HIGHLIGHTS

FISCAL YEAR 2011-2012

This report includes a series of graphs illustrating significant trends in major operational areas, financial analysis by fund, performance reporting on specific organizational objectives, and the financial condition of the city for the first two quarters of fiscal year 2012. The June 30, 2012 projection reflects revised revenue projections for the city and changes in program costs that have occurred since the adoption of the budget.

Roseville, like many other agencies, is struggling with the economic slowdown. Total General Fund Operating Revenues are projected to be \$1.7 million less than originally budgeted by the end of the year. The largest revenue variance is in one time Operating Transfers in from the Strategic Improvement fund, which is currently projected to be \$1.0 million less than originally budgeted. This reduction is the result of better than anticipated ending fund balance in FY11, which made the transfer from Strategic Improvement to General Fund unnecessary. Property taxes are expected to come in approximately \$828 thousand less than adopted budget with Sales tax expected to be \$900 thousand higher than budget. The elimination by the state of the motor vehicle in-lieu, under payment of Property Tax in-lieu of sales and other changes comprise the rest of the decrease

The city has been proactive during the last several of years; reducing operating costs at the first signs of the slowdown. For the past five consecutive years, departments have been asked to reduce their operating budgets. In FY12, they were asked to hold the line. Adjustments have included:

- Reduction of approximately 186 General Fund positions.
- Reductions in materials, supplies and services budgets
- Re-evaluation of projects and transfers budgeted for this fiscal year.

These adjustments have enabled the General Fund to maintain an Economic Reserve equal to 10% of net operating expenses.

Utility funds are doing well, as rate increases, along with cost cutting measures mentioned above, enabled these funds to maintain positive fiscal balances.

Adventure Club and the City's golf courses are more subject to economic fluctuations, but are on track to meet budget this year.

In September 2011, it was discovered that a large accounts receivable balance was included in the Estimated Available Resources and Reserves. This balance has accumulated over the last 10 years and is currently more than \$400,000 (over 120 days old). An Allowance for Doubtful Accounts for \$215,463 was recorded effectively reducing the available resources and recognizing a negative balance. These administrative issues coupled with the current economic conditions and reduced state grant funding has created a challenge in balancing the child care fund. In addition to addressing the accounts receivable collection issues, staff are continuing to evaluate the impacts of reducing operational expenses.

Per Ordinance 3388, Section 4.06.040, the City Council may annually appropriate up to ninety (90%) percent of the annual interest earnings. To smooth out the monies available for grants, a higher percentage can be awarded when not all available interest was awarded in previous years. This allows for a higher award amount in the current fiscal year, while meeting the requirements of ordinance 3388.

- Percent of satisfied custodial customers	95%	95%			95%	90%
- Total cost per square foot cleaned	\$0.33	\$0.42			\$0.75	\$1.40

COMMENTS
 During the second quarter the preventive maintenance (PM) hours were down compared to the first quarter hours. This is largely due to shifting the PM's from MP2 into Maximo. Our target is to have all PM's loaded and generating out of Maximo by the first of February. Work order being completed within 30 days increase the second quarter mainly because staff was able to dedicate time to all other work orders that would have normally been spent on PM work orders. Both Maintenance and Custodial Divisions are on track to meet the target for annual cost per square foot.
