Annual projects not listed in the table above include:

- Roadway and Bike Trail Resurfacing Projects
- Curb, Gutter, Sidewalk, and Pedestrian Ramp Repair and Upgrades
- Traffic Signal Synchronization Retiming

Projects listed in the above table that are currently under construction are shown in ***bold italics***. Projects are deleted from the above table upon completion of construction. See below for more detailed information on each project. All information is subject to change at any time. If you have questions about any project listed, please call the contact person listed below at (916) 746-1300.

RECENT COMPLETIONS

1. Oak Street Parking Garage

Contact person: Raul Cervantes

Project description: Constructed a 429 space parking garage behind the Magic Circle Theater.

Final cost: \$12,684,729

Source of funds: Redevelopment Agency, Public Facility Funds, and SIF loan

Project acct #: 10005/151001

Status: Completed.

2. Fire Station #1 Construction

Contact person: Stefanie Kemen

Project description: Constructed a replacement fire station for the original Fire Station #1 at the intersection of Lincoln and Oak.

Final cost: \$7 million

Source of funds: Fire Facility Tax Fund and Local Transportation Fund

Project acct #: 121001

Status: Completed.

3. Washington/Atkinson Roller Compacted Concrete

Contact person: Noah Siviglia

Project description: Removed and replaced the pavement surface of Washington Boulevard from just south of Blue Oaks to Pleasant Grove, Atkinson in front of Denio's Auction, Denio Loop, and Hickory. The project will also restriped the roadway to provide two vehicle lanes with bike lanes in both the northbound and southbound directions on Washington.

Final cost: \$7.3 million

Source of funds: TDA/Gas Tax/TMF Funds/SB-1

Project acct #: 20010/172503

Status: Completed.

4. Widen Woodcreek Oaks - Pleasant Grove to Campus Oaks

Contact person: Stefanie Kemen

Project description: Widened Woodcreek Oaks from two to four lanes between Pleasant Grove and the Campus Oaks Plan Area. The widening mostly occurred in the median, and included the widening of the bridge over Pleasant Grove Creek.

Final cost: \$7,000,000
Source of funds: TMF
Project acct #: 162502

Status: Completed.

5. Miner's Ravine Trail Slope Protection

Contact person: Cathy Gosalvez

Project description: Repaired erosion of rock slop protection along the bike trail's shoulder at the Sunrise Boulevard undercrossing.

Final cost: \$181,731
Source of funds: TDA
Project acct #: 90004/169001

Status: Completed.

6. Harding to Royer Bike Trail Segment 3

Contact person: Cathy Gosalvez

Project description: Constructed a bike trail along the north side of Dry Creek connecting the Miner's Ravine bike Trail to Royer Park.

Final cost: \$579,425
Source of funds: TDA
Project acct #: 119001

Status: Completed.

7. Sierra Gardens Transfer Point

Contact person: Cathy Gosalvez

Project description: Made improvements to existing transfer station including shelters, benches, bicycle facilities, landscaping, solar trash compactors, ADA improvements, digital display boards, Connect Card fare dispenser, and roadway upgrades.

Final cost: \$1,752,346

Source of funds: TDA

Project acct #: 90009/099011

Status: Completed.

8. Traffic Signal on Junction at Park Regency

Contact person: Daniel Lierly

Project description: Constructed a new traffic signal at the intersection of Junction and Park Regency.

Final cost: \$450,000

Source of funds: TDA

Project acct #: 90004/500027

Status: Completed

PROJECTS UNDER CONSTRUCTION

1. Downtown Bridges Project

Contact person: Stefanie Kemen

Project description: Relocates the Icehouse Bridge, replaces the library bridge, and constructs a new pedestrian bridge across Dry Creek between Downtown Roseville and Royer Park.

Estimated cost: \$11 million

Source of funds: CMAQ, FTA, ATP grant, TDA, and Public Facility funds

Project acct #: 129005 & 139002

Status: Preliminary streambank work was completed in 2017. Bridge construction began in 2018 and be completed by the fall of 2019.

UPCOMING PROJECTS

2019

1. Changeable Message Sign (CMS) on Pleasant Grove

Contact person: Paul Anderson

Project description: Installs a CMS on westbound Pleasant Grove before Roseville Parkway.

Estimated cost: \$160,000

Source of funds: TMF

Project acct #: 20004/152501

Status: Under design. Construction is planned to occur in 2019.

2. 645 Riverside Building Demolition

Contact person: Daniel Lierly

Project description: Removes an unused building recently purchased by the City that has been repeatedly flooded over the years. The project is funded by FEMA as a part of their repetitive flood loss removal program.

Estimated cost: \$38,000

Source of funds: FEMA

Project acct #: NA

Status: Construction contract has been awarded and removal is planned to occur during the summer of 2019.

3. Maidu Park Bike Trail Repair

Contact person: Cathy Gosalvez

Project description: Repairs deteriorated bike trails throughout Maidu Park. Phase 1 will repair all of the bike trails except for a 4,600 foot section along McLaren Drive. The McLaren Phase 2 project is currently unfunded and does not have an expected construction date.

Estimated cost: \$215,000

Source of funds: TDA

Project acct #: NA

Status: Construction bids will open on May 13, 2019, with construction expected later this summer.

4. Hillcrest Drainage Improvements

Contact person: Noah Siviglia

Project description: Upgrades portions of the storm drain system, curb, gutter, sidewalk, and pedestrian access ramps.

Estimated cost: \$3,490,917

Source of funds: Gas Tax

Project acct #: 20002/082001

Status: Project has been bid. Construction is now planned to occur beginning the summer of 2019.

5. Crestmont Avenue Drainage Improvements

Contact person: Noah Siviglia

Project description: Installs new storm drain line along Piedmont Way from Sheridan to Cirby to reduce surface flows along Crestmont between Piedmont and Cirby.

Estimated cost: \$422,974

Source of funds: Gas Tax

Project acct #: 20002/082001

Status: Project has been bid. Construction is planned to occur in 2019 with Hillcrest work.

6. 2019 Roadway Resurfacing

| Project | Location | Comments |
|---|---|--|
| Arterial Resurfacing – Federal RSTP - \$5 million – \$1 million HUT | Blue Oaks – Del Webb to Fiddymont Pleasant Grove – Michener to Fiddymont Woodcreek Oaks – Canevari to Junction Stanford Ranch Vernon – Douglas to Cirby Orlando Cirby – Sunrise to Rocky Ridge E. Roseville Parkway – Secret Ravine to Alexandra Sierra College – Miner’s Ravine to Secret Ravine Eureka – Douglas to Sierra College Riverside – Darling to City limits Harding – Lead Hill to southern limit Estates, Folsom, and Lincoln, and Orlando | Construction in 2019 Contact: Noah Siviglia |
| Residential Resurfacing - \$2 million SB 1 - \$900k HUT | Some of the Silverado Oaks neighborhoods Huntington Greens Lexington Greens Woodbridge Creek Automall Baseline from Fiddymont to western City limits | Construct in 2019 Contact: Paul Anderson |
| Curb Ramp, Curb, Gutter, & Sidewalk Project - \$2.9 million in Gas Tax | Upgrade 412 pedestrian curb ramps and repair curb, gutter, and sidewalk throughout the City and in preparation for the 2019 and 2020 resurfacing | Construction in 2019 Contact: Daniel Lierly |
| Bike Trail Resurfacing - TDA \$336k | Slurry seal various bike trails around the City as a part of the preventative maintenance program | Construction in 2019 Contact: Cathy Gosalvez |

2020

1. **Washington at All America City Roundabout**

Contact person: Noah Siviglia

Project description: Constructs a roundabout at the intersection of All America City with Washington Boulevard. Improvements include pedestrian crossing at the roundabout.

Estimated cost: \$2.5 million
Source of funds: CMAQ and TDA
Project acct #: Not yet established

Status: Currently under design. Construction is planned to occur in 2020.

2. **Storm Drain Repairs**

Contact person: Noah Siviglia

Project description: Repairs damaged, plugged, or collapsed storm drain pipe at various locations throughout the City.

Estimated cost: Being developed
Source of funds: Gas Tax
Project acct #: Not yet established

Status: Design starting winter of 2019 with construction in 2020.

3. **Creek Bank Stabilization and Drainage Repair**

Contact person: Paul Anderson

Project description: Repairs eroded stream banks and storm drain outfalls damaged by the 2016/2017 winter storms. Current locations include Linda Creek behind Mallard Drive, Country Villa Mobile Home Park at Linda Creek, the Flood Control Project bypass culvert inlet erosion, drainage outfall damage at 730 Sunrise along Linda Creek, outfall erosion at 1455 West Colonial Parkway, outfall erosion at 608 Juanita Way, and bank erosion behind the Downtown Library. Temporary measures were implemented at some locations to reduce further damage during the summer of 2017. Some permanent repairs are planned to be included with other projects like the Downtown Bridges or Dry Creek Greenway. The remainder will be constructed in 2020.

Estimated cost: Being developed
Source of funds: TBD
Project acct #: Not yet established

Status: Design starting spring of 2019 with construction in 2020.

4. Bridge Preventative Maintenance Project

Contact person: Daniel Lierly

Project description: Seals the bridge decks and makes minor repairs to 17 bridges around the City. Needed repairs were identified by Caltrans during their biennial bridge inspections. None of the repairs are structural issues, but are maintenance related.

Estimated cost: Being developed
Source of funds: Highway Bridge Program grant
Project acct #: Not yet established

Status: Design starting summer of 2019 with construction in 2020.

5. Taylor Road Park and Ride Lot Upgrades

Contact person: Daniel Lierly

Project description: Upgrades the park and ride lot on Taylor road to provide improved commuter bus facilities like bus stop shelters.

Estimated cost: Being developed
Source of funds: LCTOP and TDA
Project acct #: Not yet established

Status: Design starting fall of 2019 with construction in 2020.

6. Replacement of bridge on Oakridge over Linda Creek

Contact person: Stefanie Kemen

Project description: Replaces the bridge on Oakridge over Linda Creek. Our Caltrans inspectors recommend replacement.

Estimated cost: \$3.7 million
Source of funds: Federal HBR funds and Prop 1B funds
Project acct #: 20004/112503

Status: Under design. Construction is planned to occur in 2020.

7. Eureka/I-80 Westbound On-Ramp Widening

Contact person: Stefanie Kemen

Project description: Widens the westbound on-ramp from Eureka to Interstate 80 from one mixed flow metered lane to two mixed flow metered lanes and one unmeted HOV lane. This will require widening the bridge structure over Miner's Ravine.

Estimated cost: \$9.1 million

Source of funds: SPRTA for preliminary design - completed. Caltrans will complete final design and construction using SHOPP funds.

Project acct #: NA

Status: Under design by Caltrans. Construction is planned to occur in late 2020.

8. 2020 Roadway Resurfacing

| Project | Location | Comments |
|---|---|---|
| Residential Resurfacing – Gas Tax and SB 1– \$2.4 million | All or a portion of Hillcrest, King Oaks, Elm Court, Rosekrest, Garbolino, Collins, Sunset, Sunrise, Paolini, Colnar, Azure, Kindred Haven, Herb Robinson, Vitale, Westwood, Rosegarden, Hill & Atkins, Los Cerritos, Bonnie Brae Acres, Roseville Heights, and Original Roseville subdivisions | Construction in 2020 Contact: |

2021

1. Dry Creek Greenway East Multi-Use Trail Phase 1

Contact person: Stefanie Kemen

Project description: The first phase of a two phase trail project planned for the south central area of Roseville. This first phase will begin at Darling Way near Riverside and extend to Rocky Ridge Drive. A future phase will continue the trail from Rocky Ridge to the City limits past Old Auburn Road.

Estimated cost: \$16 million

Source of funds: Local Transportation Fund, ATP grant, and other grants

Project acct #: Not yet established

Status: Completed environmental clearance. Will be under design fall of 2019. Construction could occur as soon as 2021.

2. Roseville Pkwy Widening – Galleria to Gibson & Pleasant Grove Triple Lefts

Contact person: Noah Siviglia

Project description: The project will widen Roseville Parkway from six to eight lanes from Galleria Boulevard to Gibson Drive. The project will also include creating a triple left turn lane from southwest Pleasant Grove (coming from Highway 65) to eastbound Roseville Parkway (towards the mall).

Estimated cost: \$8 million

Source of funds: NCCFD and TMF

Project acct #: Not Established

Status: Plan to begin design in winter of 2019 with construction as early as 2021.

3. 2021 Roadway Resurfacing

| Project | Location | Comments |
|--|----------|--|
| Residential Resurfacing – Cost and source of funding being developed | TBD | Construction in 2021 Contact: Jerry Dankbar |
| Arterial Resurfacing – Cost and source of funding being developed | TBD | Construction in 2021 Contact: Jerry Dankbar |

2022

1. Mahany Open Space Trail

Contact person: Stefanie Kemen

Project description: Constructs new multiuse paths in the open space between Woodcreek High School, the Aquatics Center, and Mahany Park, Fiddymont Road, and Junction Boulevard.

Estimated cost: Being developed

Source of funds: Yet to be determined

Project acct #: Not yet established

Status: Construction could occur as early as 2022.

Timing Unknown

1. Washington “Andora” Underpass Widening

Contact person: Stefanie Kemen

Project description: Widens Washington Boulevard to four lanes from Sawtell to Pleasant Grove Boulevard. This will include widening the underpass under the UP railroad tracks. May be split into two phases with Phase 1 concentrating on the bike and pedestrian improvements and the widening of Washington Boulevard up to the approaches to the Andora underpass. A future Phase two would widen through the underpass.

Estimated cost: \$30 million

Source of funds: TMF, CMAQ, ATP, and other yet to be determined grant funds

Project acct #: 20004/072515

Status: The project is under design. Staff is pursuing Federal funding for the construction of this project.

2. Roseville Parkway Extension

Contact person: Stefanie Kemen

Project description: Extends 4 lanes of Roseville Parkway from Washington Boulevard to the west, over the railroad tracks, to Foothills Boulevard.

Estimated cost: \$22 million

Source of funds: TMF

Project acct #: To Be Determined

Status: A Request for Proposals will be released this summer with environmental and design beginning this fall. Construction will begin sometime between 2023 and 2025 depending upon the amount of time needed for design.
