

Please bring your answers to these questions to the 1/27/11 meeting.

1. Imagine Roseville in five years and that all economic signs are pointing in a positive direction. Imagine the City's economy has become everything you've hoped for. What does it look like? What kind of companies and jobs are here? What are other cities saying about Roseville? What is the Business Journal reporting about Roseville? What do long-time businesses say about Roseville? What factors do newly located businesses say brought them to Roseville? Who is sitting around the table reviewing Roseville's economic accomplishments and planning for the next five years? Imagine you are interviewed by a reporter and asked for examples of what Roseville has done to improve their economy so dramatically? What examples would you give?
2. Who are the cutting edge leaders in your industry? Do you know of someone local in your industry that challenges old ways of thinking and gets people excited about the future?
3. Please bring any examples you may have of compelling visions statements (from your own industry or others) and strategic plans you think have one or more exceptional qualities (i.e., easy to understand, graphically interesting, practical, inspiring, etc.)
