The Placer County Transportation Planning Agency (PCTPA) will host a third community workshop for the I-80/SR 65 interchange improvements project. PCTPA is starting the environmental assessment for this project and the Public Scoping Meeting is an opportunity for the public to provide comments or concerns. Input received will become part of the public record and will be considered in developing alternatives to be studied in the environmental document.

Representatives from PCTPA, Caltrans, and the project consultant team will be available to provide an overview of the project, the schedule, and will answer questions and discuss ideas in an informal format. Several information stations providing maps, aerial photographs, and other project materials will be available.
