Business Solar Energy Program PV System Reservation

Customer-generator Information		
Customer-generator Name	RE Account	
Customer Address		
Contact Telephone	Contact Email	
System Information		
System Size – CEC AC Watts	Estimated Annual kWh Production*	
Rebate Expiration Date	RE Electric Meter Number	
Type of Metering Upgrades Required:	Customer Cost for Upgrade:	
Net Meter PBI meter No Upgrades		
Payment Type – if requesting rebates		
Expected Performance Based Incentive - EPBI (Systems size 1KW to <10kW)		
Rebate Level: \$/AC Watt		
Total Rebate Payment		
Performance Based Incentive – PBI (System size 10-100kW)		
Rebate Level (\$/kWh)		
Period of Payment – in months		
Baseline Yearly Incentive*		
Interconnection Only – PPA System, or No Rebate Funds Requested		
Applicant is requesting interconnection only - no rebate will be provided for this system. (Initial this box)		
* PV kWh production will vary due to changes in yearly solar irradiance, ongoing system maintenance, annual cleaning of the PV modules and the natural de-rating of the PV system over time. Quarterly PBI payment will be based on actual kWh energy production. The baseline yearly incentive listed above is an approximation of anticipated kWh energy production only.		

To receive your rebate, all criteria as outlined in the RE PV Program Guidebook, RE Rule 21 and the Business Solar Energy Program applications must be met.

IMMEDIATELY NOTIFY ROSEVILLE ELECTRIC OF ANY SUBSTANTIVE CHANGES OR MODIFICATIONS TO THE INFORMATION PROVIDED IN YOUR PV REBATE PROGRAM APPLICATION.

You are urged to consult your tax advisor concerning the taxability of rebates. Roseville Electric is not responsible for any taxes that may be imposed as a result of your receipt of this rebate.
