacement buses per the SRTP. The City will purchase four zero emission buses to replace existing commuter buses and one new zero emission bus to provide an additional morning and evening Commuter trip to downtown Sacramento. This project will serve as a pilot project for the future conversion of the Roseville Transit fleet. The Transit division will also begin procurement for transit technology upgrades for passengers, including advanced bus arrival information and automatic stop announcements.

KEY ISSUES

Roadway maintenance is and will continue to be, a challenge as the City's roadways age. The recent passage of Senate Bill 1 (SB1) provides a significant source of funding to help meet that challenge but falls short of providing enough additional resources to keep all the roadways in a state of good repair. The Public Works Department will continue to look for opportunities to obtain other funding sources for roadway maintenance costs. A portion of Transportation Development Act (TDA) Funds will again be used for roadway maintenance in FY2019-20. However, it is uncertain how much TDA funding will be available on a year-by-year basis for roadway maintenance until after the amount needed to fund existing transit services is determined each year. The amount usually received in gas tax revenues for roadway maintenance is approximately \$3 million per year. SB1 provides an additional \$2.3 million per year, and the City's need for road maintenance is about \$8 million annually. These funding levels translate into a shortfall of approximately \$2.7 million per year for road maintenance. The lion's share of SB1 revenue is for roadway maintenance, but there are other categories for which SB1 will provide additional revenues, such as public transit and bicycle/pedestrian facilities. Although SB1 will provide more funds for maintaining existing roadway infrastructure throughout the state, it does not provide funds for regional capacity improvements. Therefore, traffic congestion on regional facilities such as State Route 65 and Interstate 80 will continue to worsen unless another funding source is identified for regional capacity improvements.

Also, the PWD will focus on customer service, service levels, and service delivery models for city facilities. Operations will continue to be augmented with contract services. Several projects in the 10-Year Facility CIP Plan have been deferred over the years, and the balance between the General CIP Rehabilitation Fund and deferred maintenance will continue to be a challenge during the coming years.

SUMMARY

Public Works will continue to focus on improving traffic circulation and air quality in Roseville, as well as expanding bikeways and Roseville Transit services. The PWD will continue to work closely with the Placer County Transportation Planning Agency on the design and construction of planned improvements to the 80/65 Interchange, State Route 65, and Interstate 80, in addition to partnering with Capital Corridor Joint Powers Authority on the design of the Third Track project. Public Works will continue to provide project management for City building construction and maintenance, and various repair and improvement projects. The PWD will also pursue innovative and cost-effective repair methods to maintain roadways at the level expected by Roseville's residents. Public Works will continue to meet the growing needs of residents, businesses, visitors, and customers by providing friendly, responsive, and consistent services and information.

MAJOR SERVICE AREA	DEPARTMENT	PROGRAM			
TRANSPORTATION	PUBLIC WORKS	LOCAL TRANSPORTATION (08350 - 08354, 00440, 00441, 00443)			
PROGRAM					
Roseville's Alternative Transportation Division creates a vibrant, healthy community by providing safe, convenient and efficient transportation options. Simply put, the Division makes it easier for people to get around.					
PROGRAM OBJECTIVES					
Implement Roseville's Short and Long Range Transit Plans, as well as the South Placer County Dial-A-Ride (DAR) Study and Bus Rapid Transit (BRT) Study, which include the following:					
<ul style="list-style-type: none"> - Expand and provide a mix of transit services that fit the needs of the community - Increase annual transit ridership and annual passenger miles using transit - Meet the statutory 15% farebox recovery - Maintain low service costs and seeking stable outside funding sources - Operate the South Placer call center and Transit Ambassador Program 					
Implement, monitor, enforce, and provide feedback regarding the effectiveness of the city's Transportation Systems Management (TSM) Ordinance. Implement the bikeway master plan and promote programs which help achieve its goals.					
Adopt and implement the Pedestrian Master Plan and promote programs which help achieve its goals.					
Monitor air quality mandates and implement programs as necessary, including the sustainable action plan.					
Increase awareness of alternative transportation and its benefits for a safe and healthy community.					
Provide primary staff support to the Transportation Commission.

ENVIRONMENTAL UTILITIES DEPARTMENT

Fiscal Year 2019-20

OVERVIEW OF SERVICES

The mission of Environmental Utilities (EU) is to be a progressive, self-sufficient group of utilities that serve the public in environmentally-friendly and fiscally-responsible ways. EU provides four major services (water, wastewater, solid waste, and recycled water), manages the City's stormwater quality program, and co-manages the Utility Exploration Center with Roseville Electric Utility.

BUDGET HIGHLIGHTS FOR FISCAL YEAR 2019-20

The Water utility purchases, treats, and distributes potable water to approximately 44,000 customer accounts and is responsible for infrastructure maintenance and water efficiency program implementation. The Water Operations Fund budget includes operational costs, continued implementation of metered billing, new regulatory requirements, and planning for continued reliability. It also includes \$4 million for future infrastructure rehabilitation and replacement and \$250,000 for the Water Rate Stabilization Fund.

The Wastewater utility collects and treats wastewater for Roseville and its regional partners (South Placer Municipal Utility District and Placer County) and is a regional provider of recycled water for areas in the City and Placer County. Responsibilities include the maintenance of wastewater and recycled water infrastructure within Roseville city limits and the operation and maintenance of the two regional wastewater treatment plants. The Wastewater Operations Fund budget includes operational costs for the wastewater treatment plants, laboratory, sewer collection system, and recycled water. It also sets aside \$8.125 million for future infrastructure rehabilitation and replacement and \$1.25 million for the Wastewater Rate Stabilization Fund.

The Solid Waste utility collects, recycles, and disposes of refuse for residential and commercial customers and oversees the maintenance of the closed Roseville Sanitary Landfill. The Solid Waste Operations Fund budget includes operational costs, regulatory compliance, and the implementation of programs aimed at increasing diversion from the waste stream. It also includes \$200,000 for the rehabilitation and replacement of existing cans and bins and \$103,000 toward the Solid Waste Rate Stabilization Fund. The Solid Waste utility is also responsible for managing the City's stormwater quality program—a state-mandated program, supported by the General Fund.

Operational expenditures for all three utilities are consistent with the rates analysis conducted for FY2019-20.

KEY ISSUES

Water

- Continue water reliability planning efforts including the Regional Water Authority-led Sacramento Regional Groundwater Bank development and participation in the Ophir Water Treatment Plant with regional water partners
- Implement the Roseville Groundwater Strategic Plan that optimizes the current systems and plans future groundwater and recharge infrastructure that maximizes water supply reliability and prepares for Roseville's future key role in an integrated regional conjunctive use program
- Continue to develop the operational and technical capacity of Roseville's groundwater program utilizing existing infrastructure and preparing for additional Aquifer Storage and Recovery (ASR) wells recommend by the City's Groundwater Strategic Plan

Wastewater

- Increase treatment capacity of the Pleasant Grove Wastewater Treatment Plant (construction expected to begin late in the summer or early fall of 2019)
- Complete process changes at the Dry Creek Wastewater Treatment Plant to meet additional regulatory requirements
- Install energy conversion equipment at both the Pleasant Grove and Dry Creek Wastewater Treatment Plants
- Begin operation of a new high-strength waste receiving station constructed at the Dry Creek Wastewater Treatment Plant (waste will be converted to energy to help power water treatment processes)
- Provide ongoing staff support for the South Placer Wastewater Authority
- Continue the implementation of collection system condition assessment recommendations
- Comply with more stringent environmental regulations not directly related to wastewater treatment operations such as new environmental laboratory accreditation requirements
- Enhance the safety program through review and updates to Cal/OSHA-required safety programs to reduce accidents/injuries and promote a safety-oriented culture
- Continue regulatory and legislative advocacy

Recycled Water

- Continue planning efforts for the expansion of the recycled water system into future urban growth areas
- Plan for recycled water use outside of Roseville
- Continue rehabilitation and maintenance of existing recycled water facilities

- Expand recycled water service to new customers
- Manage semi-aggressive use of recycled water within existing and newly-approved specific plan areas

Solid Waste

- Implement the Commercial Organic Waste Program to conform with AB 1826 requirements
- Monitor and proactively address requirements of proposed Extended Producer Responsibility (EPR) bills addressing the disposal of batteries, sharps, and pharmaceuticals
- Continue planning efforts to comply with SB 1383 (Short-Lived Climate Pollutants)
- Implement the Stormwater Quality Program to ensure compliance with the State's General Permit for Municipal Stormwater Discharges (NPDES Phase II Program)
- Monitor the stormwater trash amendment and prepare the City for its implementation
- Plan for future waste processing and recycling facilities at Western Placer Waste Management Authority and in Roseville
- Enhance the customer experience through the rebranding of the Solid Waste collection fleet

Utility Exploration Center

- Continue to provide Roseville residents with information on conservation actions supporting water and energy conservation, waste reduction, and watershed protection through interactive exhibits and innovative programming
- Conduct Green Living Workshops for Roseville homeowners and business owners
- Conduct special events and outreach programs throughout the year to connect Roseville residents with City utilities
- Provide programs for Roseville and regional schools and expand family programming and informational resources to serve a broad range of Roseville residents
- Work with high schools to introduce students to career opportunities in the utilities

Environmental Utilities Administration

- Continue high-level public outreach efforts
- Conduct rate and connection fee analyses; ensure that operational expenditures are consistent with the assumptions in the FY2019-20 rates analysis
- Participate in the implementation of the City's Enterprise Resource Planning (ERP) system replacing the legacy financial and human resources software application
- Participate in regional efforts including the South Placer Wastewater Authority, the Regional Water Authority, and the newly-formed West Placer Groundwater Sustainability Agency

SUMMARY

Environmental Utilities continues to strive for the highest level of efficiency in providing utility services while maintaining cost-effectiveness and implementing regulatory and legislative requirements. Water utility staff will provide customer assistance for continued conservation reductions as required by the State; Wastewater utility staff will continue to meet more stringent regulatory requirements; and Solid Waste utility staff will continue to expand organics, recycling, and hazardous waste programs. The Utility Exploration Center will continue to provide high-quality educational programming and services for Roseville residents. All staff will continue to monitor budgets to ensure revenues are sufficient to cover expenses.

MAJOR SERVICE AREA	DEPARTMENT	PROGRAM			
WATER	ENVIRONMENTAL UTILITIES	WATER TREATMENT AND STORAGE (08421)			
PROGRAM					
To provide treatment and deliver water to the distribution system and storage reservoirs that is safe, clear, palatable and meets the needs of water users in the City of Roseville.					
PROGRAM OBJECTIVES					
To meet all requirements of the U.S. Environmental Protection Agency and the State of California Department of Health Services. Specifically:					
<ul style="list-style-type: none"> - To maintain a turbidity of less than 0.05 turbidity units on an average monthly basis - To maintain a bacteriological count wherein 0.00% of routine samples shall be total coliform positive - To maintain a fluoride level within a range of 0.7 to 1.1 milligrams per liter on an average basis - To maintain a pH value within a range of 8.4 to 8.8 - Maintain system chlorine residuals above 0.2 milligrams per liter 					
PERFORMANCE MEASURES		2017-18 ACTUAL	2018-19 TARGET	2018-19 DEPT EST	2019-20 BUDGET
WORK VOLUME:					
- Water production (acre feet)		28,869	32,000	30,000	32,000
- Complete 75% of mechanical maintenance division work orders		85%	75%	78%	75%
- Complete 75% of operator work orders		77%	75%	80%	75%
EFFICIENCY AND EFFECTIVENESS:					
- Average monthly turbidity units level		0.03	0.05	0.03	0.05
- Percent of samples that are total coliform positive		0.00%	0.00%	0.00%	0.00%
- Average monthly fluoride level (mg/L)		0.7	0.7	0.7	0.7
- Average monthly pH		8.6	8.7	8.6	8.7
- Cost to treat 100 cubic feet of water excluding cost of raw water		\$0.217	\$0.220	\$0.220	\$0.240

ROSEVILLE ELECTRIC UTILITY

Fiscal Year 2019-20

OVERVIEW OF SERVICES

Roseville Electric Utility (RE) improves the quality of life of the community with reliable electricity and excellent service at competitive prices, while maintaining a culture of safety. Residents and businesses highly value the utility's low rates and high reliability. RE regularly obtains recognition from state and national organizations for its high service levels, customer satisfaction, and innovative programs.

The utility is a full-service energy provider, with dedicated employees who provide a variety of services. There are three major operating divisions including:

- **Resources and Generation**
 - Provides power portfolio management services.
 - Operates and maintains the utility's two natural gas power plants.
 - Maintains and enhances the proprietary control systems for the power plants and the electric distribution system.
- **Operations**
 - Constructs, operates, and maintains the electric distribution system and streetlights.
 - Plans, designs, and assists with the construction and rehabilitation of the electric distribution system and streetlights.
- **Business Services**
 - Provides financial services including budgeting, financial planning, load forecasting, rate design, and customer data management.
 - Provides customer service and delivers energy efficiency programs for residential and business customers.
 - Provides direction in the configuration, design, and deployment of advanced meter systems.
 - Ensures the utility complies with risk management policies and federal, state, regional, and local regulatory requirements.

Also, the utility provides funding for public safety and civic amenities that contribute to Roseville's high quality of life. The utility continues to maintain some of the lowest rates in California and has not raised rates since 2014.

BUDGET HIGHLIGHTS FOR FISCAL YEAR 2019-20

The RE budget for FY2019-20 is balanced with revenues covering expenses of \$163 million, highlights include:

- Power supply costs decline due to flat energy sales and lower market prices.
- Operating expenses are slightly lower than last fiscal year.
- Capital expenses decrease slightly as the utility continues to invest in rehabilitation and expansion of the distribution and generation infrastructure to maintain safe and reliable service.

The capital budget for FY2019-20 is \$21 million, including:

- Advanced Metering Infrastructure – Advanced meters will improve operational efficiency, provide customers with more information about their usage, and improve air quality. In FY2019-20, the Utility will continue its multi-year installation plan to fully modernize customers’ meters by 2021.
- Fiddyment Substation Transformer – As the Roseville community grows, so must the Utility’s electric distribution system. Installation of the transformer provides redundancy and adequate capacity in the event of a failure.
- Dispatch Center – RE will renovate its Dispatch Center to upgrade 20 year old dispatching equipment to current technologies and includes a redesign of the existing space. This project will provide more efficient methods and tools for operations including reduced outage durations and improved customer outage awareness.
- LED Streetlights – RE owns and operates more than 13,000 streetlights with various fixture styles and lighting technologies. This project will retrofit the City’s aging street lighting system with more efficient LEDs over the next four years. This project will enhance the quality of street lighting, reduce energy consumption, and decrease maintenance costs.

KEY ISSUES

- New legislative and regulatory requirements increasingly and directly impact customers. The utility will continue to help customers adapt to new state laws regarding energy efficiency and new building standards.
- The largest component of the utility’s budget is the cost of providing energy. Despite many changes in the industry and a challenging regulatory environment, RE continues to manage current expenses and proactively plan for the future successfully.
- Natural gas and electricity market prices remain historically low. The City’s comprehensive energy risk management policies ensure that customers are protected from short-term increases in market prices.
- New and emerging technology will continue to shape the future of RE. The increase of energy storage, electric vehicles, and the availability of data will change the way the utility provides services, delivers energy and interacts with customers.

SUMMARY

The FY2019-20 RE budget is balanced with revenues covering expenses. Major activities in FY2019-20 include addressing capital and rehabilitation needs to the distribution system and generation assets and continuing to provide customers high quality energy services, programs and legislative and regulatory representation.

Development Services Department (70 FTE)

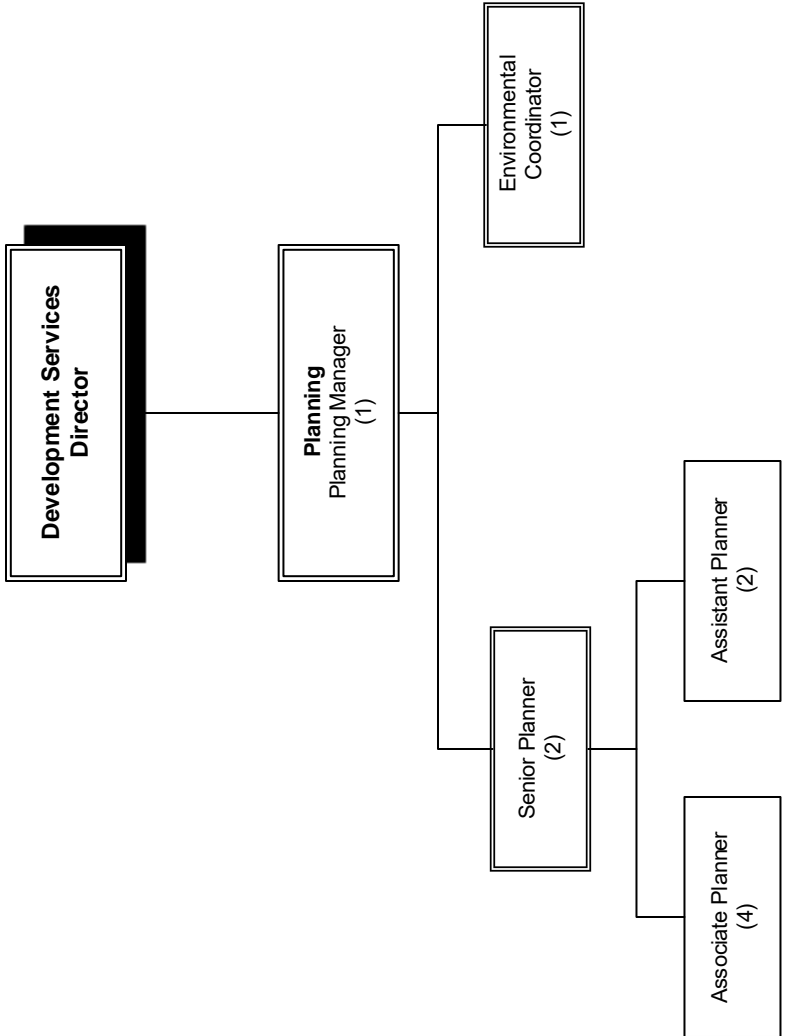

Development Services Department – Business Services & Administration

Development Services Department – Building Division

Development Services Department – Engineering Division

Development Services Department – Planning Division

DEVELOPMENT SERVICES DEPARTMENT

Fiscal Year 2019-20

OVERVIEW OF SERVICES

The Development Services Department (DSD) evaluates and maintains development impact fee programs, provides long-range planning, reviews entitlements and building permit applications, provides plan and map review, issues permits for buildings and infrastructure improvements, provides inspection services, and recommends acceptance of final maps and civil improvements to the City Council for all private land development projects. The Department also ensures public safety through enforcement of local and State building and nuisance laws via code enforcement actions.

BUDGET HIGHLIGHTS FOR FISCAL YEAR 2019-20

FY2019-20 is expected to see a continued citywide increase in development activity. In addition to large development projects, this next fiscal year will see concerted efforts on the City's General Plan Update project and supporting climate action policies, as well as continued contract staff/CEO support to the Roseville Community Development Corporation.

In addition to citywide land use entitlement activity, building permit activity is expected to remain strong. Building permit issuance is expected to increase in the second quarter before the new building code requirements set to take effect in January 2020. The DSD expects to issue over 900 single family residential permits, process 300 tenant improvement permits, and issue more than 5,500 building permits overall. Significant projects in which the DSD will continue to be integrally involved include: the Kaiser Riverside Medical Office Building, the Campus Oaks Commercial development, Campus Oaks Apartments Phase 2, the Broadstone & Holden Senior Living projects, the Main Street Plaza mixed-use residential project, the Roseville 80 office/warehouse buildings, and the Parcel 49 Living Spaces and peripheral development. The City's paper lot (or tentative map) inventory exceeds 6,000 lots, with ±1,300 lots expected to receive final map approval this fiscal year, further contributing to sustained single-family residential permit activity.

The DSD is projecting approximately \$4.9 million in revenue based on current and projected development activity. Budgeted cost recovery for the Department in FY2019-20 is 55 percent.

KEY ISSUES

- Concurrently process multiple complex development projects.
- Review and amend the Zoning Ordinance to streamline processes and requirements.
- Complete the General Plan Update, Climate Action Plan (CAP), and associated environmental impact report.
- Participate in the NEPA 404 Permit process for Amoruso Ranch Specific Plan.
- Coordinate inter-agency land use issues (Placer Parkway, SACOG including MTP/SCS update, Regional Housing Needs Allocation (RHNA), Landfill Master Plan participation, Federal and State Legislation).
- Coordinate City review of Placer County's Sunset Area Plan and Placer Ranch Specific Plan projects.
- Prepare application for Senate Bill 2 Planning Grant.
- Update the City of Roseville Open Space Preserve Overarching Management Plan.
- Implement the new California Department of Fish and Wildlife (CDFW) Routine Maintenance Agreement for Stream Channels and Drainage Facilities.
- Refine and enhance the Online Permitting Services (OPS) portal and Electronic Document Review (EDR) system.
- Update City addressing standards.
- Support succession planning and professional development efforts.
- Support ERP roll-out and related activities, including new billing practices for development projects.
- Educate and implement changes resulting from the new 2019 building code.
- Implement a pilot project for paperless/mobile inspections.
- Implement plan review process efficiencies for new commercial buildings and tenant improvements.
- Address traffic, drainage, and infrastructure issues associated with the Placer Ranch and Sunset Area Plan.
- Implement Capital Improvement Program Fee update to include the Amoruso Ranch Specific Plan.
- Implement process efficiencies to increase cost recovery.
- Solicit proposals for multi-year professional plan check and inspection services agreements.

SUMMARY

Development Services will continue to strive for the highest level of efficiency in processing building, engineering and, planning applications while maintaining a high level of customer service. Additionally, the Department will continue to ensure that Roseville continues to be a desirable community through the enforcement of local, state and federal mandates as part of the City's Code Enforcement actions.

MAJOR SERVICE AREA	DEPARTMENT	PROGRAM		
DEVELOPMENT SERVICES	DEVELOPMENT SERVICES	CODE ENFORCEMENT (08815)		
PROGRAM				
To promote and maintain a safe and desirable living and working environment. Maintain and improve the quality of our community by administering a fair and unbiased enforcement program to correct violations of municipal codes and land use requirements. Improving the overall appearance of the City by reducing the total number of Municipal Code violations. Increase productivity, demonstrate program effectiveness and measure results through the implementation of innovative use of computers and technology.				
PROGRAM OBJECTIVES				
- To respond in a timely manner to complaints about potential municipal code violations, and provide for fair and effective enforcement of the municipal code				
PERFORMANCE MEASURES

Capital Improvement Program Overview

Capital Improvement Program Overview

The City of Roseville's Capital Improvement Program includes two types of projects: Capital Improvement Projects (CIPs) and annual projects. CIPs are related to the acquisition, expansion, or rehabilitation of an element of the City's infrastructure (physical improvements such as streets, public buildings, parks, etc.). Annual projects are ongoing and include, but are not limited to, maintenance work performed on a routine basis for bike trails, open space, and roadways.

CIP budgets are approved by project in total; however, City Council approval is also required for the actual implementation of the projects. Purchase orders, service agreements, and contracts related to these projects are presented to and approved by City Council.

The CIPs presented in detail in the budget are only those projects that are requesting new budget approval in this or future budget years. Since CIP budgets are approved on a total project basis, any unspent funds at the end of the fiscal year are carried forward into the next year's budget via a budget adjustment.

A list of the current CIPs that will have their budgets carried over into the next fiscal year is presented on the summary page of each CIP section. Annual projects do not carry over their unspent budgets.

The CIP budget sheets display cost estimates and funding sources for the City of Roseville's annual projects and CIPs for the next five years.

Accordingly, the document includes descriptions, classifications, costs, funding source, and other relevant facts for the City of Roseville's CIPs and annual projects for FY2019-20 through FY2023-24.

Projects are classified as follows:

- Annual
- Citywide Technology
- Electric
- General Government
- Parks, Recreation & Libraries
- Public Safety
- Public Works
- Solid Waste
- Stormwater
- Wastewater
- Water

The table titled "Capital Improvement Program Summary: FY2019-20 through FY2023-24" is a high-level view of the total of the project expenditures in each category of capital expenses over the next five years.

Capital Improvement Program Overview

Project Information

The information at the top of each project sheet includes:

- ① **Classification of Project** – The project sheets are grouped by project classification (example: Electric, Public Works, Water...).
- ② **Project Number** – The projects sheets are ordered by Project Number within each classification group. See footnote below for explanation of numbering process.
- ③ **Original Appropriation Date** – This information is included for Capital Improvement Projects and typically not for Annual Projects. It is the month and year that funds were initially appropriated to be spent on the project.
- ④ **Project Title** – This is the working title for the project.
- ⑤ **Tentative Completion Date** – This is the month and year that the project manager anticipates the project being complete.
- ⑥ **Description** – This section includes the details of the project.

⑦ **Cost Estimate** – This is the financial measure of the total amount anticipated to be spent for each year of the project by activity (Labor, Architectural Services, Site Acquisition, Material, Construction and Other). The “Prior Years Actuals” column includes the actual amount spent from project inception to the end of the prior fiscal year for CIPs and last year’s actual spending for annual projects. The “Amended Budget and Carryover” column includes the amended budgets and unspent amounts carried over for the prior fiscal year. The next five columns include anticipated spending over the next five years. Finally, the “Total Project” column calculates the total cost of the project from inception to five years in the future.

⑧ **Source of Funds** – This section indicates how each project will be funded. It includes other City funds, grants and other anticipated revenues. If the project is funded by more than one City fund, the entire amount is budgeted in one fund (typically the fund that the sponsoring department is funded by). The amounts funded by other City funds are then transferred into the fund where the project is budgeted. The “Prior Years” column includes the actual amounts funded from each source since project inception through the end of the prior fiscal year. The “Total Project” column calculates the total funding of the project by each source, from inception to five years in the future.

Project Numbering Sequence

Starting FY2019-20, the City will implement a new Enterprise Resource Planning (ERP) system. The project numbering sequence presented on this Capital Improvement Program, includes the project number in the previous ERP system (IFAS) followed by the equivalent project number in the new ERP system (Oracle). Projects in Oracle are numbered consecutively. The following is the rationale for project numbering under the previous ERP system. Annual project numbers are comprised of five digits. The first digit indicates the department that is managing the project, the second digit indicates the type of project (annual or CIP), the third digit indicates the project category (Water, Wastewater, Parks...etc.) and the last two digits are sequential. Example: For Annual Project number 21501: 2=Public Works, 1=Annual project, 5=Street Project and 01 is the sequential order in which the project number was assigned.

CIP projects include the five digit number described above followed by an additional six digit number. The first two digits indicate the fiscal year in which the project first received funding, the next digit is the division (Environmental Utilities, Electric...etc.), the next digit indicates the project category (Water, Wastewater, Parks... etc.) and the last two digits are sequential. Example: CIP number 30003/133002: 3=Environmental Utilities, 0=CIP, 0=Water and 03 is the sequential order in which the project number was assigned. Following the slash 13=project was initially funded in FY2012-13, 3=Environmental Utilities, 0=Water and 02 is the sequential order in which the project number was assigned.

ANNUAL PROJECT BUDGET

CLASSIFICATION OF PROJECT:	PROJECT NUMBER:	FUND:						
Annual	31512	470/6201						
	74345							
PROJECT TITLE:	DEPARTMENT:							
Wastewater-Outreach	Environmental Utilities							
DESCRIPTION:								
The State Water Resources Control Board mandates that the City of Roseville implement a Sewer System Master Plan (SSMP) which includes implementation of residential outreach to discourage the habit of dumping kitchen grease down the drain. This practice causes fatty clogs in the wastewater system and eventually creates sewer system overflows (SSOs) which can cause sewage discharges to the stormwater system.

Annual	91007 062460	218/3380						
PROJECT TITLE:	DEPARTMENT:							
Bike Trail Maintenance	Public Works							
DESCRIPTION:								
<p>This project funds the routine maintenance of the City's bike trails, including weed abatement, tree trimming, sweeping, asphalt maintenance and other activities, at an approximate cost of \$5,600 per mile. These activities increase the longevity of these important City assets and result in a safe and clean surface for bicycling, walking, jogging and other trail activities. This project is funded by Community Facility District (CFD), and Lighting and Landscaping District (LDD) revenues. Additional bike trail funding separate from this annual project is provided through the Transportation Development Act (TDA) which funds trail resurfacing projects, and the TDA funded Alternative Transportation operating budget.</p>

Document Management System	Information Technology	Jul-21						
DESCRIPTION:								
<p>The Store, Index, Retrieve, Exchange Software Program (SIRE), is the citywide document management system used to store and retain documents. SIRE includes workflows and integrations with applications like GIS and Accela permitting. Hyland Software acquired SIRE in 2012 providing limited support and no system upgrades or enhancements for Windows 2008/SQL 2008. The City needs to develop a strategy and solution for replacing SIRE and implement it before the system becomes unsupported. This project will assess the SIRE system's use across the city, develop a replacement strategy and solution, and implement the replacement.</p>

Electric System Protection Upgrade and Replacement	Electric	Jun-24						
DESCRIPTION:								
Replace and upgrade 12 Kilovolt (kV) and 60 kV protective relays that have reached the end of their useful lives. Protective relays are used in the power delivery system to detect faults (short circuits) and operate appropriate circuit breakers to isolate faults. This project includes the 12 kV system relays that have begun to inadvertently operate (trip), power line protection relays on the 60 kV system, and remaining electro-mechanical relays. There are approximately 30 relays that need replacement and upgrade under this project including units at Southeast, Foothills, Berry St., Fiddymont, Industrial, and Pleasant Grove substations.

CLASSIFICATION OF PROJECT: Electric Utility	PROJECT NUMBER: 40002 134005	FUND: 491/6001	ORIGINAL APPROPRIATION DATE: Jun-12					
PROJECT TITLE: Cable Replacement Rehabilitation and Upgrade	DEPARTMENT: Electric		TENTATIVE COMPLETION DATE: Jun-24					
DESCRIPTION: Replace and upgrade 12 Kilovolt (kV) underground cables that have reached the end of their service life. The contributory factors used to determine when to replace cables are age, service history and fault records. Replacement and upgrade priorities are given to areas where cables are beginning to fail and show a pattern of multiple outages. In most instances, cables were installed in a particular neighborhood at the same time; so this means when one section begins to fail this generally triggers a cable replacement and upgrade project for all the cables in that area. Staff conduct an assessment of cable replacement and upgrade priorities on an annual basis.

60KV Power Line Restringing	Electric	Jun-24						
DESCRIPTION:								
<p>Power line ratings are a function of both conductor capacity and line clearances (spacing between the lines and the ground or other lines). Because lines sag when hot, the line rating is often limited by the maximum amount of sag allowed before clearance limits are reached.</p> <p>A system-wide Light Detection and Ranging (LiDAR) analysis was performed in 2013, with the results finalized in mid-2015. This analysis provides all of the information required to make the necessary changes to the pole line construction (i.e., raise/lower crossarms, re-sag conductor spans, etc.) to obtain adequate clearances. The annual budget for this project will provide for the LiDAR data to be translated into job packages and provides funds for all anticipated construction modifications that are identified.</p>

CLASSIFICATION OF PROJECT: Electric Utility	PROJECT NUMBER: 40002 174004 400111	FUND: 491/6001	ORIGINAL APPROPRIATION DATE: Jul-16					
PROJECT TITLE: Fiber Storage Loop End of Life Rebuild	DEPARTMENT: Electric		TENTATIVE COMPLETION DATE: Jun-20					
DESCRIPTION: This project consists of replacing 37 snowshoe fiber optic storage loops with pole mounted brackets. When Roseville Electric Utility first began installing fiber optic communications between substations, a "snowshoe" style bracket was used to create a storage loop on the fiber optic cable runs. This storage loop consists of looping the fiber back upon itself successive times over an approximately 50-foot span and using plastic ties to hold the fiber in place. Over time, UV light has deteriorated the ties, causing the fiber optic cable to sag well below its installed height. More recent fiber optic installations have used a pole-mounted bracket for the fiber storage loops. This design does not rely upon ties for mechanical strength and eliminates the possibility of the fiber sagging (which could lead to damage).

Zero Liquid Discharge Improvements	Electric	Jun-24						
DESCRIPTION:								
<p>The Zero Liquid Discharge (ZLD) Improvement project is intended to occur over multiple fiscal years, as a series of replacements and new installations designed to allow for the continued reliable operation of the ZLD system. The ZLD involves several aggressive processes that can be destructive to equipment over time. Also, since the plant was built, operating experience has identified the need for several improvements to the existing design which will further improve reliability and ZLD effectiveness.</p>

Advanced Metering Infrastructure	Electric		Jun-21					
DESCRIPTION:								
Replaces Project 104001. Related expenditures from project inception to 3/20/16 are \$157,687 funded by the Electric Operations Fund.								
Roseville Electric faces increasing demands to provide meter data to customers to comply with new regulations and to meet increased customer expectations. Many Roseville Electric Utility customers, and especially customers with electric vehicles and solar panels, are requesting pricing options such as Time of Use (TOU) rates. A modern Advanced Metering Infrastructure (AMI) system is required to offer TOU rates to these customers. AMI would introduce two-way communication for meters, allowing remote reads and greater interaction between the utility and its customers. An AMI system also provides customers a detailed view of their electricity usage and allows them to make changes to increase the efficient use of electricity. This project progresses from a business case, through a third party implementation, and finishes with the AMI system being installed and operating.

Supervisory Control and Data Acquisition / Cyber Security		Electric	Jul-22				
DESCRIPTION:							
Roseville Electric Utility's Supervisory Control and Data Acquisition (SCADA) system is a critical system to support the reliable operation of the distribution system. Upgrade of Windows operating system and being able to apply security patches are required by mandated security measures from the North American Electric Reliability Corporation (NERC) and Western Electricity Coordinating Council (WECC). Application upgrades in addition to Windows upgrades are necessary to ensure software compatibility. SCADA computer hardware also has reached its replacement cycle. Replacing hardware with software upgrades is also a standard best practice to limit support cost. Additional cybersecurity enhancement will be included in the upgrades.

Dispatch Center	Electric	Jun-20					
DESCRIPTION:							
Replaces Project 164001, which had no previous expenditures.							
Redesign and construct the Electric Dispatch Center to meet dispatching needs in the near-term and long-term future, taking advantage of current technologies in dispatch centers. There is an ongoing study to estimate the cost of the new technologies and the infrastructure necessary for proper housing and operation.

Balance of Plant Rehabilitation	Electric	Jun-24						
DESCRIPTION:								
<p>The Balance of Plant (BOP) refers to all supporting systems which integrate larger plant equipment or support other necessary functions within the Roseville Energy Park (REP). Examples include stormwater management, chemical handling systems, and miscellaneous structural and site improvements. The purpose of this project is to enhance certain capacities, make system modifications and/or process improvements, and generally support the reliability and safety of the REP.</p>

CAPITAL IMPROVEMENT PROJECT BUDGET

CLASSIFICATION OF PROJECT: Electric Utility		PROJECT NUMBER: 40002 184106	FUND: 491/6001	ORIGINAL APPROPRIATION DATE: Jul-17				
PROJECT TITLE: Turbine and Heat Recovery Steam Generator Rehabilitation		DEPARTMENT: Electric	TENTATIVE COMPLETION DATE: Jun-22					
DESCRIPTION: The gas turbines at the Roseville Energy Park (REP) are connected to Heat Recovery Steam Generators (HRSG). The HRSG's convert the high temperature turbine exhaust into high pressure/temperature steam through a system of high strength piping and pressure vessels. While the gas turbines are under a long-term maintenance contract with the manufacturer, Siemens, there are many supporting systems which are not, including the HRSGs themselves. The purpose of this project is to make modifications and perform rehab work to the turbine support systems as needed, including inspections, code repairs and process modifications to the HRSG and its components to ensure the continued safe and efficient operation of the HRSGs.

PROJECT TITLE:		DEPARTMENT:	TENTATIVE COMPLETION DATE:					
Critical Systems Rehabilitation		Electric	Jun-24					
DESCRIPTION:								
<p>The REP utilizes several high energy and hazardous systems in the course of daily operation. These systems include high pressure and high temperature steam, natural gas, compressed air, and several chemical processes. The purpose of this project is to establish a condition baseline and perform routine monitoring of these systems to ensure their continued safe operation. The proposed monitoring program is an industry best practice for such systems. This project will also provide for 1) system modifications that will make condition monitoring less expensive in the future, 2) performance of repairs of any potential deficiencies found in the course of inspection, 3) implementing a comprehensive document management program, and 4) conducting engineering studies on systems that would be subject to failure due to anticipated operating scenarios.</p>

CAPITAL IMPROVEMENT PROJECT BUDGET

CLASSIFICATION OF PROJECT: Electric Utility		PROJECT NUMBER: 40002 500044 NEW		FUND: 491/6001		ORIGINAL APPROPRIATION DATE: Jul-19		
PROJECT TITLE: Grid Modernization		DEPARTMENT: Electric		TENTATIVE COMPLETION DATE: Jun-20				
DESCRIPTION: Project to install a next generation communication equipment along with technology that will help crews locate faults more quickly. The first year's deployment will give field crews the opportunity to gain experience with these new systems and evaluate the functionality of the selected technologies before a full-scale deployment is undertaken in subsequent years.

Pleasant Grove 2 Substation Expansion	Electric	Jun-20						
DESCRIPTION:								
<p>The project expands the existing Pleasant Grove substation to accommodate new customers coming online. A transformer repurposed from the Park substation will serve as a second transformer at Pleasant Grove substation and will be in place at the start of this expansion project. The components needed to complete the substation are 60 kV circuit breakers, 60 kV bus work, transformer protection (Phase1) and a new 4-feeder 12 kV switchgear building (Phase 2).</p>

Roseville Power Plant 2 Switchyard Upgrade		Electric	Jun-21					
DESCRIPTION:								
The 60 kV switchyard at Roseville Power Plant #2 (RPP2) needs an upgrade as it is 30 years old and much of the equipment is reaching the end of its life. This project replaces 60 kV disconnect switches and structural steel, updates communication equipment and replaces the protection package for the incoming 60kV line, step-up transformers, and hardware.

12kV Recloser Dispatch (remote) Control	Electric	Jun-21						
DESCRIPTION:								
<p>The reclosing function of system 12kV circuit breakers is usually enabled to allow the automatic restoration of customers in the event of a transitory fault. When field crews perform switching operations on the 12kV system or work with energized equipment, the reclosing function must be disabled for safety purposes. By replacing the existing recloser control switches with remotely operable switches, dispatchers will be able to disable the reclosers remotely. This change will save time and resources by eliminating the need to send personnel to the substation prior to performing work.</p>

PROJECT TITLE: Industrial Switchgear No. 2	DEPARTMENT: Electric			TENTATIVE COMPLETION DATE: Jun-21				
DESCRIPTION: System reliability and equipment protection will be increased by replacement of this switchgear. Circuit breakers are no longer manufactured and spare parts are no longer available. Additionally, these breakers require more repairs during routine maintenance than should be necessary as components have been failing. This project also includes upgrading the protection and controls for the breakers.

Berry Station Disconnect Switch	Electric	Jun-21						
DESCRIPTION:								
<p>This project replaces all of the 60kV disconnect switches at the Berry Street Substation. These high voltage switches are used to isolate equipment during maintenance, are old and difficult to operate and could cause personal injuries to employees during operation. Also, they are difficult to close properly and if not properly aligned, could cause equipment damage. The replacement of the disconnect switches will increase reliability and staff safety.</p>

PROJECT TITLE:		DEPARTMENT:	TENTATIVE COMPLETION DATE:					
Fire Mobile Data Computers Replacement		Information Technology	Jul-21					
DESCRIPTION:								
<p>This project will replace all Mobile Data Computers (MDCs) in all fire units with new devices that will be covered under warranty for the next five years and resourced to prepare for foreseeable software requirement changes. Mobile Data Computers (MDCs) are installed in all Fire units responding to calls for service. These MDCs run the Fire Mobile software that allows for direct communication and updating of Call For Service information from dispatch including incident type, narrative, call location, and unit location. These devices are also responsible for tracking and reporting Fire GPS unit location back to the dispatchers using the Computer Aided Dispatch (CAD) system. The devices currently installed are over seven years old, no longer supported under warranty, and lack the resources required to run required software efficiently. These factors will make support for these devices extremely difficult and costly moving forward.</p>

PROJECT TITLE:	DEPARTMENT:	TENTATIVE COMPLETION DATE:						
Fire Station 8	Public Works	Jul-23						
DESCRIPTION:								
This project includes the design and construction of a Fire Station to service citizens and businesses in the Woodcreek/Blue Oaks general area. The project budget for FY2019-20 only provides funding for the initial facility assessment and design. The evaluation of funding options for the construction of the facility will occur once these initial project phases are complete.

Multi-Hazard Plan Update	Public Works		ONGOING					
DESCRIPTION:								
<p>The Disaster Mitigation Act of 2000 requires the City to update the local hazard mitigation plan as a condition to receive disaster assistance from the federal government. The City Council approved the City's current Multi-Hazard Mitigation Plan (MHMP) in February 2017. This project provides funding for consultant selection and development of the next MHMP update, due by May 2021. The CIP also includes funding for the plan's annual maintenance activities, which include a comprehensive review and report of the previous year's mitigation plan initiatives by the City's MHMP Steering Committee.</p> <p>The current project balance is \$170,000 which is sufficient to complete the 2021 update. Therefore, the annual funding request for plan preparation and maintenance is reduced from \$50,000 per year to \$40,000 per year. The revised funding plan includes \$20,000 for annual maintenance and \$20,000 for the 2026 plan update.</p>

Downtown Pedestrian Safety Connected Vehicle Pilot Project	Public Works	Dec-20						
DESCRIPTION:								
<p>This project will install flashing pedestrian signs at the heaviest used uncontrolled crosswalks in the Downtown area including the two crossings at the Roundabout. These signs will be activated by passive pedestrian detection and only activated when a pedestrian is present. As part of this pilot project, we will install connected vehicle (CV) technology at the roundabout pedestrian crossings that will give warning to vehicles equipped with CV technology that a pedestrian is ahead and within the crosswalk. In addition, we will equip several City vehicles with On-Board Units (OBU's) to begin testing this technology.</p>

Environmental Utilities Land Acquisition	Environmental Utilities	Jun-21						
DESCRIPTION:								
<p>The Environmental Utilities Department put together a property needs assessment for utilities housed at the Corporation Yard in FY2017-18. The assessment results for the model based on a 1.05% growth rate, show an estimated real estate need of approximately 20-40 acres of land. The land use includes expanding operations over the next 30 years, the addition of a technical training area for specialized utility trades, a multi-use training area, as well as the acquisition of additional buffer/expansion property near the Pleasant Grove Wastewater Treatment Plant.</p>

Utility Exploration Center Interior Exhibit Refresh	Environmental Utilities	Dec-21						
DESCRIPTION:								
<p>This project provides an interior exhibit refresh at the Utility Exploration Center. The current exhibits date from 2008 and have exceeded their useful life. The project includes two phases: Phase 1 for the design of the exhibits and Phase 2 for the fabrication and installation of the exhibits. This initial budget covers project management costs to prepare the request for proposal of Phase 1. Additional funding requests are expected in the future for costs and contracts related to each phase.</p>

Saugstad Restoration	Environmental Utilities	Jun-22					
DESCRIPTION:							
<p>This project provides enhancement of the Dry Creek riparian corridor through the City to coincide with the Downtown Revitalization program which includes new bike trails and pedestrian bridges. Aquatic and riparian habitat will be restored and hydrogeomorphic functions of Dry Creek through Saugstad and Royer Parks will be improved. Floodplain enhancement includes bank recontouring and laying back of creek banks. This area has federally-listed threatened and endangered species (steelhead trout and fall-run Chinook salmon).</p>

Wastewater	30503 500064 NEW	474 / 6230	Jul-19					
PROJECT TITLE:	DEPARTMENT:	TENTATIVE COMPLETION DATE:						
Dry Creek and Pleasant Grove Wastewater Treatment Plants Lighting Rehab	Environmental Utilities	Jun-21						
DESCRIPTION:								
The project replaces all plant lighting outside of occupied spaces to LED. This project provides long-term savings due to increased fixture life and decreased energy consumption, as well as savings from Roseville Electric rebates.

PROJECT TITLE:	DEPARTMENT:		TENTATIVE COMPLETION DATE:					
Advanced Metering Infrastructure Project	Environmental Utilities		Jun-21					
DESCRIPTION:								
<p>Environmental Utilities is facing increased demands to provide enhanced meter data to customers to comply with new water efficiency measures and to meet increased customer expectations. An Advanced Metering Infrastructure (AMI) system is required to offer better meter data to customers. AMI would introduce two-way communication for meters allowing remote reads and greater interaction between the utility and its customers. An AMI system also provides customers a detailed view of their water usage and allows them to make changes to increase their water efficiency. Finally, an AMI system provides better system reliability by bringing enhanced demand management and capital efficiencies. This project progresses from a business case through a third party implementation and finishes with the AMI system being installed and operating.</p>

SMUD Water Reassignment	Environmental Utilities	MULTI-YEAR PROJECT					
DESCRIPTION:							
<p>The project covers the cost for environmental consulting and other expenses related to a negotiated reassignment with the Sacramento Municipal Utilities District (SMUD) to the City of Roseville for 10,000 acre-feet of Central Valley Project (CVP) water. Also includes 2,000 acre-feet of water purchased from SMUD as part of approved Central Valley Project Improvement Act (CVPIA) water transfer to test Roseville ASR Groundwater System injection capacity starting December 2019. The 2000 acre-feet assumed purchase for SMUD either under temporary transfer or reassignment in FY2021.</p>

Sites Reservoir Project	Environmental Utilities	MULTI-YEAR PROJECT					
DESCRIPTION:							
<p>Funding for this project covers the cost to participate in Phase 2 and beyond of the Sites Reservoir Project per Roseville's participation in the Sites Joint Powers Authority. The Sites Reservoir Project is an offstream reservoir that will restore operational flexibility to the State of California water system, meet the co-equal goals identified in the 2009 Delta Reform Act, dedicate water for fishery and flow purposes, contribute flows for water quality purposes, mitigate the effects of climate change, and contribute to the State's renewable energy goals. Roseville is participating in the Sites Reservoir project to shape the Sites Reservoir operations plan to provide maximum lake level benefits to Folsom Reservoir, once Sites Reservoir is complete and in operation.</p>

Integrated Resources Plan	Environmental Utilities	Jun-20					
DESCRIPTION:							
The goal of this planning project is to develop a cohesive and implementable Integrated Resource Plan (IRP) for providing reliable and low-cost utility services to City's residents and businesses. The project also includes the development of a recommended water supply and resources portfolio to 2050.

Courtyard Garden Educational Makeover	Environmental Utilities	Jun-21						
DESCRIPTION:								
<p>The Utility Exploration Center (UEC) planted a garden in 2009 which has declined over time due to inconsistent maintenance and irrigation failures. The garden no longer serves as an inspirational or educational introduction to water-efficient gardening. With new legislation (SB606 and AB1668) raising the bar for educating homeowners about outdoor water use, this is an ideal time for the Water Efficiency Division to be more actively involved in managing the garden. The Water Efficiency Division will do this in partnership with the UEC, Parks, Placer County Master Gardeners, and others.</p> <p>When complete, the garden will show that water-efficient landscaping is beautiful, lower maintenance, and the best match for California living. The garden will help Roseville customers learn how to create new or modify existing landscapes and maintain them for optimum health, resource efficiency, and drought resiliency. We will leverage this asset through year-round hands-on workshops, outdoor interpretative signage (accessible to park visitors at all hours), instructional videos, and information and resources on the City's website.</p>

Debt Management Details

Loans:

Youth Development Fund obligation to Auto Replacement Fund

Funding for Adventure Club school site(s)/portable(s).

Maturity date of 7/01/2031

Diamond Oaks Golf Course obligation to Auto Replacement Fund

Funding for renovations of the Diamond Oaks Golf Course.

Maturity date of 07/01/2035

Woodcreek Golf Course obligation to Auto Replacement Fund

Funding for the construction of the Woodcreek Golf Course club house.

Maturity date of 07/01/2036

Roseville Community Development Corp. obligation to Strategic Improvement Fund

Funding for RCDC support.

Roseville Community Development Corp. obligation to Successor RDA Agency Fund

Funding for RCDC support.

Maturity date of 01/31/2032

Successor RDA Agency Fund obligation to General Fund

Funding for Vernon Street streetscape improvements.

Funding for County school district pass-through payment.

Funding for flood control mitigation construction throughout the City's creek system.

Successor RDA Agency Fund obligation to Strategic Improvement Fund

Funding for the façade and landscape renovations for the Automall wall.

Funding for the startup of the Roseville Community Development Corporation.

Funding for Riverside Avenue infrastructure and streetscape enhancement project. Provided funding for significant improvements.

Funding for the acquisition of property located at 238 Vernon Street (JCPenney Building) to create a viable development site in Downtown.

Successor RDA Agency Fund obligation to Gas Tax Fund

Funding for flood control mitigation construction throughout the City's creek system.

Successor RDA Agency Fund obligation to Automotive Replacement Fund

Funding for the startup of the Roseville Community Development Corporation.

Funding for the acquisition of 120 Grant Street to support Civic Center expansion.

Funding for exterior improvements to the Tower Theater.

Successor RDA Agency Fund obligation to Low & Moderate Income Fund

Loan for 20% of all Successor Loans obligations to the Low & Moderate Income Fund per AB1484 Section 34191.4(C).

Water Rehabilitation Fund obligation to Water Construction Fund

Funding for water tank rehabilitation.

Maturity date of 07/01/2022

Water Operations Fund obligation to Water Construction Fund

Funding for Advanced Metering Project.

Maturity date of 7/01/2029

General Fund obligation to General Fund Contribution by Developers

Funding of the Citywide Qualified Climate Action Plan, General Plan Update.

Maturity date of 07/01/2029

Public Facilities Fund obligation to Automotive Replacement Fund

Funding of design and construction for second Downtown parking garage (Vernon Street and Oak Street).

Maturity date of 07/01/2034

Public Facilities Fund obligation to Strategic Improvement Fund

Funding of the 316 Vernon Building Project.

Maturity date of 07/01/2026

Downtown Parking Fund obligation to Strategic Improvement Fund

Funding of the Oak Street parking garage.

Maturity date of 07/01/2027

Revenue Bonds:

Roseville Natural Gas Finance Authority Gas Revenue Bonds, Series 2007

Funding the prepayment of about 46 billion cubic feet of natural gas that Merrill Lynch Commodities will supply over 20 years. The gas delivered is used in the Roseville Energy Park. The bonds are fixed rate.

Maturity date of 02/15/2028

Electric System Revenue Refunding Bonds, Series 2010

Refunding the 2008 Electric Series B bonds. The original issue was to finance the construction and acquisition of the Roseville Energy Park, a power generation plant that is designed to employ current technology for clean, fuel-efficient power. In February 2017 the Electric 2010 Series bonds were partially refunded, leaving a principal amount of \$1,520,000 and new maturity date of 02/01/2020. The bonds are fixed rate.

Maturity date of 02/01/2020

South Placer Wastewater Authority Wastewater Revenue Refunding Bonds, Series 2011C (64.57% City Share)

Refunding the 2008 SPWA Series A & B bonds. The original issues were to fund the construction of the Pleasant Grove Wastewater Treatment plant and smaller related projects. The bonds are fixed rate.

Maturity date of 11/01/2020

South Placer Wastewater Authority Wastewater Revenue Refunding Bonds, Series 2013 (64.57% City Share)

Refunding the 2011 SPWA Series A & B bonds. The original issues were to fund the construction of the Pleasant Grove Wastewater Treatment plant and smaller related projects. The bond is a direct purchase agreement with US Bank.

Maturity date of 11/01/2035

Electric System Revenue Refunding Bonds, Series 2013

Refunding of the 2004 and 2005 Electric Certificates of Participation bonds. These bonds are a fixed rate.

Maturity date of 02/01/2029

Debt Management Details

Electric System Revenue Refunding Bonds, Series 2014

Refunding of the 2004 Certificates of Participation. The original issue was to finance certain improvements to the City's electric system. The bonds are fixed rate.

Maturity date of 02/01/2034

Electric System Revenue Refunding Bonds, Series 2017A

Partial refunding of the 2009 Certificates of Participation and the 2010 Electric Refunding Bonds. The original issues were to finance certain improvements to the City's electric system and the Roseville Energy Park. The bonds are fixed rate.

Maturity date of 02/01/2037

Electric System Revenue Refunding Bonds, Series 2017B Taxable

Partial refunding of the 2009 Certificates of Participation and the 2010 Electric Refunding Bonds. The original issues were to finance certain improvements to the City's electric system and the Roseville Energy Park. The bonds are fixed rate and taxable.

Maturity date of 02/01/2022

South Placer Wastewater Authority Wastewater Revenue Refunding Bonds, Series 2017 (64.57% City Share)

Refunding of the SPWA Series 2014 Revenue Bonds, partial refunding of the SPWA Series 2011C Revenue Bonds, and new funding for the Wastewater Treatment Plant Expansion project.

Maturity date of 01/01/2037

Certificates of Participation:

Electric System Revenue Refunding Certificates of Participation, Series 2004

Financing certain improvements to the City's electric system. The capital improvements include: construction of two new substations, 60KV line extensions, overhead to underground system conversions, and substation expansion and upgrades. The bonds are fixed rate. The 2004 bonds were partially refunded in 2014, leaving a principal amount of \$5,000.

Maturity date of 02/01/2034

Electric System Revenue Refunding Certificates of Participation, Series 2009

Refunding the 2002 Electric Refunding bonds. The original issue was to finance the refunding of the 1997 and 1999 Electric certificates and to use a portion of the net proceeds to finance certain additions, betterments and improvements to the City's electric system. In February 2017 the 2009 Series bonds were partially refunded, leaving a principal amount of \$4,750,000 and a new maturity date of 02/01/2020. The bonds are fixed rate.

Maturity date of 02/01/2020

Electric System Revenue Refunding Certificates of Participation, Series 2012

Refunding the 2008 Electric Series A bonds. The original issue was to finance the construction and acquisition of the Roseville Energy Park, a power generation plant that is designed to employ current technology for clean, fuel-efficient power. The bonds are variable rate (VRDBs) with weekly resets.

Maturity date of 02/01/2035

Certificates of Participation, Series 2013A

Refunding the 2003 Public Facility and Golf Course bonds. The original issue was to finance the construction of the City's Corporation Yard and construction of the Woodcreek Oaks Golf Course Club House. The bonds are fixed rate.

Maturity date of 08/01/2025

Water Utility Revenue Certificates of Participation, Series 2015

Refunding the 2007 water bonds and use a portion of the net proceeds to finance the acquisition and/or construction of certain capital improvements and additions to the City's water utility system. The 2015 water bonds included a new money component to assist in the construction of certain capital improvements and additions to the City's water utility system. The bonds are fixed rate.

Maturity date of 12/01/2029

Certificates of Participation, Series 2015 (316 Vernon Street Project)

Completing the infrastructure component of the 316 Vernon Street mixed-use City building. Annual debt service payments will be covered from the lease revenues as well as contributions from the Public Facilities and Strategic Improvement Fund. The bonds are fixed rate.

Maturity date of 08/01/2045

Tax Allocation Bonds:

Successor Agency of the Redevelopment Agency of the City of Roseville Tax Allocation Refunding Bonds, Series 2014

Refunding the 2002 RDA bonds. The original issue was to finance various capital improvement projects, including the renovation of the Tower Theater, the Civic Plaza Parking Garage and the streetscape projects for Riverside Avenue and Historic Old Town.

Maturity date of 09/01/2033

Successor Agency of the Redevelopment Agency of the City of Roseville Tax Allocation Refunding Bonds, Series 2016-T

Refunding the 2006A, 2006A-T and the 2006H-T RDA bonds. The original 2006A issue was to complete the Downtown Roseville infrastructure designing and the engineering of public improvements identified in the Downtown Vision. The original 2006A-T issue was to establish a low interest rate revolving loan fund for private property improvements; incentivizing for private projects such as fee subsidies or waivers. The original 2006H-T issue was to develop and sell a mixed use development project and provide down payment assistance to first time homebuyers.

Maturity date of 09/01/2040

Glossary of Budget Terms

Appropriation:	Legal authorization to make expenditures and incur obligations for specific purposes.
Budgetary Basis of Accounting:	Budgetary basis of accounting refers to the timing of when revenues and expenditures are recognized in the accounts and reported. In accordance with GAAP (Generally Accepted Accounting Principles), the City budgets for all governmental funds using the modified accrual basis of accounting, with the exception of interfund loan disbursements and repayments which are budgeted as expenditures and revenue. Governmental fund revenues are recognized when measurable and available. The City considers all revenues reported in the governmental funds to be available if the revenues are collected within 120 days after year-end, with the exception of property taxes which is considered available if collected within 60 days after year-end. Proprietary and fiduciary funds are budgeted using the modified accrual basis of accounting for expenses, with the exception of interfund loan transactions which are budgeted as expenditures and revenue, and the full accrual basis of accounting for revenues. Proprietary and fiduciary fund revenues are recorded when earned regardless of when the cash flows occur.
Capital Improvement Project (CIP):	Expenditures related to the acquisition, expansion or rehabilitation of an element of the City's infrastructure (physical capital assets such as streets, water transmission and distribution system, wastewater system, public buildings, and parks).
Capital Project Funds:	A fund used to account for financial resources for the acquisition or construction of major capital facilities which are separate from ongoing operating activities.
Capital Outlays:	Expenditures which result in acquisitions of, or addition to, capital assets; includes expenditures for furniture, vehicles, and all types of machinery and equipment, including all costs necessary to place the capital outlay item into service. In order to qualify as a capital outlay expenditure, it must: <ol style="list-style-type: none">1. have an estimated useful life of more than two years;2. have a unit cost of more than \$5,000; and3. represent a betterment or improvement.
Department:	Major unit of organization in City government comprised of sub-units named divisions.
Division:	Major sub-unit of a department. Also known as organization key, ORG key, or Cost Center.
Enterprise Funds:	A fund that provides goods or services to the public for a fee or charge that makes the entity self-supporting.
Fiscal Year:	Twelve-month period to which the operating budget applies. The twelve-month period begins on July 1st and ends on June 30th.
Fund:	Fiscal entity with revenue and expenses which are segregated for the purpose of carrying out a specific purpose or activity. The major funds are the General, Electric, Water, Wastewater, and Solid Waste.
General Fund:	The chief operating fund to be used in accounting for all financial resources except those required to be accounted for in another fund.

Glossary of Budget Terms

Indirect Allocations: The City uses the indirect cost allocation process to allocate departmental costs from the General Fund to all funds that receive benefit from the services that the General Fund departments provide. The City uses a consulting firm which specializes in indirect cost studies to prepare the indirect cost allocation plan. The plan is based on the most current budget information available at the time the study is completed - typically six months prior to the adoption of a new budget. The consulting firm makes several onsite visits to interview staff from the General Fund departments that provide services to other departments. Cost allocation drivers are confirmed during the interview process and budget data is provided to the consultant. The budget data used in the study excludes reimbursed expenses. Examples of reimbursed expenditures are Capital Improvement Projects and secondary labor that is direct charged from one fund to another. The consultant provides a comprehensive study that is provided to all departments for review and comment. Staff has an opportunity to comment on the plan and to correct any errors.

Internal service funds at the City directly charge costs of service to funds and departments receiving the service; therefore, the only fund that uses the indirect method of allocating costs is the General Fund.

Indirect cost charges appear on the fund summaries that are paying for the services and reduce the expenditures of the departments providing the services on the fund summary for the General Fund. The purpose is to ensure that the General Fund is reimbursed for the services that it is providing throughout the City.

Internal Service Funds: Funds established to finance and account for services and supplies furnished by a designated department to other departments within the City. Examples of the City's Internal Service Funds include the Automotive Services Fund, the Automotive Replacement Fund, the Information Technology Operations Fund, the Facility Services Fund, and Workers Compensation Fund. Costs from these funds are directly charged to those funds and departments receiving the benefits of the services provided.

Materials, Supplies, and Services: Materials and supplies are expendable items having a unit cost of less than \$5,000 or which by their nature can be consumed during the course of the fiscal year. Examples are paper, pens, printed forms and small tools that are not of a capital nature. Services may be performed by outside firms, individuals, or City departments and may include consulting services, telephone service, advertising, office equipment maintenance, insurance, and utilities (including those utilities provided by City departments).

Organization Key/Cost Center: Major sub-unit of a department. Also known as ORG Key and Division.

Performance Objectives: Desired levels of accomplishment expressed in quantified terms over a given time period by a program manager. They may relate to high-level goals of the department to which the program is assigned, as well as to the City's overall goals and objectives as defined by the City Council.

Performance Measures: Indicators which are used to assess how well objectives have been accomplished. Performance measures are grouped into these categories:

1. Work volume measures that indicate the level of work to be performed with the resources requested (Ex. tons of solid waste collected);

Glossary of Budget Terms

-
2. Efficiency and effectiveness measures that provide information on the level of productivity, and that show how effectively or how well objectives are met (example: percent of Capital Improvement Projects completed).

Performance Target: Numerical value that specifies a level of performance to be achieved within the financial resources requested in the budget, and during the fiscal year. A target can represent either a desired objective to be achieved or a forecast of work volume.

Permanent Funds: A fund used to report resources that are legally restricted to the extent that only earnings, not principal, may be used for purposes that support or benefit the government or its citizens.

Program: A group of related functions or activities designed to achieve one or more common objectives. In the City's program structure, a program is synonymous with a division.

Program / Performance Budget: Budget which contains specific and measurable objectives and specifies the work volume to be accomplished and the efficiency and effectiveness levels to be achieved for a given program. Such a budget also is used to allocate resources to the functions or activities that comprise a program rather than to specific items of cost.

Resources / Management System: A method of improving organizational performance, planning and decision-making, and resource allocation. This is accomplished by providing an ongoing system of community goal formulation, citizen participation, public opinion surveys, management-by-objectives, program/performance budgeting, performance monitoring, and evaluation of City services to arrive at a comprehensive budget tied to specific results for the fiscal year.

Reimbursed Expenditures: Accounting adjustments credit a budget expenditure thus serving to reduce the total expenditures of a program. Reimbursements generally result from expenditures chargeable to other programs, such as, work performed by one department or division for another. The allocation of indirect costs is budgeted as reimbursed expenditures.

Revenue: Income, including transfers and excluding proceeds from the sale of bonds and notes, for the fiscal year. The major categories of revenue include local taxes, state shared revenues, charges for current services, public utility sales, federal revenue sharing, and licenses and permits.

Salaries, Wages, and Benefits: Compensation paid to employees of the City, and the employee benefits costs, such as the City's contributions for retirement, deferred compensation, group insurance, uniform allowance, and workers' compensation insurance. Also included is compensation paid to elected officials as provided by the City Charter. It does not include fees for professional and other services obtained on a contractual basis.

Special Revenue Funds: A fund that is used to account for the proceeds of a specific revenue source that is restricted or committed to expenditure for specified purposes other than debt service or capital projects.

Private Purpose Trust Funds: A fund used to report any trust arrangement under which principal and income benefit specific individuals or organizations.
