Apply now for Senior Information Technology Analyst

Salary range \$94,600 – \$126,800

## Who we're looking for

We are looking for a dynamic individual to step into advanced technical and innovative leadership roles as a Senior Information Technology Analyst with the City's IT department. If you have a passion to lead a technical team to meet business objectives through a balance of technical hands-on activities, project management, resource management and leadership, then this is your opportunity to create synergy and make a difference in an organization that values trust, teamwork, communication and collaboration.

As a Senior Analyst in IT's Network Infrastructure division, you'll be in a dynamic position helping to ensure the division's success in daily operations, internal projects, external project support, security enhancements and long-term planning in support of City Council goals. The Network Infrastructure division provides support and services in a variety of disciplines including servers, virtualization, storage, network, telecommunications, radio and physical security.

The Senior Analyst position offers a balance of technical and leadership roles collaborating with IT's seven divisions as well as the City's 14 departments in our full-service City.
