prescription drugs in your home

SECURE prescription in a locked storage area

DISPOSE of unneeded prescription drugs

Protect

- ... our environment. Medications disposed of down the toilet or in the trash end up in our water supplies and damage our environment.
- ... our teens from an epidemic of Rx abuse. 7 of the 10 most commonly abused drugs by teenagers are prescription medications. Teens get dangerous drugs from family and friends—and their medicine cabinets.
- ... our young children from a leading cause of accidental poisoning.
- ... our seniors from misuse and mistakes.
- ... your home. Addicts are looking in as many medicine cabinets as possible—maybe even yours.
